A-1 PAK-A-PUNCH™ 3 Models To Choose From:

VERSATILE & ECONOMICAL

Model 3 (#PAK-3) Automotive Plus

Exceptionally Versatile, Model 3 will Punch DOMESTIC and FOREIGN Automotive Keyblanks. Originally designed for Automotive Blanks, it is now possible to equip the PAK-3 for SCHLAGE. And, You can switch between Automotive & Commercial.

MODEL 3S (#PAK-3S) FOR SCHLAGE

Order the PAK-3S and the machine comes setup to Punch Schlage Keys. Nothing else is required. And with the #PAK-3S you also can order accessories to punch Automotive.

MODEL 1 (#PAK 1) For I/C Core

This Stand Alone Unit will
Code Cut Systems

● A2 ● A3 ● A4

Model #1 Includes a High Impact Plastic Carrying Case and a Key Decoding Gauge for all 3 Systems

A-1'S COMMITMENT TO SERVICE

The PAK-A-PUNCH™ is backed by A-1's 1-Year Limited Warranty. In addition, A-1 offers Replacement Parts and a Factory Rebuild Program.

AVAILABLE FROM YOUR LOCKSMITH DISTRIBUTOR

MORE ABOUT A-1'S PAK-A-PUNCH™

Model PAK-1: This Machine is strictly for I/C Core ('BEST' Type) and cannot be converted or used with any of A-1's QUICKCHANGE KITS. Three Depth Knobs are included, allowing applications for 3 Systems A2, A3, and A4.

Model PAK-3S: This Machine is virtually the same as a PAK-3 with the exception that it is Fully equipped with the appropriate Depth Knob, Vise Assembly, and a Special Punch and Die for Code Cutting Schlage Keyways. No other attachments are necessary for Punching Schlage. Since the Punch and Die are Interchangeable, Those wishing to also Punch Automotive Keys with this Machine may do so by purchasing the necessary Quickchange Kits and The Appropriate Punches and Dies (See Table of Quickchange Kits).

If you already own Model #PAK-3 (Automotive Model) and wish to use it to punch Schlage, you have the option to do so. Simply Purchase the Schlage Conversion Kit # PK3-CV1. This Conversion Kit consists of a Depth Knob, a Vise Assembly, and the Punch/Die set for Schlage. Changeover will take approximately 7-10 Minutes of your time.

Model PAK-3: This Versatile Automotive Punch offers Interchangeable Punches & Dies so that now you can Punch various angles of cut with one machine (it comes equipped with the Standard 90° Set). The PAK-3 requires the QUICKCHANGE KITS of your choice (some applications may require accessory Punches/Dies). Kits consist of a Depth Knob and one or more Vises for Punching Specific Keyblanks. Sets of Various Kits are also available. (Ex. #PAK-MD1, set of Domestic Kits plus 1 Accessory Punch).

With the PAK-3 you have the option of also Punching some Commercial Keys. A Schlage Conversion Kit is currently available # PK3-CV1. This Conversion Kit consists of a Depth Knob, a Vise Assembly, and the Punch/Die set for Schlage. Changeover will take approximately 7-10 Minutes of your time.

Other Foreign and Domestic Kits Currently available are described in the enclosed table. Please note that certain kits may require an accessory Punch or an accessory Punch & Die set.

**PACKAGED SETS ARE AVAILABLE
PLEASE SEE INSIDE BACK COVER**

INTERCHANGEABLE CORE SERVICE EQUIPMENT

THE BLOCK #TB1

PATENT PENDING

Decoding Tool For I/C Core

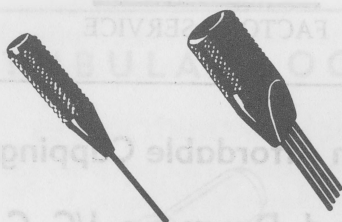

When a Control-Key Code must be found for an Interchangeable Core System, THE BLOCK offers a foolproof solution

Simply drive the pin stacks into THE BLOCK where a pin tray keeps them separated and in order.

Superior to shimming or disassembly because all pin stacks are kept in their original array for decoding and replacement into the cylinder

2 EJECTOR PUNCHES

#TBIP

#TBMP

Your Choice of 2 Tools for Ejecting I/C Cores

#TBIP Originally designed for use with THE BLOCK, this punch is suitable for most any I/C Core.

#TBMP Use this Time-Saving, 4-Pronged Punch to eject Cores. Suitable for Manual use and with A-1's Service Equipment. Ejects Cores with TWO hits instead of 6 or 7.

A-1 CAPPING BLOCK

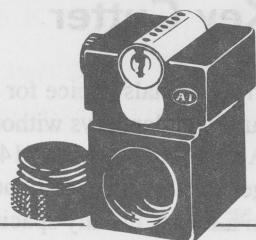

#TB2

Two Capping Blocks in One

Our Capping Block has the added advantage of offering two tops, allowing you to cap Best, Eagle, KSP, Arrow and even the Falcon Style with the 'slide' style spring cover. More than just a Capping Block, this tool is a complete and versatile workstation. No Mobile Shop should be without this Time-Saver.

DUMPING BLOCK

#TB3

Quickly Dumps Contents of I/C Cores

With A-1's DUMPING BLOCK you have the added security of knowing that your customer's security is maintained. Dump old Cores to assure that no one can determine the control key code of your system. Also a BIG Time-Saver when Re-Keying, this Tool will allow you to Dump and hold the contents of dozens of cores.

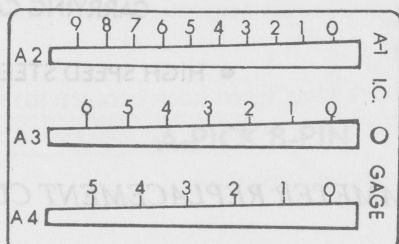

#ICKT

Complete Service Kit for I/C Core

Now you can Purchase **THE BLOCK**, **CAPPING BLOCK**, and **DUMPING BLOCK** as a set at **SUBSTANTIAL SAVINGS**.

I/C CORE KEY GAUGE

#04

Now Decode Keys From 3 Systems

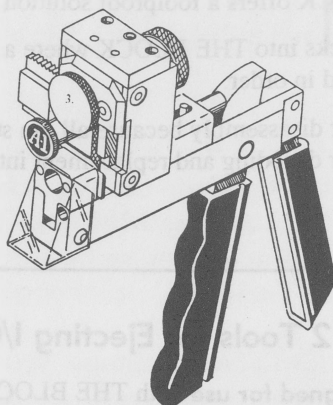

A Decoding Gauge for

● A2 ● A3 ● A4

INTERCHANGEABLE CORE SERVICE EQUIPMENT

PAK-A-PUNCH™ For I/C Core

#PAK 1

An Affordable, Hand-Held Punch Punch 3 Systems 6 or 7 Cut

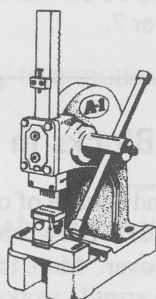

A-1's Key-Punch for Interchangeable Core is a Precise, Affordable alternative to more expensive Keypunches.

- Punch A2, A3, and A4 Systems
- Includes High Impact Plastic Carrying Case
- Includes A-1's Key Gauge for all 3 Systems

FACTORY SERVICE

CAPPING PRESS PLUS

#CAP1

At Last An Affordable Capping Press Caps and Dumps I/C Cores

The only Capping Press which also dumps cores, This Machine costs about half as much as many, less versatile Capping Presses.

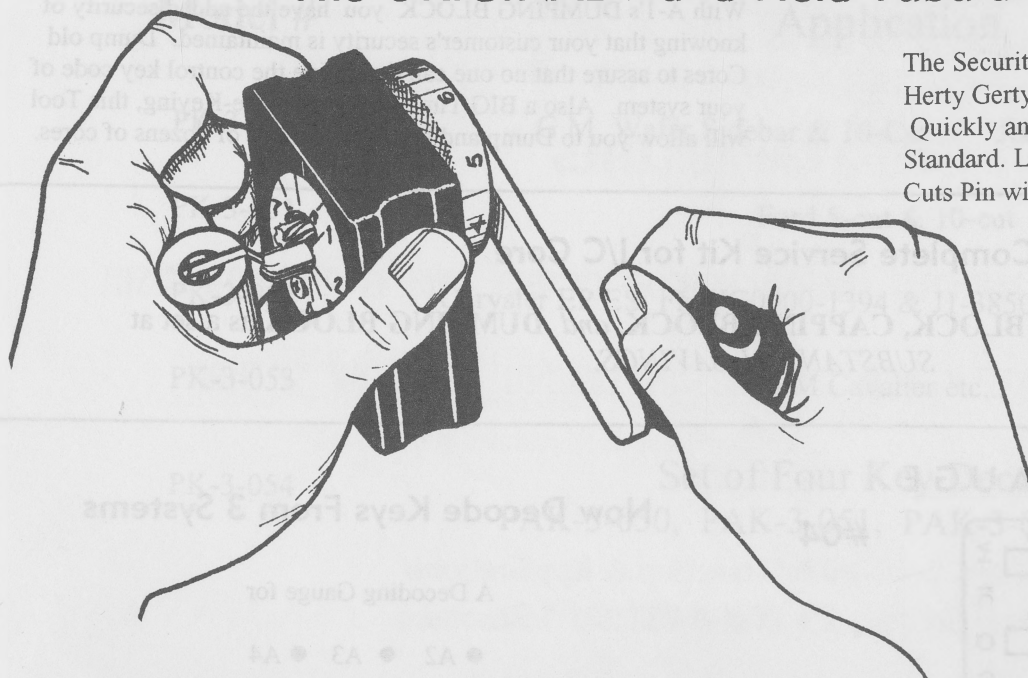

A Must for High Volume operations.

TOTALLY TUBULAR

#HG1

HERTY GERTY

The ORIGINAL Hand-Held Tubular Key Cutter

The Security Professionals choice for over 15 years, the Herty Gerty cuts Tubular Keys without the High Cost. Quickly and Accurately code-cut #147 Tubular keys - Standard. Large, Small, Offset left and Offset right. Cuts Pin within a Pin. Cuts any spacing 0 to 360°.

- COMPACT
- MANUALLY OPERATED
- INCLUDES TUBULAR KEY DECODER
- SIMPLE TO OPERATE
- INCLUDES A HIGH IMPACT PLASTIC CARRYING CASE
- HIGH SPEED STEEL CUTTER

LARGE DIAMETER REPLACEMENT CUTTER #CL

SMALL DIAMETER REPLACEMENT CUTTER #CS

TOTALLY TUBULAR

TUBULAR DEPTH KEYS

#TDK

ACCESSORY BENCH MOUNT FOR HERTY GERTY

#HGBM

This Fixture is designed to clamp the Herty Gerty to your workbench for increased productivity. Use in shop or van.

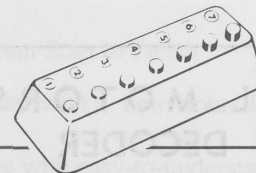

BRASS TUBULAR KEY BLANKS

#TK

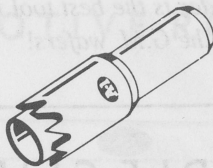

ACE KEY DECODER

#52

A-1 TUBULAR LOCK SAW

#14

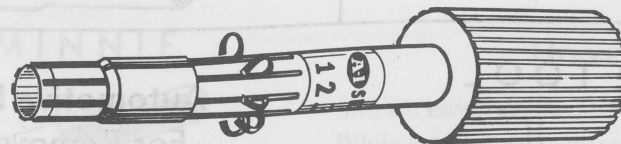

No Tubular Lock Saw Outlasts A-1's

A-1's Unique Tubular Saw cuts away the shoulder over pins to allow them to be removed and the lock opened. Pins remain intact for decoding. This saw will open locks with ball bearings in the keyway, but should not be used on locks with dead pins. Cuts brass or steel #137 standard locks at low speed.

One Locksmith Writes

"I've used your...Tubular Lock Saw which is on its fifth season!"

A-1 PRECISION TUBULAR PICKS

#20

A-PICK

OPEN #137 STANDARD LOCKS WITH MUSHROOM PINS & DEAD PINS. INCLUDES A-1 TUBULAR KEY DECODER

A KIT CONTAINING A-1'S # 20 AND # 20 X. INCLUDES A-1 TUBULAR KEY DECODER

20-KEY

A-PICK SMALLFRY

OPEN THE SMALL VERSION 137-S USED ON MANY BICYCLE, MOTORCYCLE, AND STEERING WHEEL LOCKS. ALSO OPENS SOME COMPUTER LOCKS. INCLUDES A-1 TUBULAR KEY DECODER

#20-8P

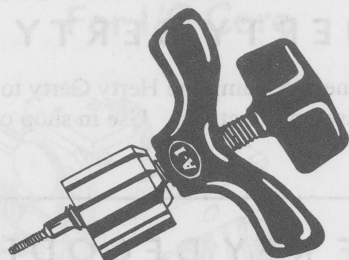

A-PICK 8-PIN

OPEN 8-PIN TUBULAR LOCKS. INCLUDES A-1 TUBULAR KEY DECODER

AUTOMOTIVE

G-PULL

#GP1

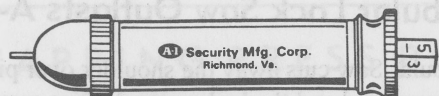

Plug Puller for G.M.

Open Trunks Effortlessly, Safely and Quickly

Pull Most G.M. Trunk & Deck Plugs in seconds. Since the G-Pull never touches the Auto Body, there is no fear of scratching the paint or bending the body. Can also be used for some foreign autos and removable core padlocks, desk locks etc...

GENERAL MOTORS LOCK DECODER

#6

Works When Others Fail

This quality tool makes everyone a professional. Decode all years of G.M. sidebar without complete disassembly.

One Locksmith Writes

I think the G.M. Decoder is the best tool I have used to decode the G.M. wafers!"

BEZEL NUT WRENCH

Remove Bezels Found in G.M. Glove Compartment Locks

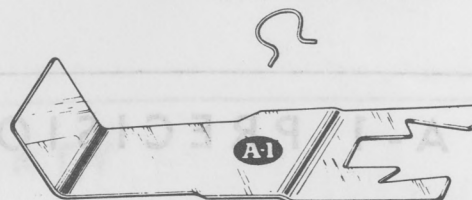

#8

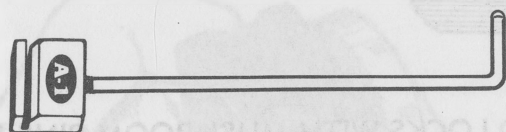

DOOR HANDLE CLIP TOOL

Removes hard to reach clips from Door Handle and Window Cranks from G.M., Ford, and AMC

#DH2

RETAINER CLIP TOOL

#10

#10 L

#10 SET

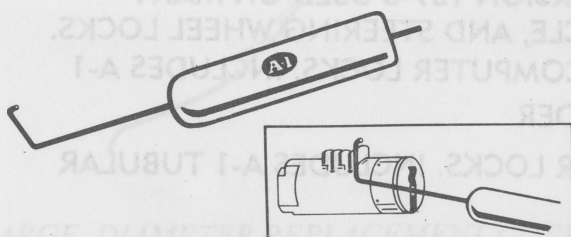

Automotive Lock Retainer Tool For Removal and Installation

Automotive retaining clips can be located in very difficult places. With this tool, you can remove and install them in a jiffy.

Choose the 10" version (#10), The Long 14" Handle (#10L) or one set with both handles (#10 SET)

GENERAL MOTORS TOOL

#5

Plug Remover/Poke Tool

A combination Glove Compartment Plug Remover and Poke tool for Ignition Locks.

To remove Glove Lock Plug, insert hook between the retainer and the No. 1 Wafer. Hook over retainer slide and pull down and out.

Works in locked or unlocked position.

#PS1

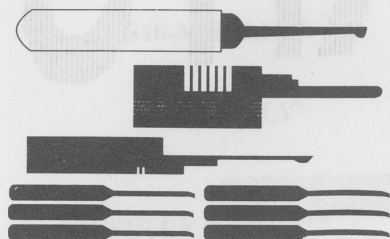

IGNITION PICK & DECODING SYSTEM FOR G.M.

Patent Pending

At last, an Affordable and Reliable System for Picking and Decoding G.M.'s Wafer Sidebar Ignitions.

Unlike other, more expensive tools, the A-1 method revolutionizes the way Professionals service ignitions.

- 10/15 Minutes from Start to Finish
- No Airbag Hassles
- Master with a Few Hours Practise
- Complete with easy-to-understand Instructions

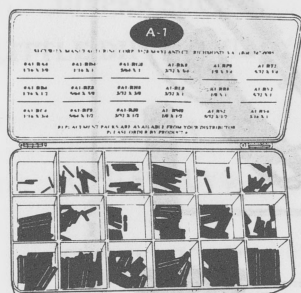

AUTOMOTIVE ROLL PIN KIT

#R10

**Over 300 Roll Pins
Great For Foreign Ignition Work**

18 Different sizes of Roll Pins specifically selected to service Japanese Automotive Ignitions. Each Part is clearly identified and replacement vials are available

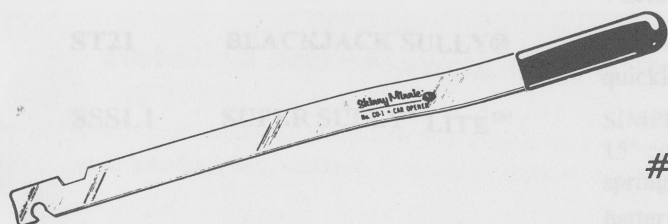

CAR OPENING TOOLS

A-1 SKINNY MINNIE

Universal and Reliable

Still the most reliable and universal car opening tool available. While many newer cars require a more specific device, the Skinny Minnie is still the tool of choice for thousands of cars on the road today.

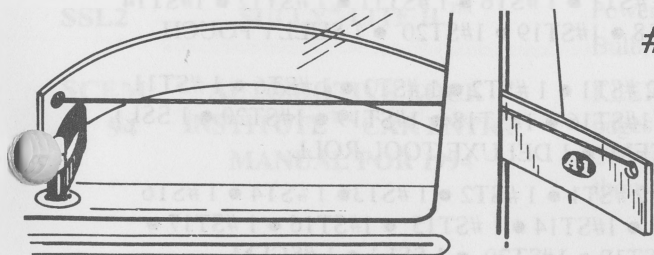

#CO1

VULCAN BUTTON GRABBER

Unique Rubber Loop GRABS and HOLDS Buttons. Without Damage

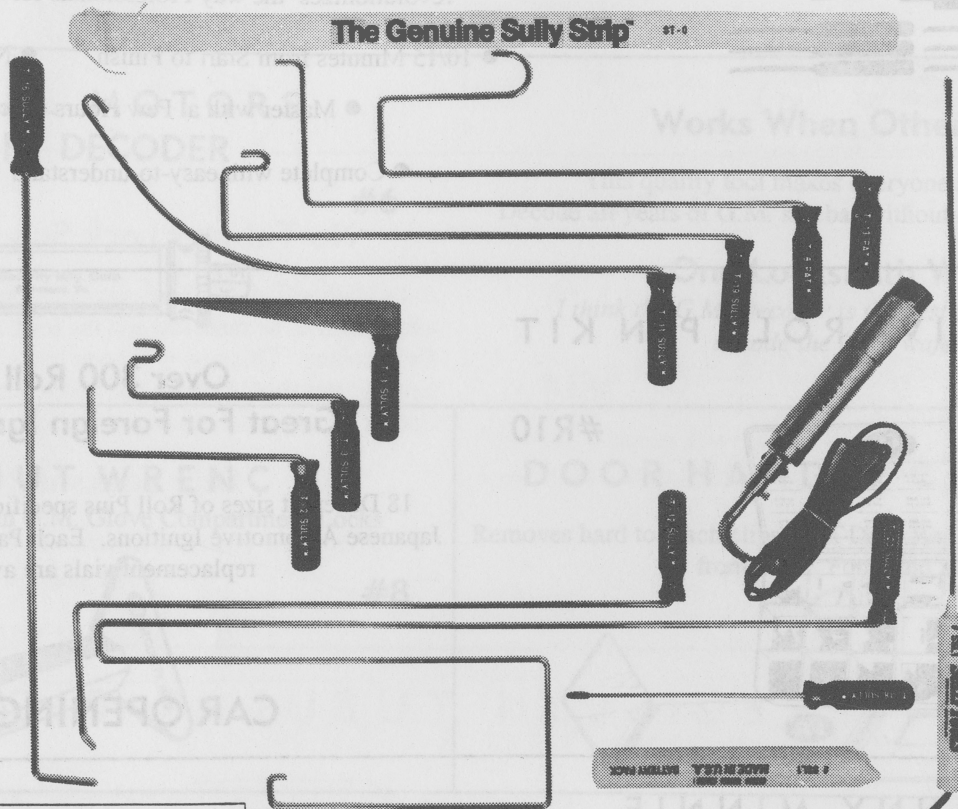

#CO2

Open up a whole new world with this simple but effective car opener. The Rubber Loop grabs and holds most buttons, even straight ones. Easily Enters through Door Jam. Use Strings for alignment.

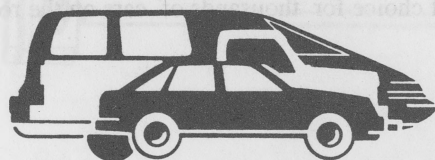

Great for Mercedes, BMW, Volvo
