KEKAB KEY SECURITY CONTROL SYSTEMS

KEKAB-60 SHOWN HERE

The variety of sizes and capacities of these KEKABS should prove to be ideally suited for key storage in small or large offices, hotels, apartment buildings, motels, industrial plants, schools and institutions.

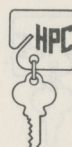

KEKABS offer a convenient, central location for keys, under security conditions.

All KEKAB doors and panels have piano type hinges and the door has a five disc tumbler cam lock. All stress points are electro welded.

No. KEKAB-30 (30 Keys) 12 x 8 x 2½ inches. Shipping Weight: 4 lbs.

No. KEKAB-60 (60 Keys) 17 x 13 x 3¼ inches. Shipping Weight: 10 lbs.

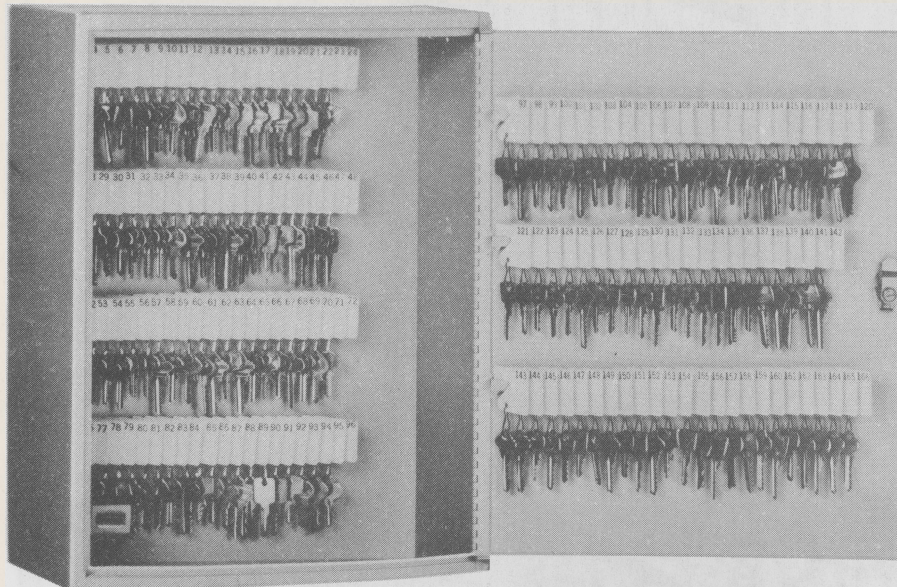

No. KEKAB-110 (110 Keys) 17 x 13 x 3¼ inches. Shipping Weight: 11 lbs.

KEKAB KEY SECURITY CONTROL SYSTEMS

TWO EXPANDABLE KEKABS

WITH ALL HARDWARE AND INSTRUCTIONS

No. KEKAB-160X 160 Key Capacity. 20" x 16½" x 5"
Shipping Wt. 18 lbs. Expandable to 330 key capacity. See Expansion Leaf below.

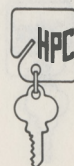

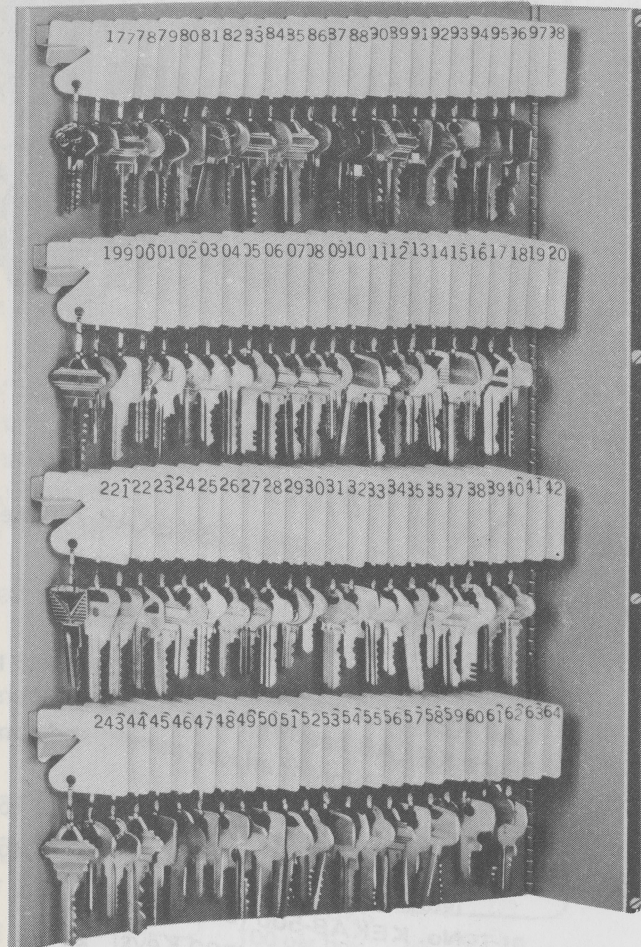

No. KEKAB-260X 260 Key Capacity. 25¼" x 17¼" x 5½"
Shipping Wt. 24 lbs. Expandable to 500 key capacity. See Expansion Kit below.

KEKAB-160X (SHOWN ABOVE) AND KEKAB-260X ARE SPECIALLY DESIGNED TO ACCEPT THE ADDITION OF THE EXPANSION LEAF

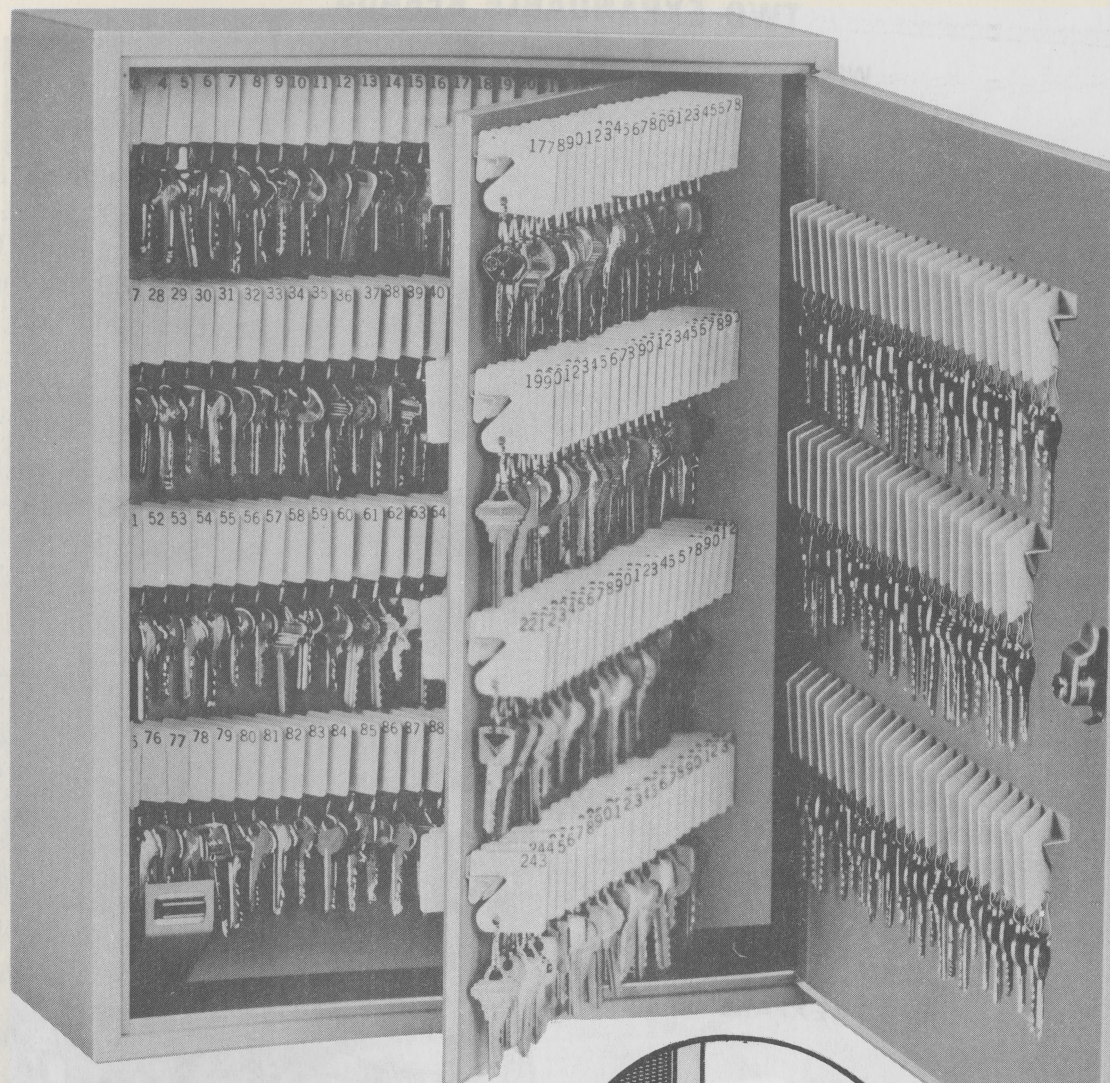

EXAMPLE OF A COMPLETE EXPANSION LEAF

No. EL-330X Expansion Leaf Kit is for use with No. KEKAB-160X shown above. It increases the capacity to 330 keys. All attaching hardware is included. Has tags numbered 161 thru 330, with snap hooks — plus a control chart.

No. EL-500X Expansion Leaf Kit is for use with No. KEKAB-260X listed above. It increases the capacity to 500 keys. All attaching hardware is included. Has tags numbered 261 thru 500, with snap hooks — plus a control chart.

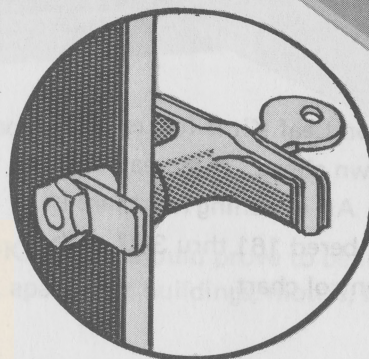

KEKAB KEY SECURITY CONTROL SYSTEMS

KEKAB-330 SHOWN HERE

NOTE: KEKAB-500 and KEKAB-730 are equipped with a T Locking Handle.

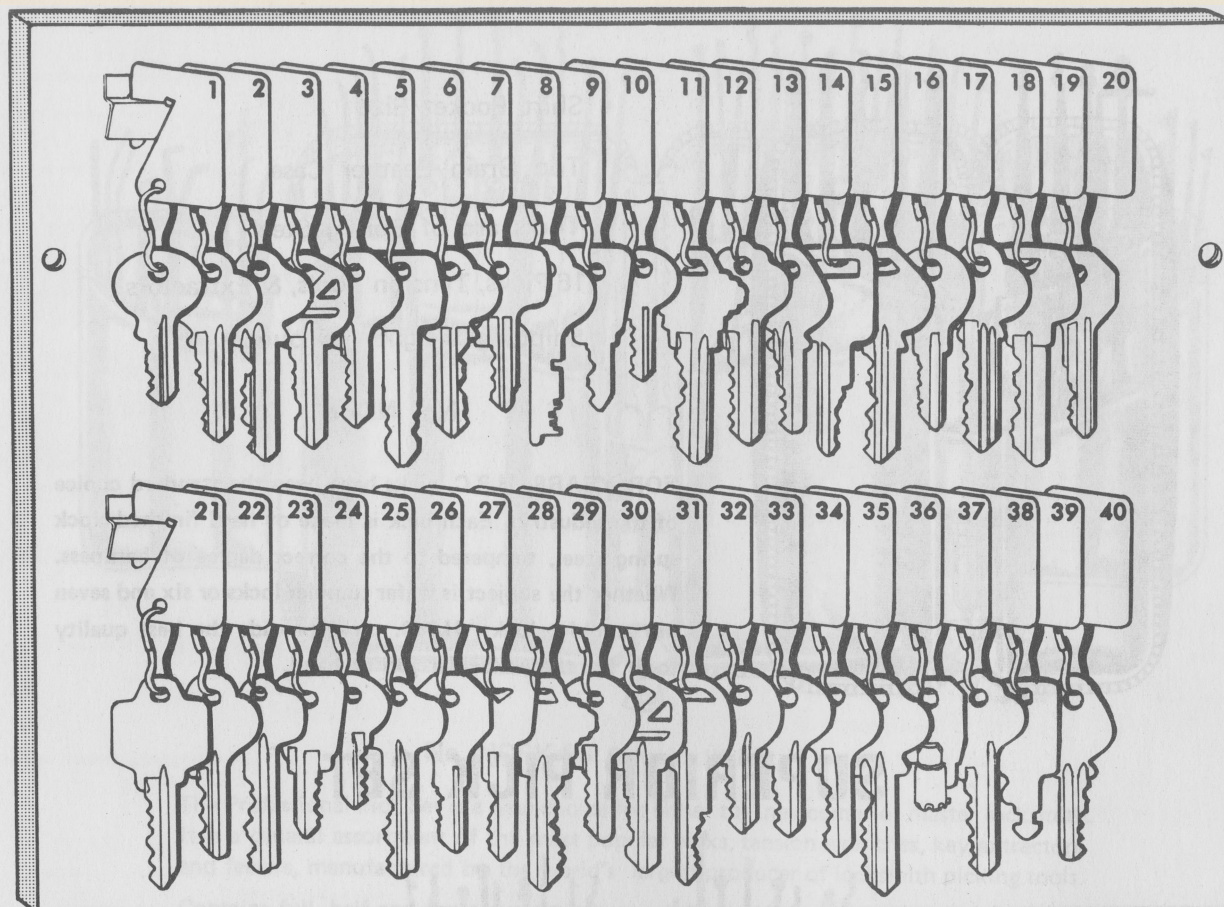

All KEKABS are made of a heavy gauge metal and finished in a textured neutral tan. Each KEKAB has a full complement of numbered tags with snap hooks. These KEKABS offer a full vision of all key panels, and come with a key control chart.

- No. KEKAB-240 (240 Keys) 20 x 16½ x 5 inches. Shipping Weight: 23 lbs.
- No. KEKAB-330 (330 Keys) 20 x 16½ x 5 inches. Shipping Weight: 23 lbs.
- No. KEKAB-500 (500 Keys) 25¼ x 18 x 5½ inches. Shipping Weight: 33 lbs.
- No. KEKAB-730 (730 Keys) 25¼ x 18 x 7 inches. Shipping Weight: 48 lbs.

KEKAB KEY CONTROL RACKS

These KEY CONTROL RACKS are designed to offer an economical control system for 10 to 160 keys. Choose the rack size required. The open file arrangement and identification tags with hooks, provide an open-view and ready convenience in a central location.

This should prove to be a desirable system where informal key security is all that is needed. Ideal for use in any home, club, church or institution.

No. KB-10P	10 Plain Tags & Snap Hooks	7½" x 2½"
No. KB-20P	20 Plain Tags & Snap Hooks	12¾" x 5"

DELUXE PICK SET

Shirt Pocket Size

Top Grain Leather Case

Tools are of Spring Steel

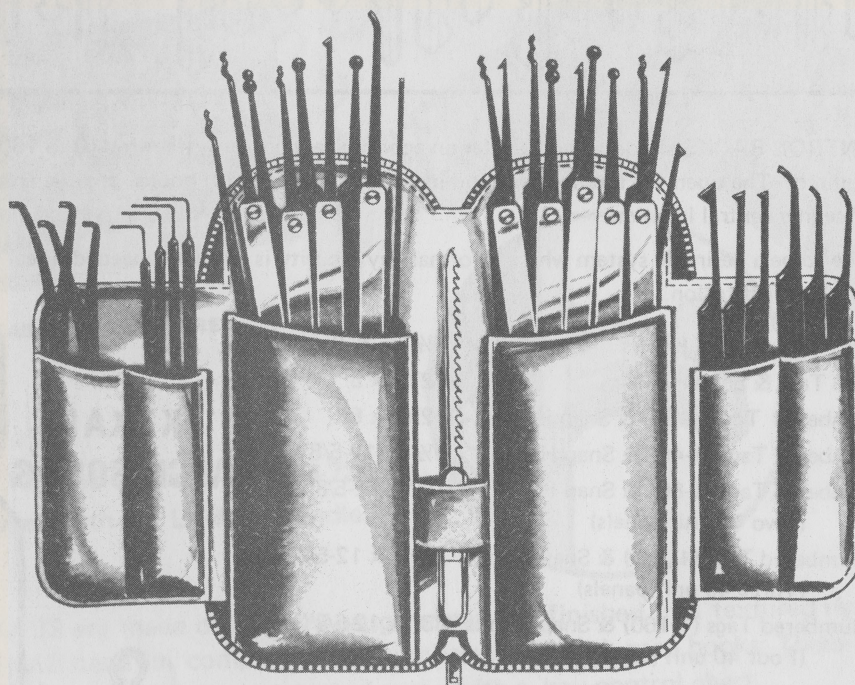

16 Picks, Tension Tools, & Extractors

Shipping Weight: 5 ounces

No. NDPK

FOR YEARS, H.P.C. picks have been the standard choice of the industry. Each pick is made of hard finished clock spring steel, tempered to the correct degree of hardness. Whether the subject is wafer tumbler locks or six and seven pin tumbler locks, H.P.C. picks provide the best quality tools for the particular job at hand.

SUPERIOR PICK SET

No. NDPK-32

Hand Finished Components

32 Picks, Tension Tools & Extractors

Shipping Weight: 7½ ounces

PROFESSIONAL PICK SET

No. NDPK-60 Shipping Weight: 1 lb.

The Professional Pick Set is a wise choice for either the newcomer or master locksmith. It is a general assortment of the most popular picks, tension wrenches, key extractors and feelers, manufactured by the world's largest producer of locksmith picking tools.

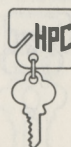

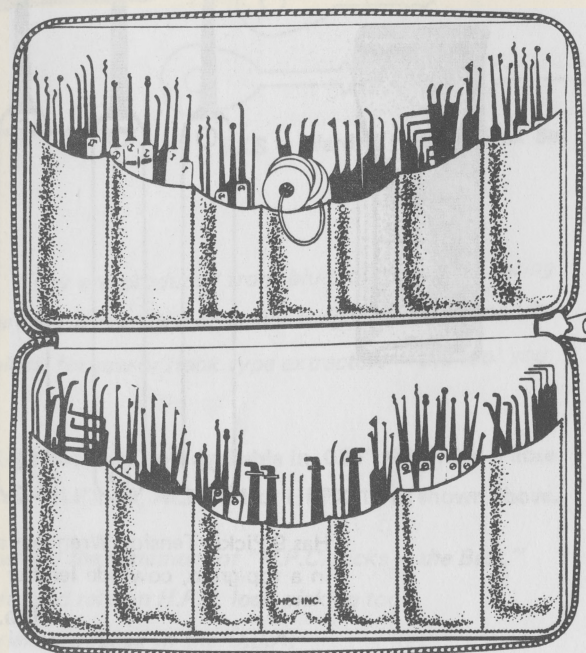

Contains full, half and three-quarter rakes and diamond tip picks, single, double, half double ball picks; light, medium and heavy weight tension wrenches of various lengths and styles. Plus, hook and saw type key extractors, and many more necessary tools vital to the trade.

PARAMOUNT PICK SET

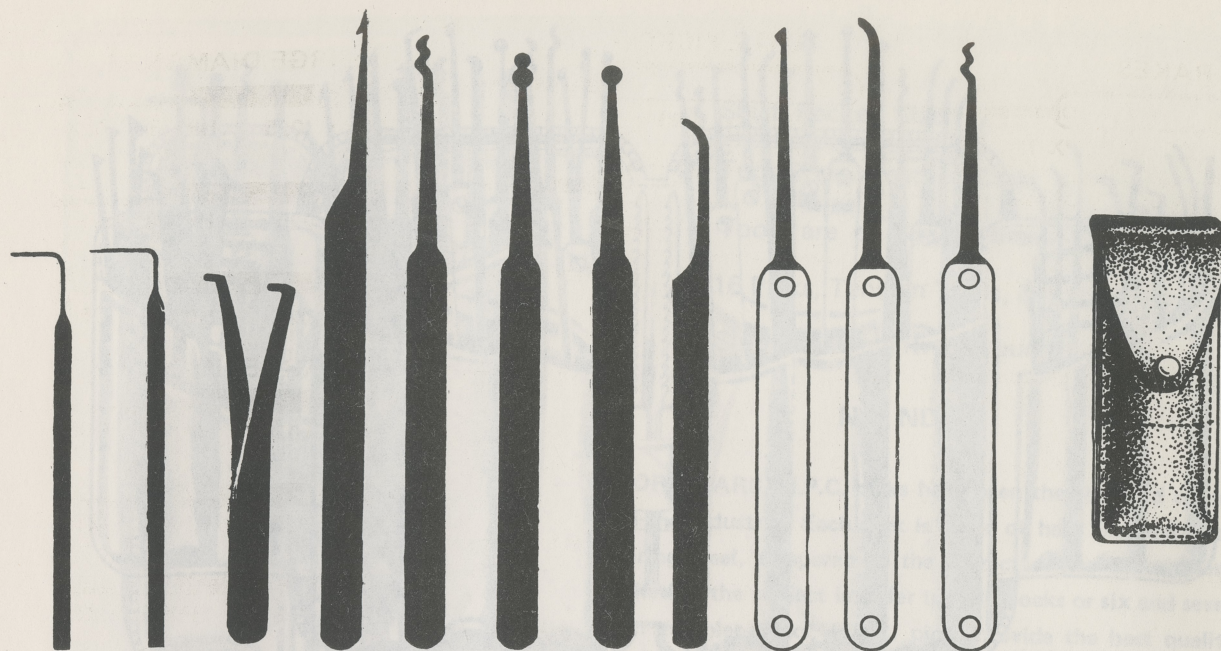

The Paramount Pick Set has been made available for the discriminating locksmith who desires an assortment of lock picking tools of this size so that replacements will not be necessary for some time.

Set has a wide choice of full, half and three-quarter rakes and diamond tip picks; single, double, half single and double ball picks; light, medium and heavy weight tension wrenches; hook and saw type key extractors. Included also, are a set of warded padlock pick keys. More of the tools for the technician — all carried in a handy leather zippered case, measuring 9"x 6" when closed.

No. NDPK-100 Shipping Weight: 2 lbs.

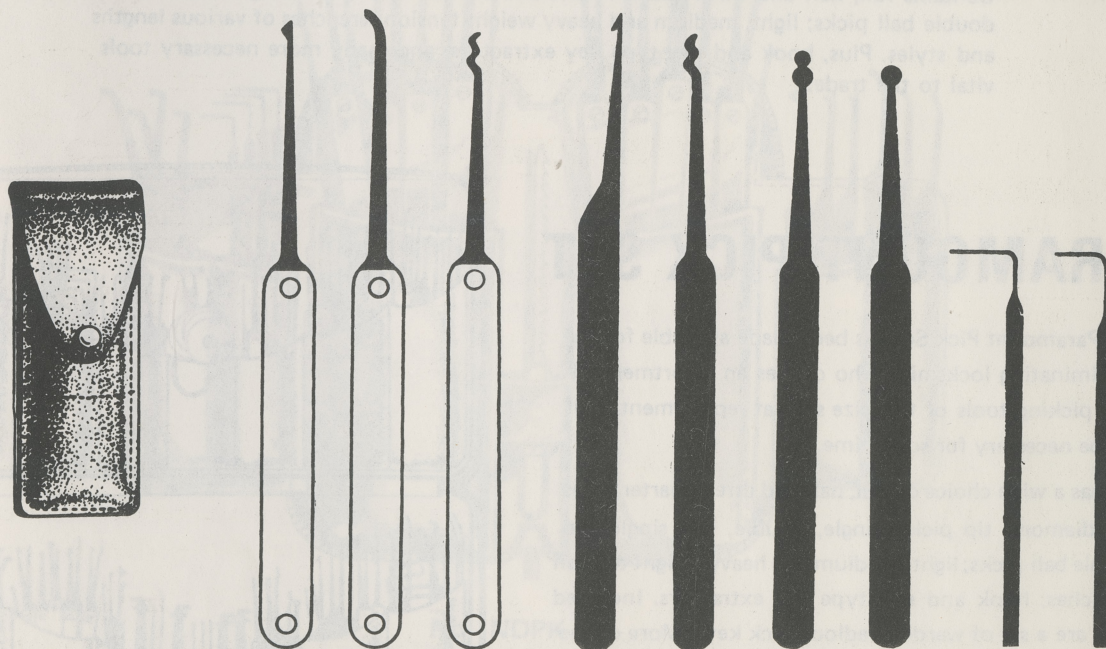

NOVICE PICK SET

Contains 11 Picks, Tension Wrenches and a broken key extractor. All of these are made of Clock Spring Steel and are tempered to the right hardness. Secured in an attractive, top-grain cowhide leather case.

No. PIP-13 Shipping Weight: 3 ounces

TYRO PICK SET

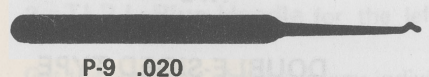

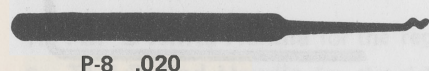

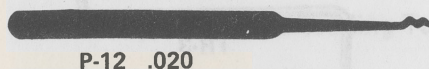

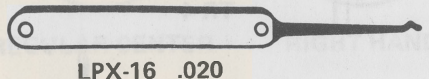

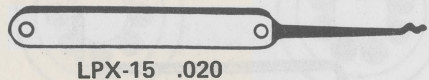

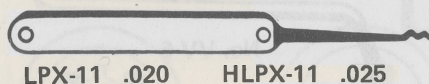

Has 9 Picks, Tension Wrenches and a key extractor. All are contained in a top-grain, cowhide leather case. Shipping weight: 2½ ounces.

PKS — Warded Padlock Pick Set

ABOUT LOCK PICKING TOOLS...

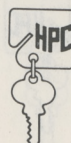

Illustrated here, are the world's finest lock picking tools. They are produced from blue, oil tempered spring steel, and are individually finished. Whether your preference is for light or heavy weight rakes, diamonds or hooks — with or without handles, or for double end picks, for saw or hook type extractors — the tool you require can be found here.

The very popular LPX-10 diamond, LPX-11 rake and the LPX-12 hook are now available in .025" thickness. Those desiring the added rigidity of a heavier weight pick, should order HLPX-10, HLPX-11 or HLPX-12 as shown above.

Over 30 years experience in lock pick manufacturing is behind the statement of "H.P.C. Picks — the Best."

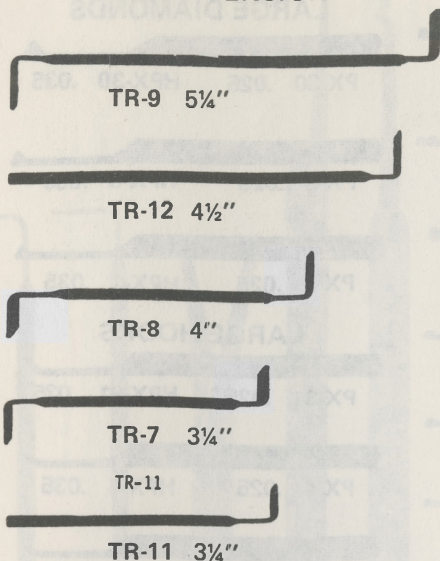

A majority of locksmiths, the world over, prefer and rely on H.P.C. lock picking tools.

All are American made, of materials produced in the U.S.A.

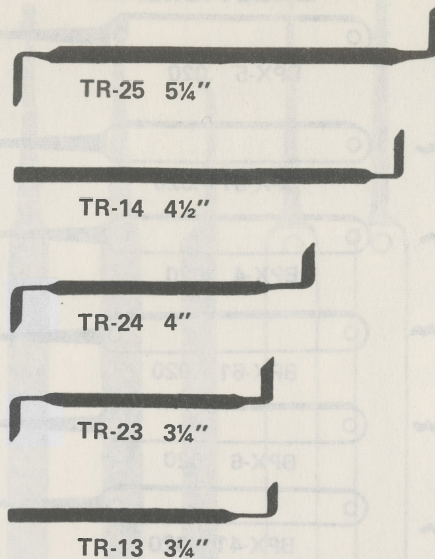

TENSION WRENCHES

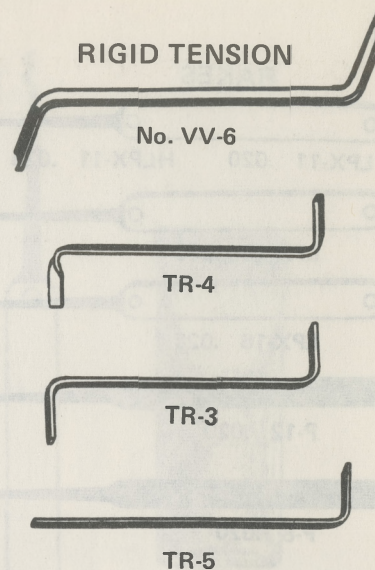

LIGHT TENSION

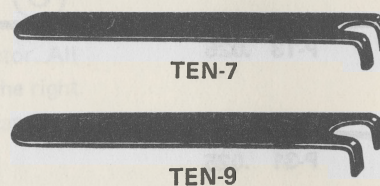

MEDIUM TENSION

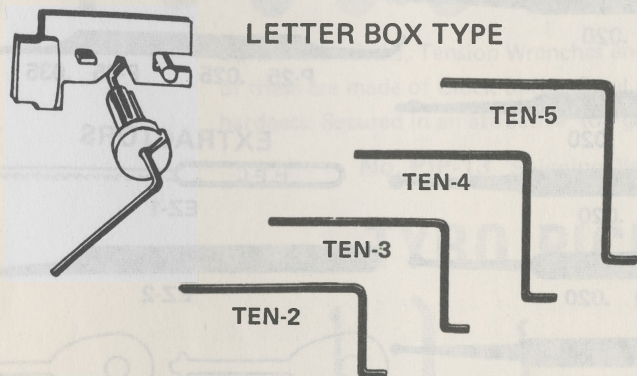

RIGID TENSION

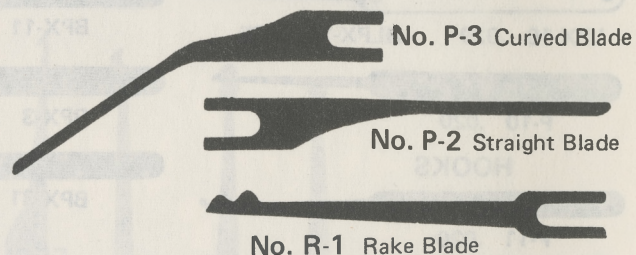

DOUBLE-SIDED TYPE

LETTER BOX TYPE

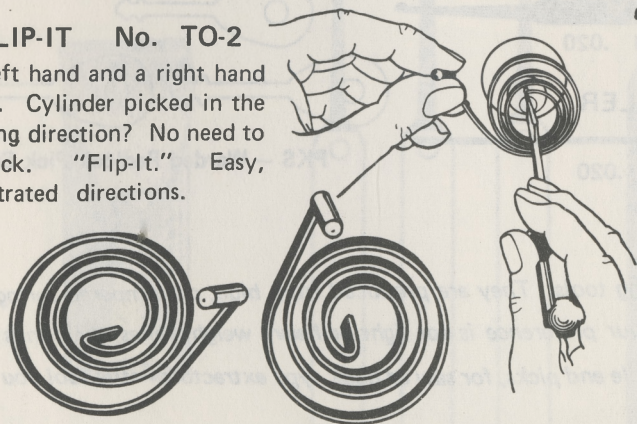

REPLACEMENT PICK NEEDLES

FLIP-IT No. TO-2

A left hand and a right hand tool. Cylinder picked in the wrong direction? No need to re-pick. "Flip-It." Easy, illustrated directions.

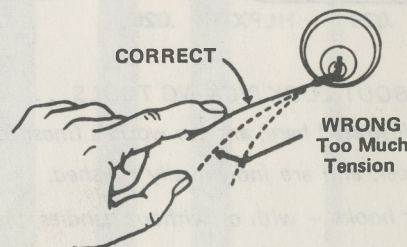

STW-3

TENSION WRENCH

CORRECT

CORRECT TENSION WRENCH USAGE

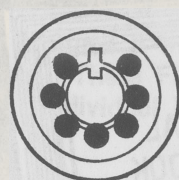

Proper use of the tension wrench will determine the degree of success in lock picking. Different keyway shapes require different sizes and types of wrenches. In general, a user with a "heavy hand" will have better results with light weight wrenches.

Only through practice can one determine the correct type of wrenches needed.

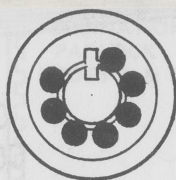

TUBULAR LOCK PICKS

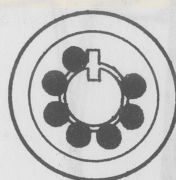

LOCK FACE FRONT VIEW PIN ARRANGEMENTS

REGULAR CENTER

RIGHT HAND

LEFT HAND

For Opening and Decoding Tubular Type Locks

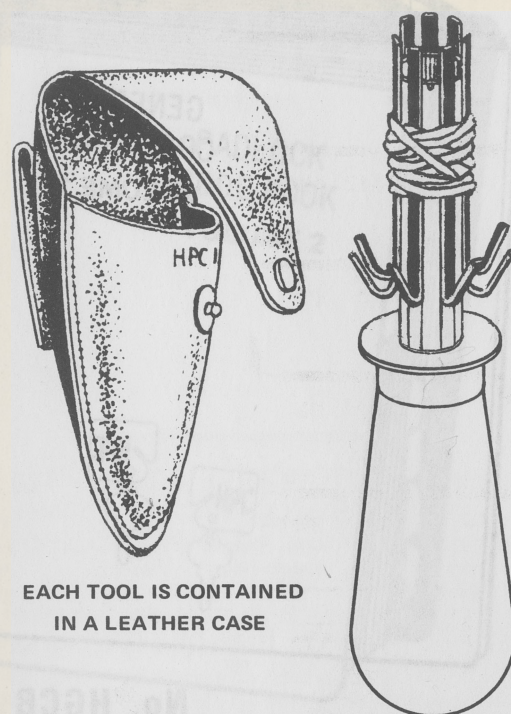

There are three types available:

1. **TLP-C White Handle** for the regular center spaced pins.
2. **TLP-R Red Handle** for the right of center pin settings.
3. **TLP-L Blue Handle** for the left of center pin settings.

Get the entire set of three or any individual one.

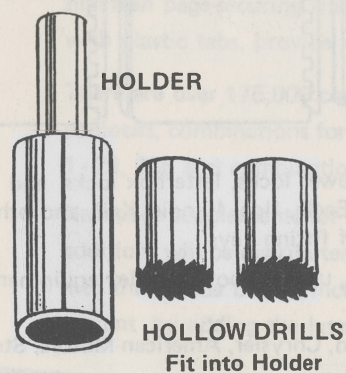

Although requiring much more practice to become proficient, this tool provides a reliable method for opening tubular type locks to those individuals willing to diligently practice until the skill is mastered.

Each tool comes complete with instructions for use.

EACH TOOL IS CONTAINED
IN A LEATHER CASE

TUBULAR LOCK DRILLS

It is not necessary to refuse lock-outs of tubular key locks. For servicing, these hole saws destroy the pins at the shear line.

Hole saws are available for standard and oversize keyways. Will fit any 1/4 inch electric drill.

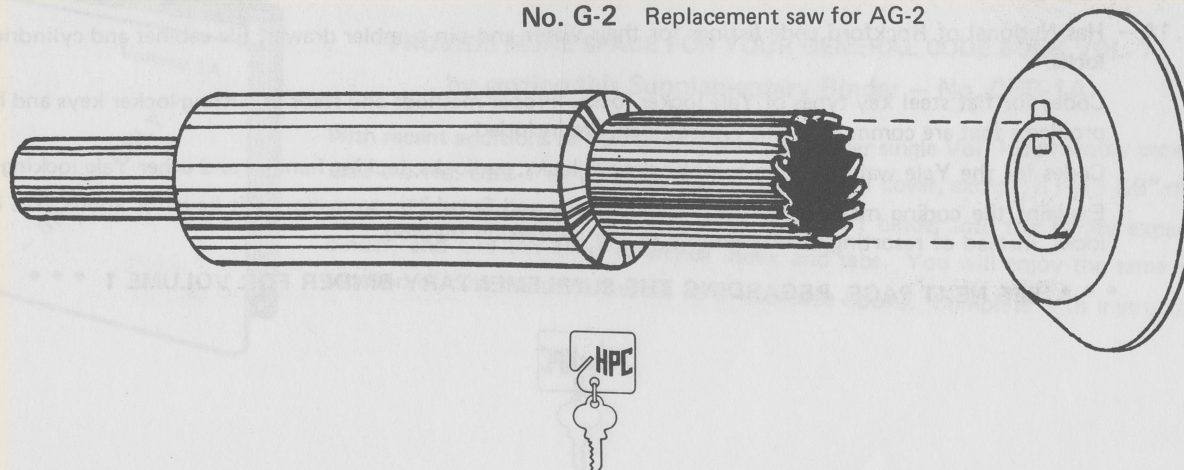

Saw Life — Approximately three openings.

No. AG-1 Standard size tool with extra saw.

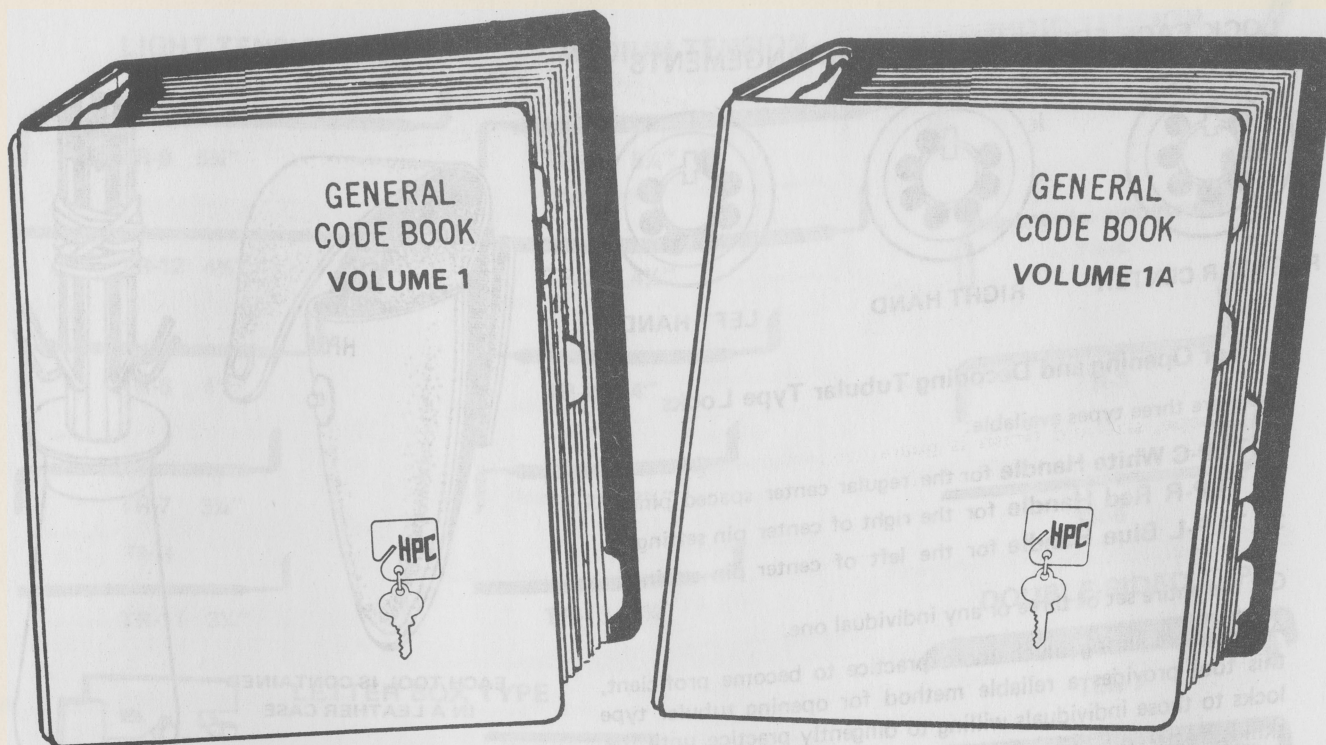

No. G-1 Replacement saw for AG-1

No. AG-2 Oversize tool with extra saw.

No. G-2 Replacement saw for AG-2

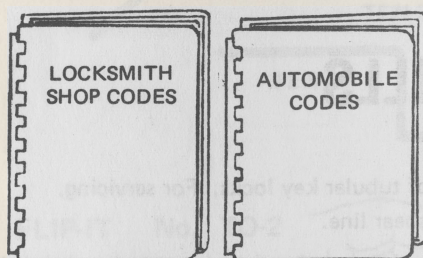

GENERAL CODE BOOKS

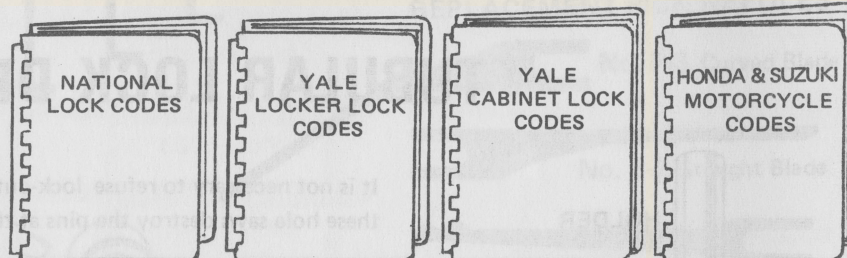

No. HGCB (Volumes 1 and 1A in set)

Volume 1 contains these two books

Volume 1A contains these four books

VOL. 1 — Contains a large variety of miscellaneous codes for Cabinet locks, drawer locks, letterbox locks and padlocks. Covers products by Auth, Bommer, B & S, Chicago, Corbin, Couch, Eagle, Ilco, Illinois, Keil, and others. This collection has the variety of codes needed in the daily shop routine of fitting keys.

Included are the hard-to-get codes for Chicago "FR" and "AMG" series, used on bowling alley equipment; and the pin tumbler type letterbox locks in the "BH" series.

Also has the most up-to-date automobile codes for General Motors, Ford, Chrysler, American Motors, Studebaker, Kaiser, Diamond, Harley Davidson — and more.

VOL. 1A — Has National of Rockford code listings for their wafer and pin tumbler drawer, file cabinet and cylindrical knob locks.

Codes for flat steel key types of Yale locker locks. Proper methods and steps in cutting locker keys and handling problems that are common to this type of lock, are included.

Codes for the Yale wafer and pin tumbler drawer locks, padlocks, locking handles and other Yale locking devices.

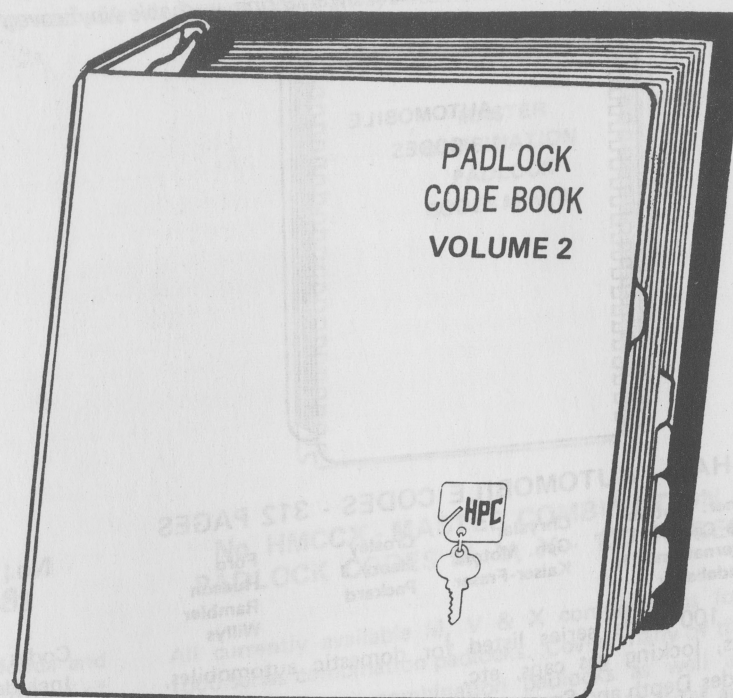

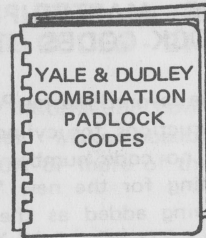

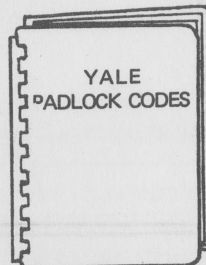

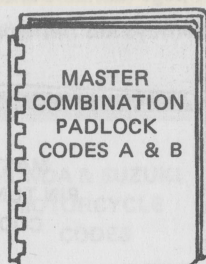

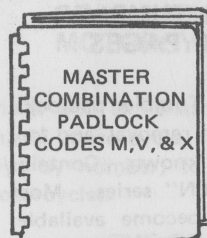

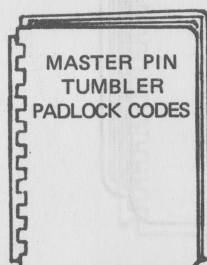

Explains the coding method for the popular Honda and Suzuki motorcycles. Fit keys for about 70% of these locks, instead of resorting to disassembly or the impression method.

***** SEE NEXT PAGE, REGARDING THE SUPPLEMENTARY BINDER FOR VOLUME 1 *****

PADLOCK CODE BOOK

**Volume 2 Includes
These Five
Individual Books**

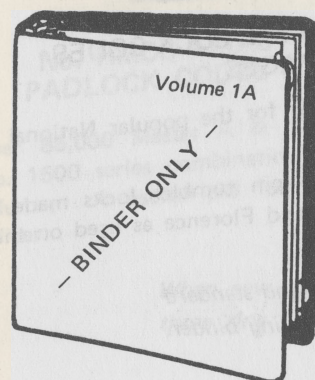

No. HPCB

TO HAVE A COMPLETE SET, INCLUDE THE PADLOCK CODE BOOK AS A MATE TO THE GENERAL CODE BOOK SET.

Volumes HGCB and HPCB have 8½ x 11 inch pages of Eze-Eye tinted paper, large page numbers, nineteen page-securing rings and a heavy duty, washable, vinyl coated hard cover. Section dividers with plastic tabs, provide rapid code location.

There are over 175,000 codes contained in its 700 pages. It presents the popular Master pin tumbler padlocks, combinations for Master A, B, M, V and X series. Has Yale large pin tumbler padlock codes 1-28, 086 and combinations for Yale and Dudley dial type padlocks.

New code supplements for all three volumes shall be printed as soon as they become available. These additions will be distributed through the locksmith jobber. Supplement pages will be punched to fit into these code books; including new indexes. For continued convenience, keep your code library current by adding the latest supplements.

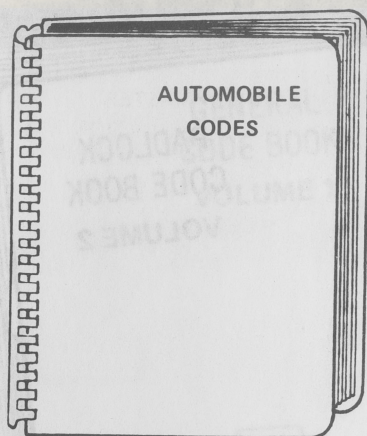

**PROVIDE MORE SPACE FOR YOUR GENERAL CODE BOOK VOL. 1
by getting this Supplementary Binder — No. CBB-1A**

With recent additions of new code sheets, your older single Vol. 1 is probably crowded. Add the No. CBB-1 to your set. Matches the Vol. 1 cover, except; it has 1 5/8" metal rings. Place the last 4 sections of your old Vol. 1 binder into this empty expansion binder, and add the cross reference index and tabs. You will enjoy the same rapid location of codes common to all HPC Inc. code books. Complete with instructions.

BASIC CODE BOOKS

Each book has 8½" x 11" sheets of Eze-Eye tinted pages, large page numbers and a clear, concise index; bound by a 19 ring, washable vinyl cover. Book always lies flat when open.

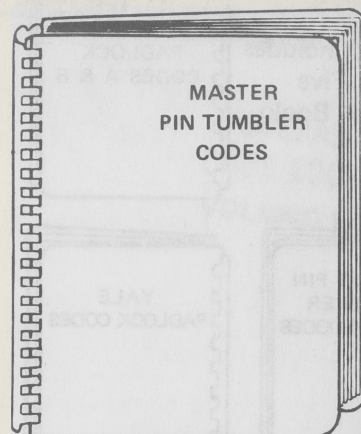

No. HAC - AUTOMOBILE CODES - 312 PAGES

Amer. Motors	Chrysler	Crosley	Ford
Gas Caps	Gen. Motors	Henry J	Hudson
International H.	Kaiser-Fraser	Packard	Rambler
Studebaker		Willis	

Over 100 code series listed for domestic automobiles, trucks, locking gas caps, etc.

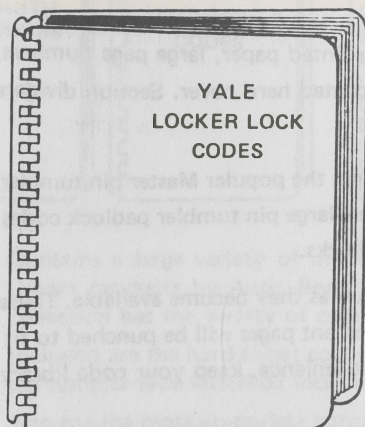

Includes Depth and Space Charts for easy cutting with code machine or Depth Key set.

With our easy-to-add supplements, your auto book won't become out dated each year. All books are up dated and bound every 90 days, assuring you of the latest information.

No. HMPC - MASTER PIN TUMBLER PADLOCK CODES - 150 PAGES

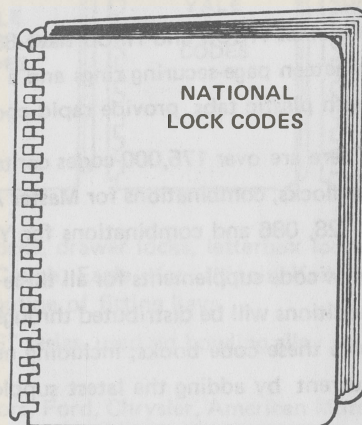

Codes for the favored Master Pin Tumbler padlocks. Includes instructions for cylinder removal and key fitting when no code number is known. Contains a partial listing for the new "1QN" series. More codes are being added as they become available.

No. HDSL - YALE LOCKER LOCK CODES 36 PAGES

1-7770 code listings for Yale flat steel type IED, IEA, DSL, 15WB, 9M, N9M. Also used on some locks by National of Rockford.

Includes instructions for cutting locker keys by code, aided by depth keys. Depth keys not included.

No. HNLC - NATIONAL LOCK CODES 133 PAGES

Disc and pin tumbler codes for the popular National of Rockford locks.

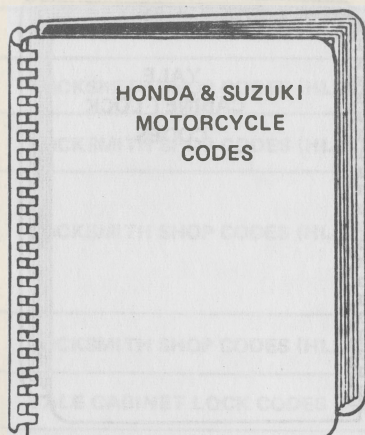

NEW! Includes codes for pin tumbler locks made by National for Auth, Couch and Florence as used on their letterboxes.

When new supplement code pages become available, each will be die-cut and standard three ring punched, to fit into either the spiral bound book or a three ring binder.

BASIC CODE BOOKS

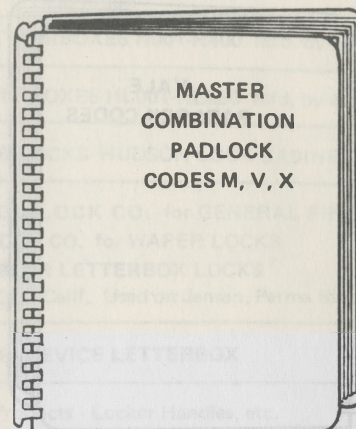

Each book has 8½" x 11" sheets of Eze-Eye tinted pages, large page numbers and a clear, concise index; bound by a 19 ring, washable vinyl cover. Book always lies flat when open.

**No. HSMC - HONDA & SUZUKI
MOTORCYCLE CODES - 21 PAGES**

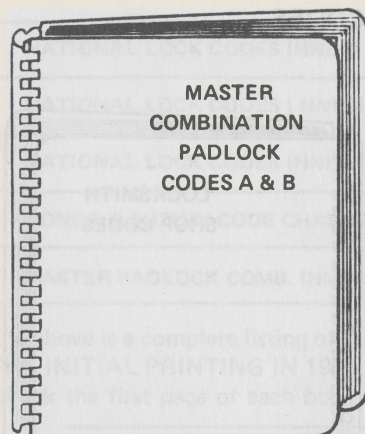

Charts and explanatory information covering Honda and Suzuki motorcycle codes. Makes possible the fitting of keys by number, to 70% or more of these two popular motorcycles.

THE ONLY BOOK OF ITS KIND!

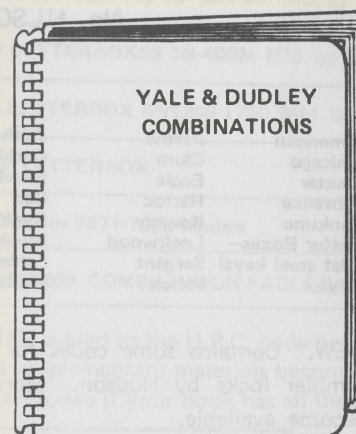

**No. HMCCX - MASTER COMBINATION
PADLOCK CODES M, V, X - 127 PAGES**

All currently available M, V & X combinations for No. 1500 series combination padlocks. Covers many of the key controlled Master combination padlocks as well as the standard dial type. Includes all known "X" series as used on padlocks of current manufacture.

**No. HMCC - MASTER COMBINATION
PADLOCK CODES A & B - 335 PAGES**

Over 85,000 Master A & B combinations for popular No. 1500 series combination locks. Contained in one volume. A useful aid for the locksmith or security officer.

**HYD - YALE & DUDLEY COMBINATION
PADLOCK CODES - 75 PAGES**

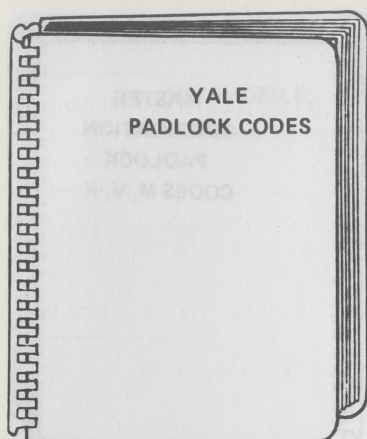

12,000 "K" codes for Yale. Includes some "N" series. Partial listing of Dudley "ABS" and "ES" series.

When new supplement code pages become available, each will be die-cut and standard three ring punched, to fit into either the spiral bound book or a three ring binder.

BASIC CODE BOOKS

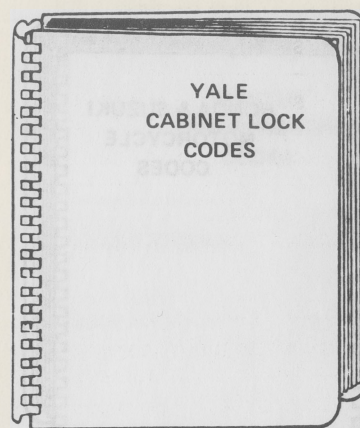

Each book has 8½" x 11" sheets of Eze-Eye tinted pages, large page numbers and a clear, concise index; bound by a 19 ring, washable vinyl cover. Book always lies flat when open.

HYPC - YALE PADLOCK CODES - 113 PAGES

Codes for large and small pin tumbler padlocks using the UNPREFIXED series numbered from 1 to 28,086. It is used primarily on large and small brass padlocks with standard as well as sectional keyways.

Includes Depth and Space charts, with instructions.

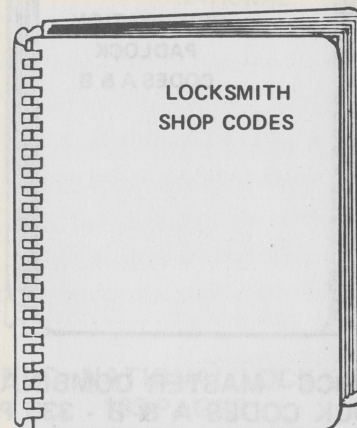

No. HYC - YALE CABINET LOCK CODES 165 PAGES

Over 175 series listed covering codes for Yale discs and small pins. Contains extensive code listings for drawer locks, padlocks, locking handles and many more of the locking devices manufactured by Yale.

Does not cover codes for larger pin tumbler locks.

No. HLSC - LOCKSMITH SHOP CODES 248 PAGES

American	Arrow	Auth (Flat)	Bommer
Chicago	Clum	Corbin	Couch (Flat)
Dexter	Eagle	Excelsior	Falcon
Florence	Harloc	Ilco	Illinois
Junkunc	Kenedy	Kwikset	Labelle
Letter Boxes—	Lockwood	Motor Boats	Russwin
(flat steel keys)	Sargent	Schlage	Segal
Taylor	Welch	Weiser	Weslock

NEW. Contains some codes for Auth and Bommer pin tumbler locks by Hudson. More to be added as they become available.

SILHOUETTE CODES For "H" series Chicago double sided and "KF" motor boat ignition keys.

Codes for double sided Wonderlock's showcase locks.

Flat key silhouettes for old and new style Couch, Auth "S" series and the Bommer "R" series.

When new supplement code pages become available, each will be die-cut and standard three ring punched, to fit into either the spiral bound book or a three ring binder.

CODE BOOK SUPPLEMENTS

These additions go into the General Code Book, Vol. 1, but the last item No. 7-1; goes into the Padlock Code Book, Vol. 2

NOTE: The above is a complete listing of the CODE BOOK SUPPLEMENTS added to the H.P.C. code books SINCE THE INITIAL PRINTING IN 1969. Each book is made current as supplementary materials become available. Check the first page of each book or section for an orange sticker, to see if your book has all the additions.

To insert the supplementary pages into the plastic rib type binders, use the following procedure. With a scissors, slit the punched end tabs as shown above.

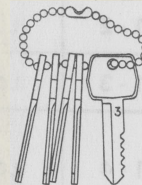

Lay the page with the slit tabs into place, in line with the pages already in the book. Then use the plastic tool gently, to press the tabs down and past the ring binders. Let the tool's fingers do the job. The tabs will now be in place, to keep the page anchored. This procedure is not necessary when adding pages to the large metal rim binders.

"XL" Lock Co.	Used on Dura-Steel, Jensen Permabilt	5	XL16	762DKS

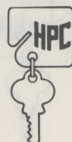

A set of depth and space keys contains a cut key for each of the different depths used in a given series or a particular locking mechanism. All the cuttings on a key are to the same depth, repeated as many times as the number of pins or disc tumblers used in the lock. These cuts are correctly spaced as required by the tumbler system in a specific lock.

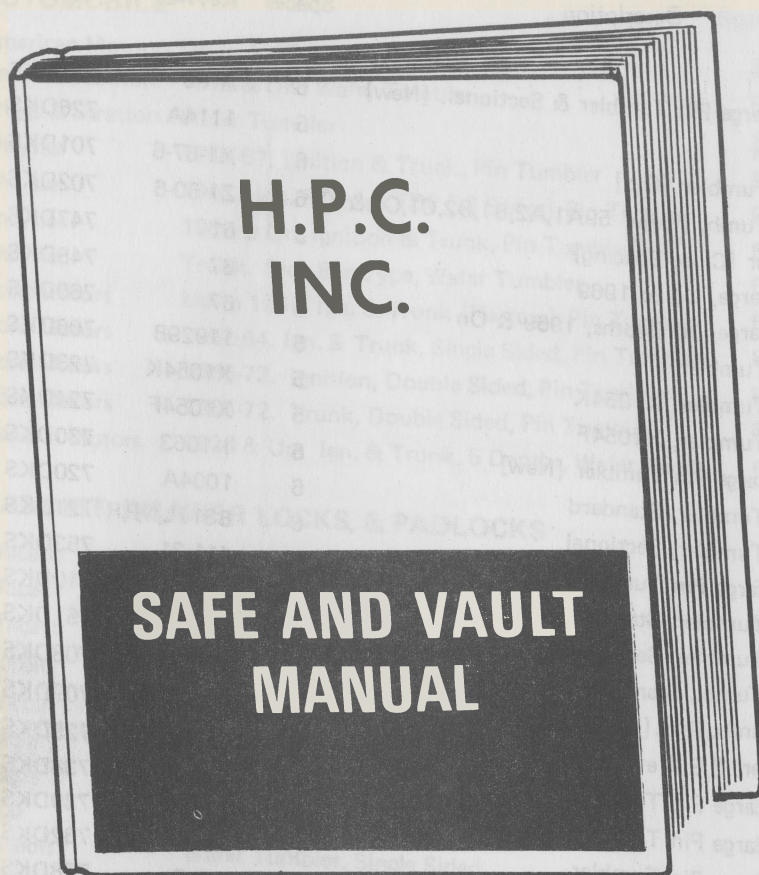

For Instance: a No. 3 depth key for a 5 pin tumbler plug, will have 5 correctly spaced cuts; each to a No. 3 depth. Spacings and depths vary with different manufacturers and their products.

Such depth key sets have several time-saver uses. They are valuable when cutting a key by code. They offer a simple method for working out a new master system or for adding keys under an established system.

Depth and space keys offer an inexpensive alternative to a code machine and the ability of rapid change-over not found in most code cutting equipment.

SAFE AND VAULT MANUAL

THE FOURTH EDITION — 221 PAGES

The SAFE AND VAULT MANUAL is generally recognized as the "Safe Man's Bible". Whether your new to safe work or an old timer interested in broadening your knowledge of safe locks, you will find this book contains valuable information covering a wide variety of safe lock topics. It contains over 250 illustrations, 1000 factory try-out combinations, and a newly added section on original factory methods of safe and vault combination changing.

No. SVM

STORY OF SAFE DEPOSIT BOX LOCKS

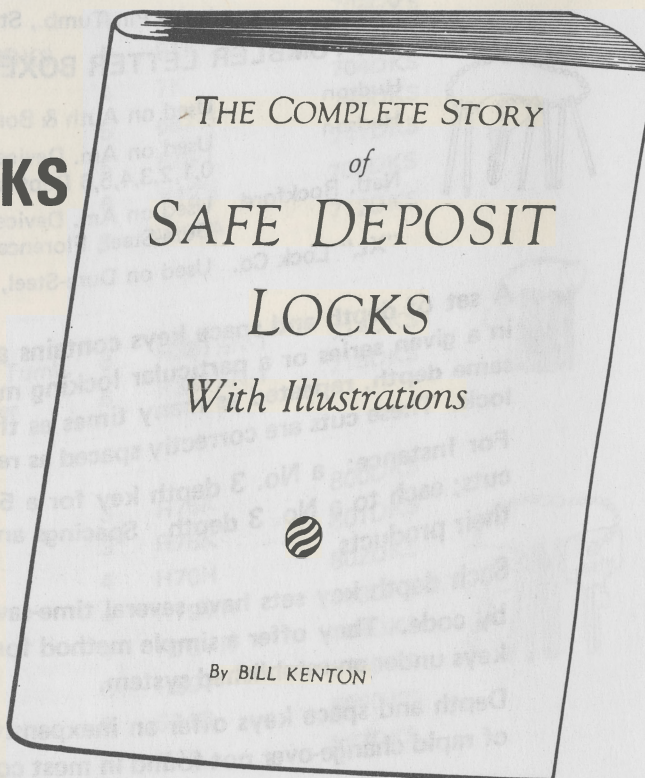

METHODS DESCRIBED:

- Open by Picking
- Use of Door Pullers
- Open by the Hinge Method
- Open by the Drilling Method
- Plugging Holes and Refinishing
- Classification of Types

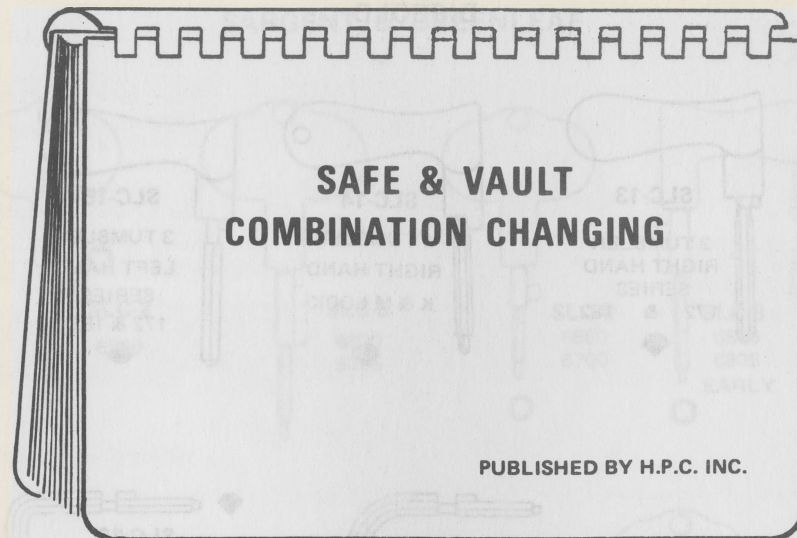

SAFE DEPOSIT LOCKS

This book explains procedures on opening safety deposit box locks. Contains valuable information for servicing locks by Bates, Diebold, Eagle, Herring Hall Marvin, Miller, Mosler, Remington, Sherman, S & G, Victor, Western, Yale, and York.

No. SDL-15

SAFE COMBINATION CHANGING

ORIGINAL FACTORY METHODS

A collection of original direction sheets on how to operate and change combinations, written by the safe lock manufacturers. Has 85 pages and hundreds of illustrations and diagrams. Covers combination changing information on most of the safe locks manufactured during the last 75 years. This book helps the Locksmith BE SURE that he will get the best results in the shortest possible time, by using the proper procedures. Includes combination changing information for Diebold, Eagle, HHM, S & G, Yale and York safe locks.

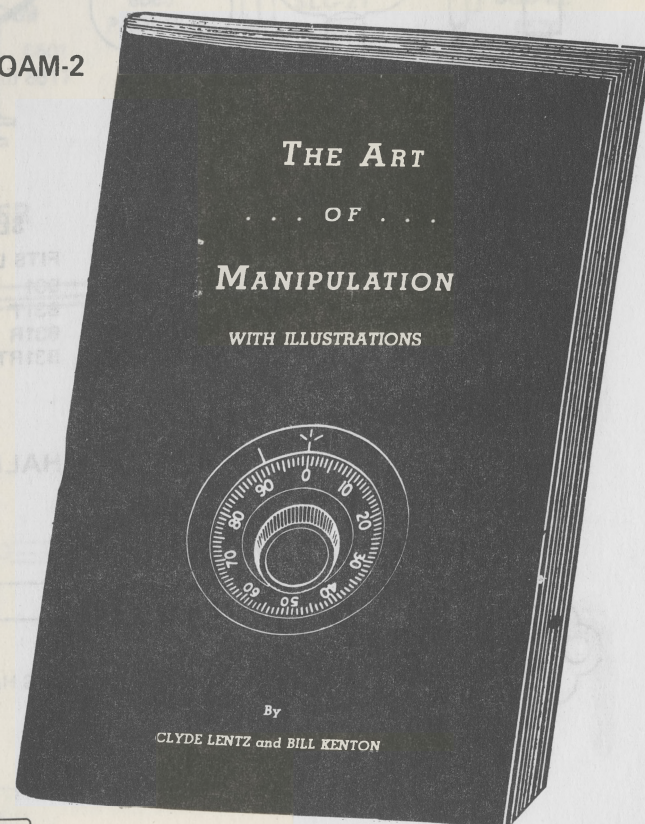

No. SCC

THE ART OF MANIPULATION

No. TOAM-2

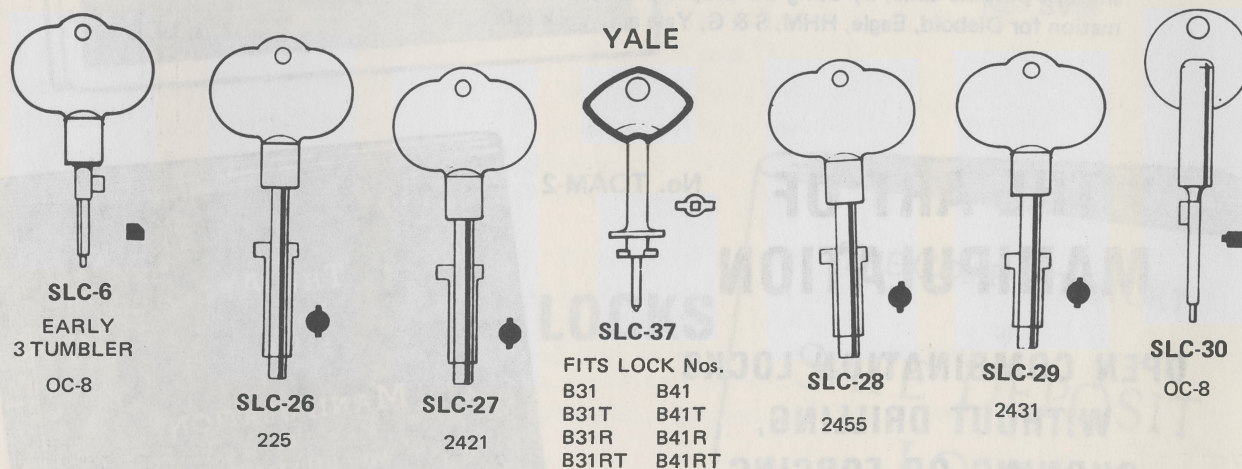

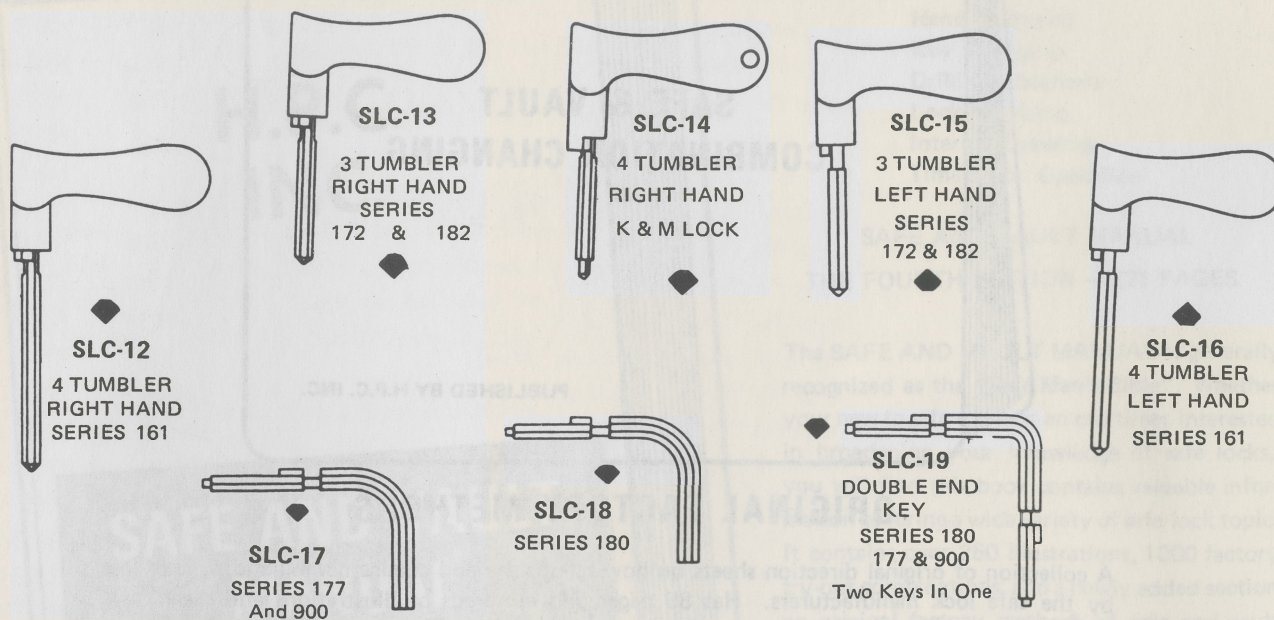

OPEN COMBINATION LOCKS WITHOUT DRILLING, BURNING OR FORCING

A practical work method clearly explained and easy to understand. The combination lock opening system of Hear, Feel and See is called "Manipulation." It was discovered and developed in the past two decades by a small group of safe experts. After much deliberation two of these experts decided to pass on their information to other safe men and published this invaluable book, titled, "THE ART OF MANIPULATION." Due to the highly confidential information in this book, the sale shall be restricted to established Safe Men and Locksmiths. SAFE MANIPULATION IS AN ABSOLUTE FACT, NOT A MYTH. BUY THIS VALUABLE BOOK AND LEARN THE FACTS.

SAFE DRILLS

CARBIDE TIP

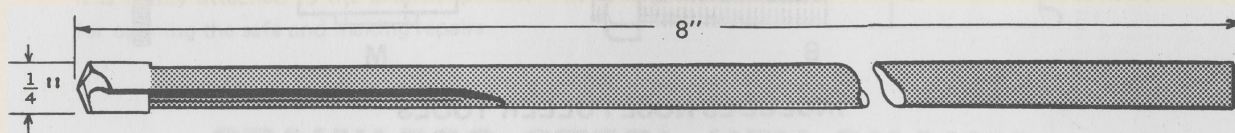

No. SHPD-6 3/8" Carbide Tip

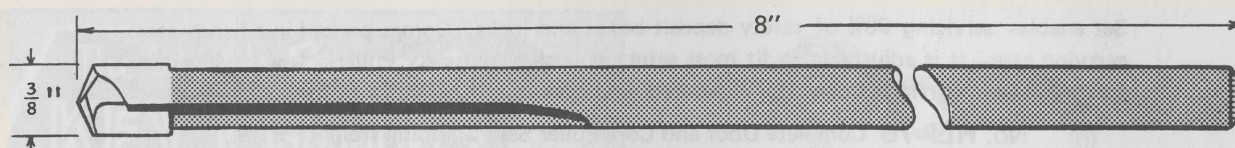

No. SHPD-8 1/2" Carbide Tip

The Carbide tipped drill bit is a good general purpose bit designed to drill hardened steel.

TUNGSTEN TIP

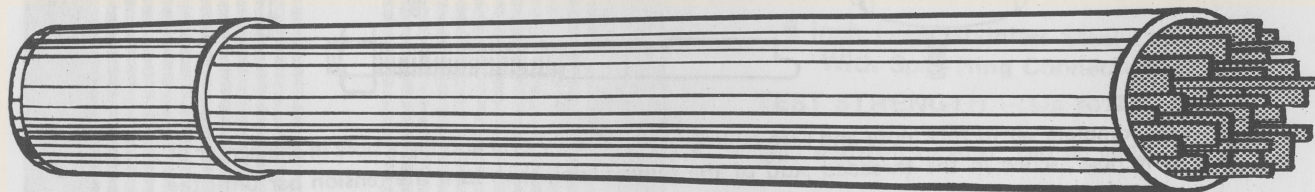

No. SHPD-12 1/4" Tungsten Tip

No. SHPD-14 3/8" Tungsten Tip

These genuine Carbon Tungsten tipped drills are designed for use on hardened die steel. Their main purpose is to make possible the drilling of steel that has been hardened to Rockwell C-40 or harder, without the usual annealing process or reverting to the slow and costly grinding method. We do not guarantee these drills against chipping or breakage caused by unintentional misuse to which they might be subjected.

FLAT SPRING WIRE ASSORTMENT

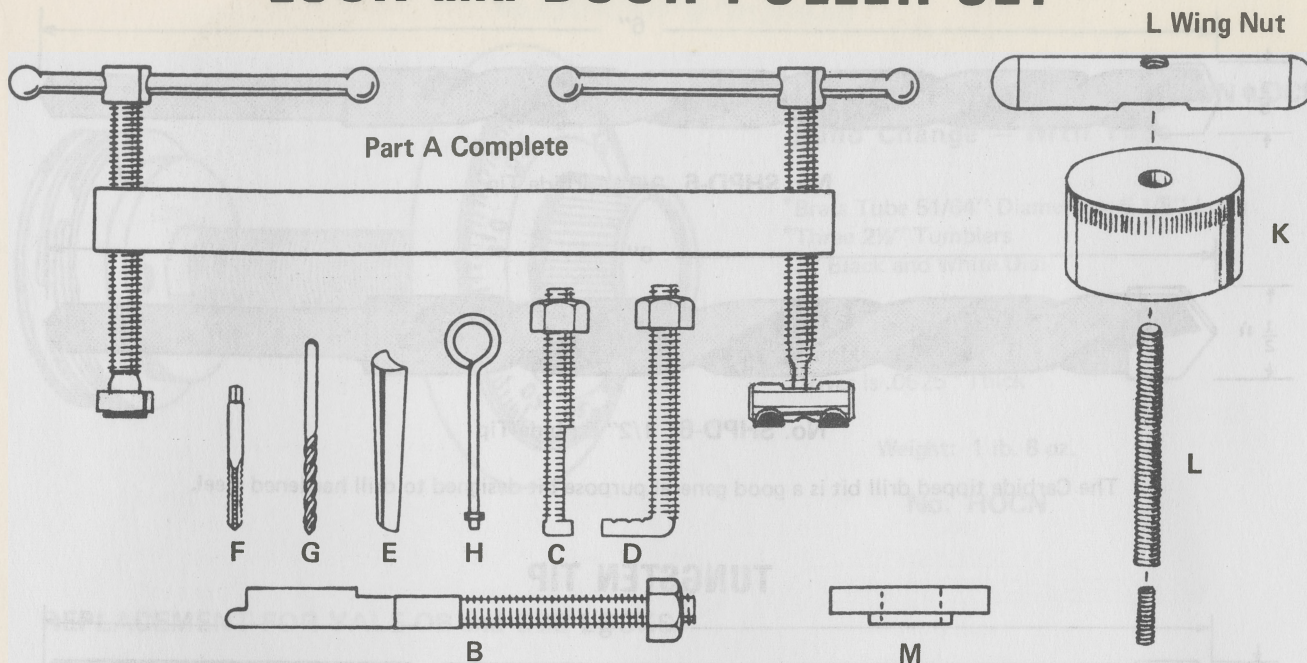

No. FSW-100

A one pound assortment of the most popular sizes of flat spring wire. Make your own hard-to-get flat springs for mortise and rim locks.

SAFETY DEPOSIT BOX LOCK and DOOR PULLER SET

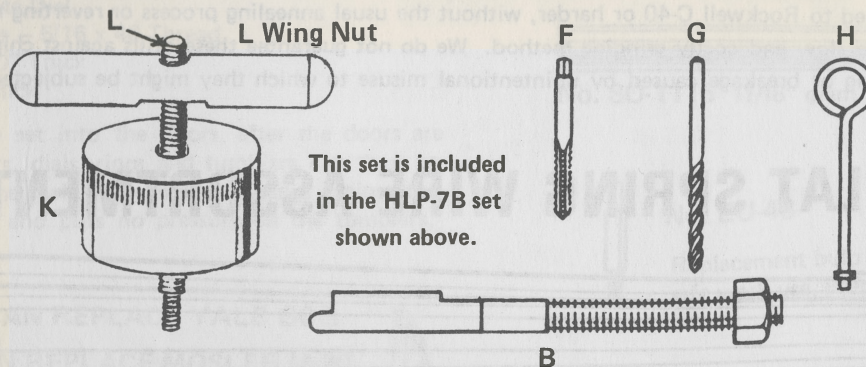

INCLUDES NOSE PULLER TOOLS

This Puller Set is made of heavy wrought and bar steel, expertly machined, assembled and finished. It is a heavy duty set of tools; built to last a lifetime.

Set enables servicing 98% of safety deposit boxes and locks. Comes packed in a handy steel carrying case. It is adjustable to fit most safety deposit situations. Puller's legs have padded feet to prevent marring. Complete, illustrated directions are included.

No. HLP-7B Complete Door and Core Puller Set Shipping Weight: 9 lbs.

SAFETY DEPOSIT BOX "NOSE PULLER"

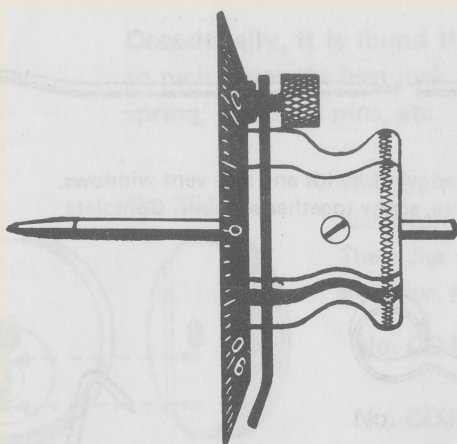

A complete set of lock nose and core pulling tools. Simply drill and tap a hole in the center of the nose, screw in the threaded stud of the pulling tool, then turn the tension bar until the nose is pulled.

Comes with a key seat turning tool. All parts are nickel or cadmium plated. Illustrated instructions are included.

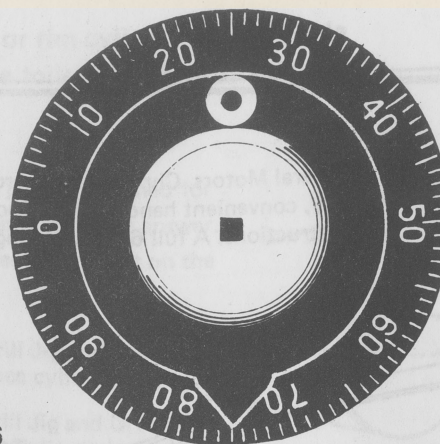

No. HLP-4B Complete Core Puller Set Shipping Weight: 1 lb.

EMERGENCY SAFE DIAL

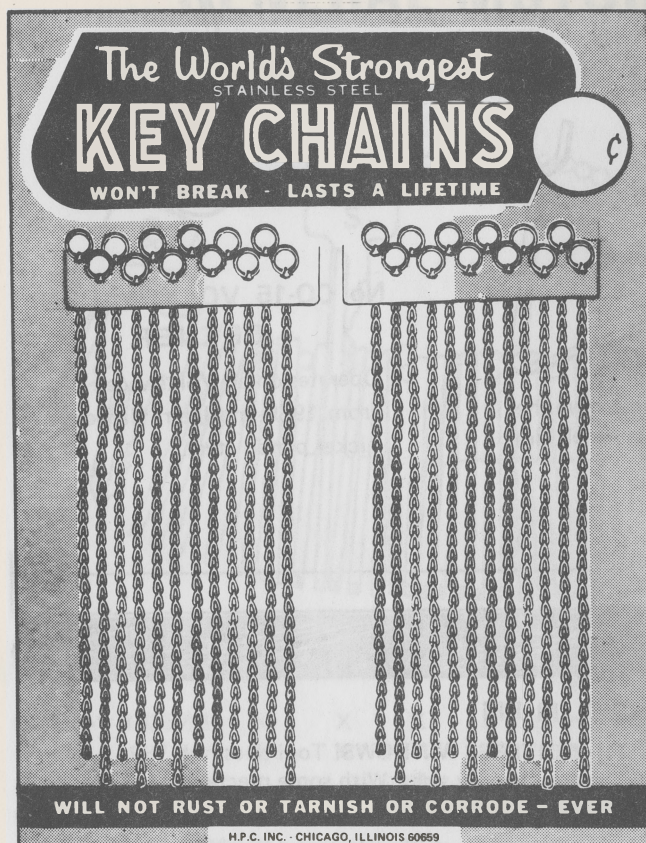

No. MED-66

NUMBERS AND MARKINGS ON DIAL ARE WHITE ON ENAMELED BLACK

After a wedge or pin has been driven in at the edge of the broken spindle end to keep it from turning, a small hole is drilled into the center of the spindle stub. Then, remove the anchoring wedge or pin. Hammer the pointed spindle end of the Emergency Dial into the drilled hole until it is firmly attached to the broken spindle. The Emergency Dial is then ready to work the combination for opening the safe and making repairs.

STAINLESS STEEL KEY CHAINS

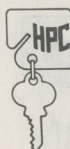

6 Inch Long Stainless Steel Chain
With Split-Ring Connector

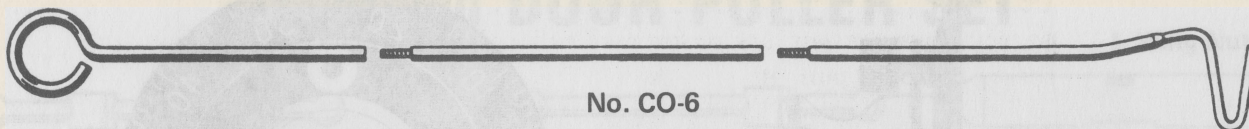

TEST STRENGTH - Up to 200 LBS.

Highly Resistant to Rust, Tarnish and Corrosion

No. CR-6 24 on an attractive display card

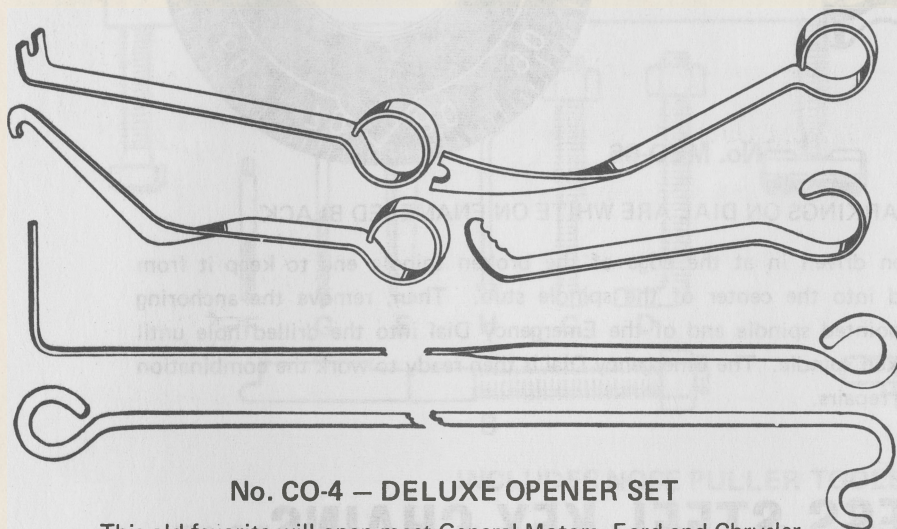

CAR OPENING TOOLS

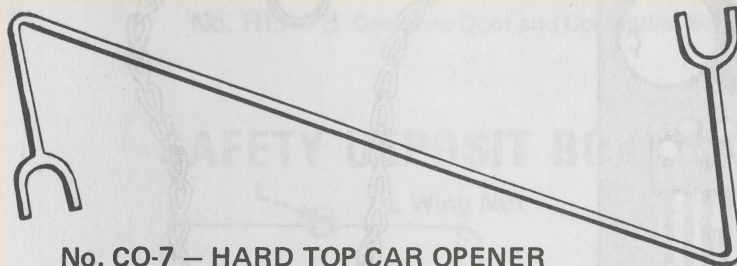

No. CO-6

For General Motors, Chrysler and Ford cars with curved windshields and side vent windows. For easy, convenient handling, this tool is made in three, screw-together sections. Complete with instructions. A full 62 inches long.

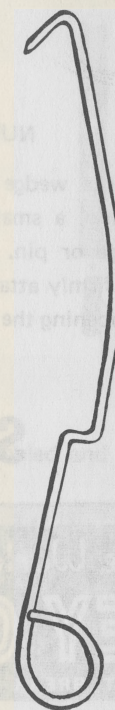

No. CO-4 — DELUXE OPENER SET

This old favorite will open most General Motors, Ford and Chrysler hardtops, convertibles and models with side vents. Made of spring steel, nickel plated.

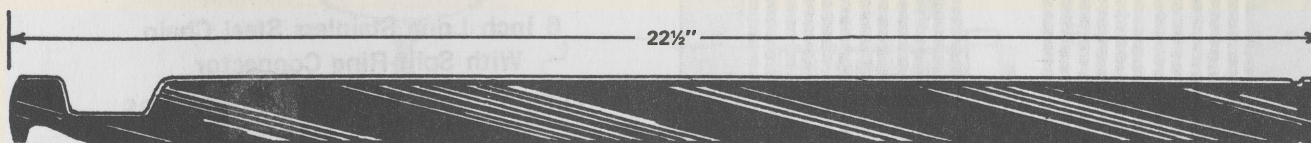

No. CO-7 — HARD TOP CAR OPENER

This tool will open most General Motors hardtops, that have the inside locking button located near the end of the door panel. Not for "long-reach" styles as used on late models.

No. CO-15 VOLKSWAGEN OPENER

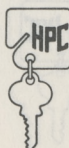

Operates on all Volkswagen cars from 1965 and later. Hardened nickel plated steel.

No. CO-10 — THE SLIM JIM

THE ONLY OPENER FOR THE NEW CARS WITH VENTLESS WINDOWS! Tool does not enter the inside of car. Opens a car door by "feel", rather than by sight. With some practice and following the illustrated instructions, car opening will be no problem.

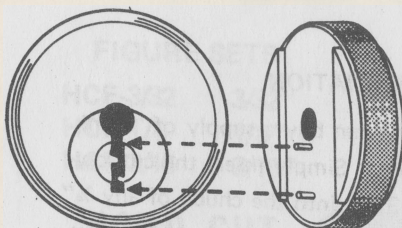

For General Motors, Ford and Chrysler cars. Made of clock-spring steel and is hand finished.

CYLINDER DRILL JIGS

Occasionally, it is found that a mortise or rim cylinder is impossible to pick. Even the best lock picker may be foiled by a broken cylinder spring, corroded pins, etc.

No. CDJ-1

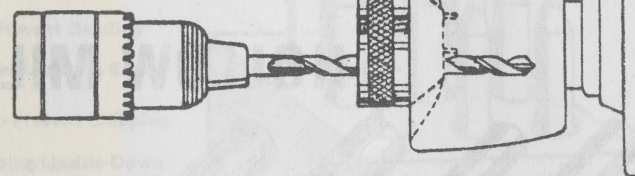

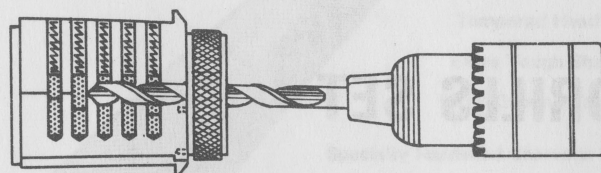

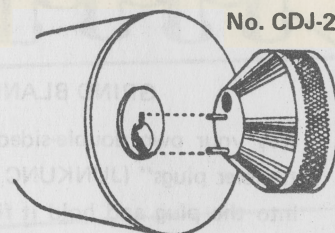

The CDJ-1 and CDJ-2 drill jigs are designed for such situations. Drilling seems to be the answer. These Jigs will assure perfect alignment on the shear line, for a drill bit.

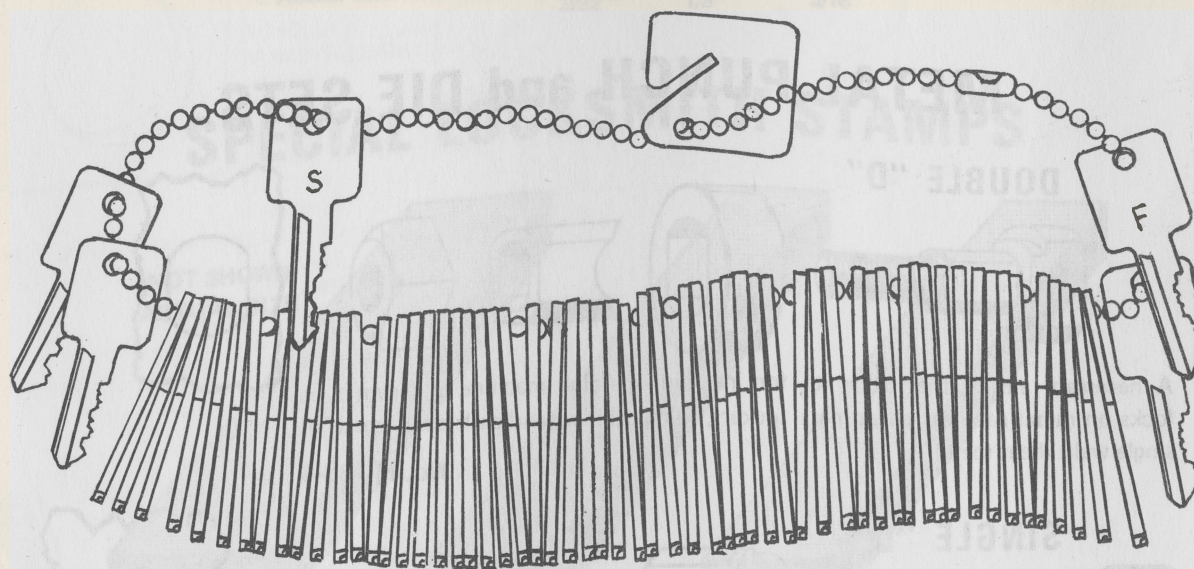

No. CDJ-1 Cylinder Drill Jig and Drill Bit for a flat face cylinder.

No. CDJ-2 Cylinder Drill Jig and Drill Bit for recessed Tulip design types.

No. CDJ-2

KEYING TOOL FOR JUNKUNC

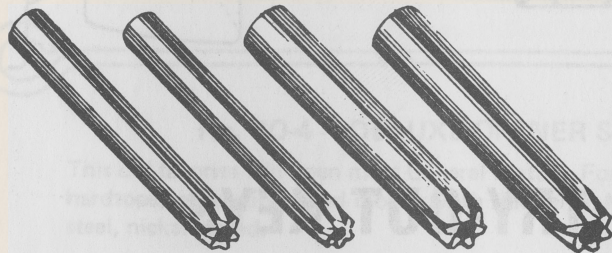

No. DGM-1

GRIND BLANK TUMBLER PLUGS TO ANY DOUBLE-SIDED COMBINATION

Key your own double-sided plugs for Junkunc padlocks in only a minute. You can buy a supply of "blank tumbler plugs" (JUNKUNC No. BTC) and avoid waiting for special factory orders. Simply insert the cut key into the plug and hold it firmly in a vise by the head of the key. Insert the DGM-1 into the chuck of any 1/4" electric drill and feed it 1/32" over the plug. Start the drill and the tool easily trims the tumblers, giving you a perfectly keyed plug.

HOLLOW MILL DRILLS SET

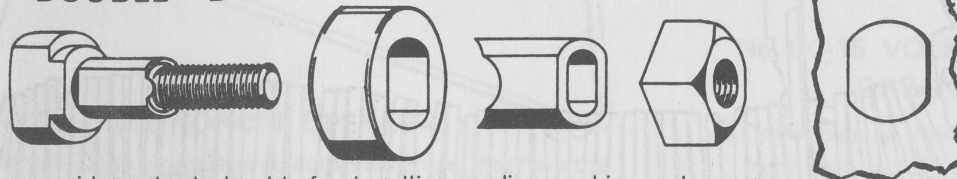

No. HMD-5

For the drilling off of luggage lock rivet heads when servicing suitcase locks. Can be used for shearing off base plate rivets on Master Padlocks, when servicing. Used in either a hand or electric drill.

METAL PUNCH and DIE SETS

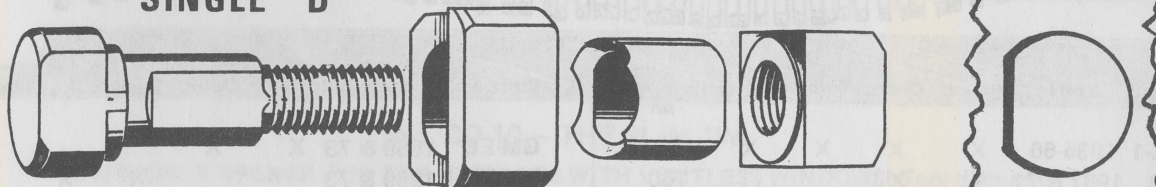

DOUBLE "D"

A necessary aid to the locksmith for installing vending machine and cam type locks on metal cabinets, sheet metal lockers, filing cabinets and cash boxes made of single wall, sheet metal.

No. HDPS-4

SINGLE "D"

Same set is the same type as No. HDPS-4, but punches a single "D" hole as needed for many auto alarm cylinders and cam locks that have a single flat side on the threaded outside case.

No. SDP-700

PIN TUMBLER TWEEZERS

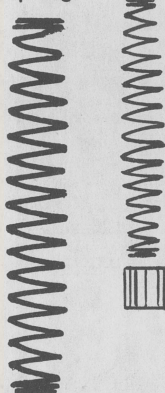

No. PTT-4

The groove in the tip provides a firm non-twisting grip on cylinder pins. The ideal tweezers for loading bottom, top and master pins. The tip is also milled back so that the outside diameter of a standard .115" diameter pin extends past the tip enabling you to "butt" the pin against the end of the plug follower when loading the upper chambers, which gives you added control when holding top or master pins of varying lengths.

TUMBLER SPRINGS

.115" Diameter
Standard Cylinder
Spring

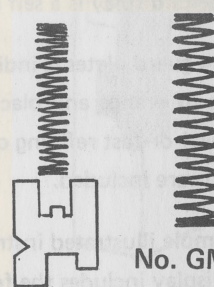

No. LCS

.095" Diameter
For Small Diameter
Pins

No. SCS

For
GENERAL MOTORS

No. GMLS

These phosphor-bronze springs have "tucked-in" ends so that they load easily. They offer maximum corrosion resistance and will give years of control over pins, without collapsing or losing tension. LCS and SCS packed 144 per bag. GMLS packed 100 per bag.

BURGLAR BARRIER DISPLAY

OFFERS LOCK and CYLINDER GUARDS

for GREATER DOOR SECURITY

REFILLABLE — COLORFUL — SELF-SELLING

This eye-catching, heavy duty display will offer continuous impulse sales to your security conscious customers — for a quick turnover and profit.

The large, royal blue display board and attractive metal sign on top, assures an attention-getting appeal. This variety and complete colorful display is a self service security center.

Each of the 14 guard plates is individually packaged in contrasting colors of orange and black cardboard, pre-punched for easy removal or fast refilling of stock. Each item has all necessary hardware included.

Comes with simple illustrated instructions for do-it-yourself installation. Display includes the following stock guards:

DOOR GUARDS

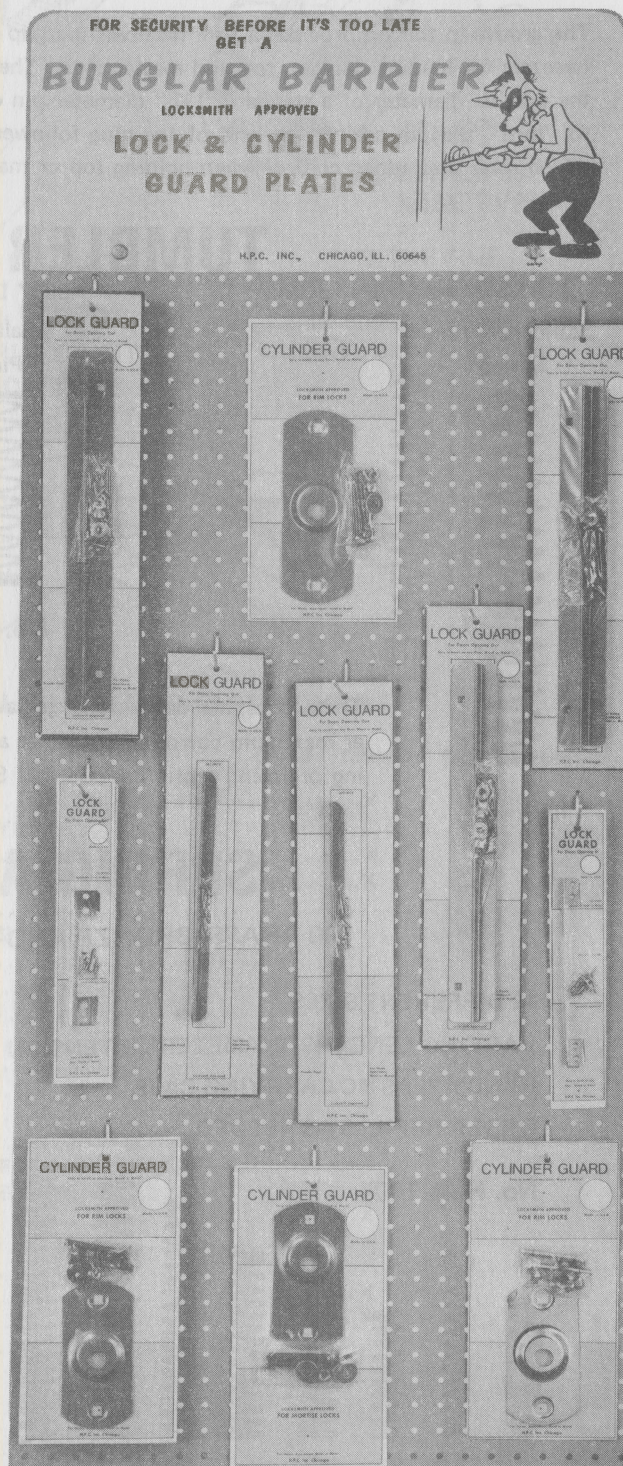

- One — No. IDG-8
- Two — No. ODG-6
- One — No. OVDG-12
- One — No. OVDG-14
- One — No. VDG-1
- One — No. VDG-2
- Two — VDG-10

CYLINDER GUARDS

- One — No. MW-2
- Two — No. RW-2
- One — No. RW-3
- One — No. RW-226

See numerical index for pages showing complete descriptions and application of each guard plate.

No. LCD-14 Complete Display

GUARD PLATES

KING-SIZE — FOR DOORS OPENING OUT

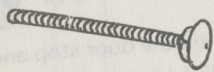

This is our strongest and most popular guard plate. It is 14 inches long and is made of two, welded pieces of steel.

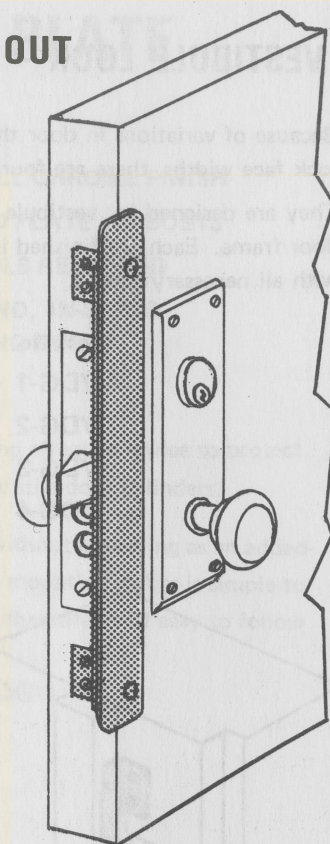

Offers maximum resistance to prying and forcing. Mounted onto door with 2 carriage bolts, going through the door and anchored with a nut and cap nut on the inside. Four wood screws go into the edge of the door.

No. VDG-10 Neutral Brown
Baked-on Enamel

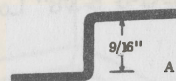

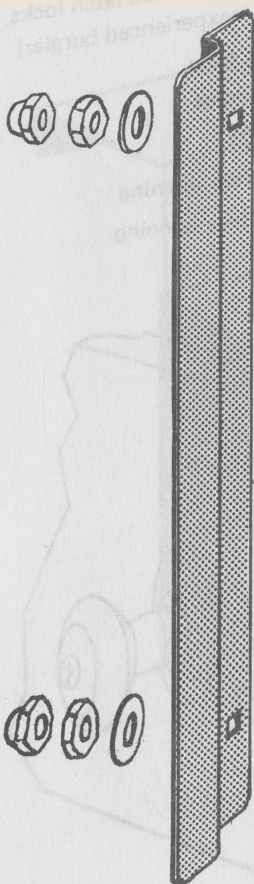

No. VDG-1026 Chrome Plated

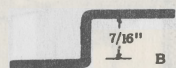

COMPLETE WITH
ALL NECESSARY HARDWARE

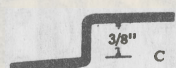

OFFSET — FOR DOORS OPENING OUT AND WITH A DOOR CASING

OVDG-14

OVDG-13

OVDG-12

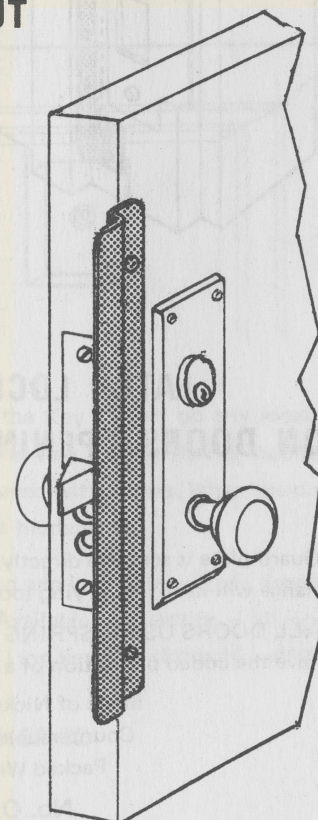

Offset guard plates are to be used on vestibule doors with projecting door casings. For doors that are not flush with the frame.

These plates are easily installed by drilling only 2 holes for the pair of thru-bolts and nuts to solid-mount it. Made of heavy gauge steel, finished in a neutral brown baked-on enamel. Complete with all necessary hardware.

The 14 inch overall length, extends three inches beyond the average lock face, presenting plenty of covered area to frustrate unauthorized, forceable entry.

Three sizes are available. Choose the offset depth that best fits the door and frame requirements.

No. OVDG-14 (A)=9/16" Offset
No. OVDG-13 (B)=7/16" Offset
No. OVDG-12 (C)=3/8" Offset

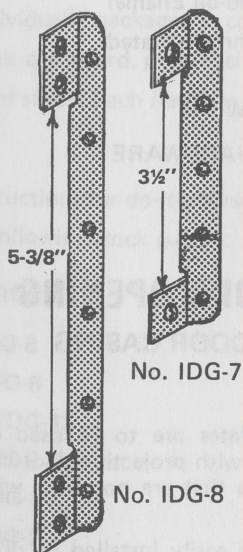

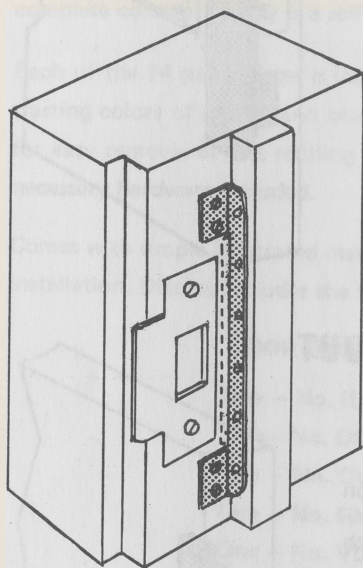

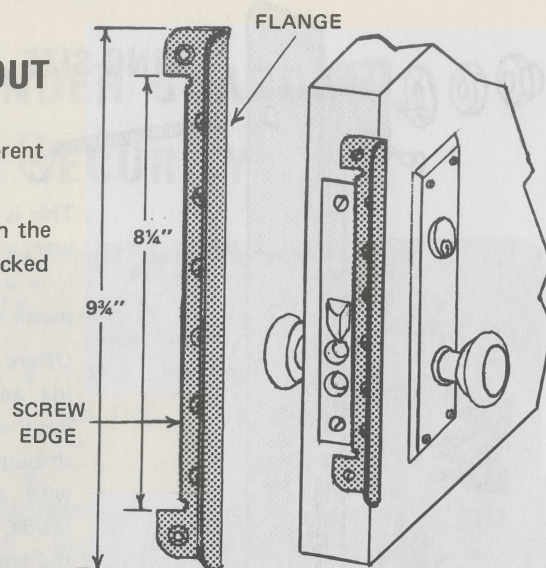

GUARD PLATES

VESTIBULE LOCK — FOR DOORS OPENING OUT

Because of variations in door thickness, fit of door in frames and different lock face widths, there are four sizes of these guards available.

They are designed for vestibule doors that swing out and are flush with the door frame. Each are finished in a neutral brown baked-on enamel. Packed with all necessary screws.

Stock No.	Flange	Screw Edge
VDG-1	Wide	Wide
VDG-2	Wide	Narrow
VDG-3	Narrow	Wide
VDG-4	Narrow	Narrow

LATCH LOCK — ON DOORS OPENING IN

These guards tie the door stop and the door frame together. An extended, 1/16 inch edge goes down into the wood frame itself, to provide more complete security. This effective barrier prevents any door openings by a knife or celluloid strip.

Many homes, hotels and motels still have unguarded latch locks in use. They are easy prey for even an inexperienced burglar!

Made of Nickel Plated Steel
Countersunk Screw Holes
Packed with Screws

No. IDG-7 3 1/2 inch Lock face opening

No. IDG-8 5-3/8 inch Lock face opening

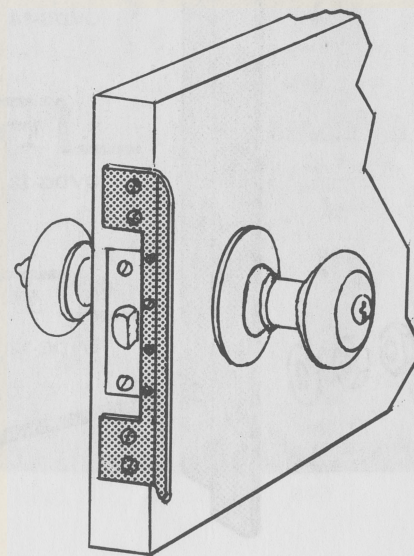

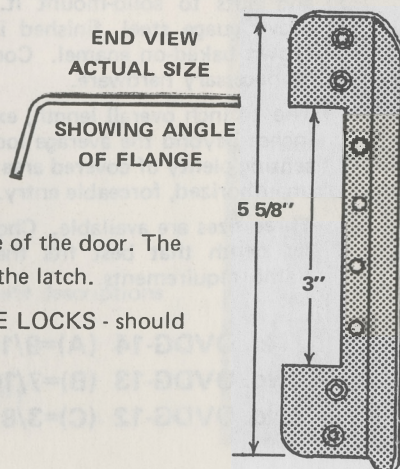

LATCH LOCK ON DOORS OPENING OUT

Guard plate is screwed directly onto the edge of the door. The flange will keep any prying tools away from the latch.

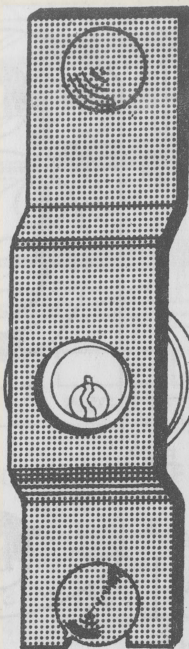

ALL DOORS USING SPRING LATCH TYPE LOCKS - should have the added protection of a lock guard.

Made of Nickel Plated Steel
Countersunk Screw Holes
Packed With Screws

No. ODG-6

NARROW STILE CYLINDER GUARD PLATE

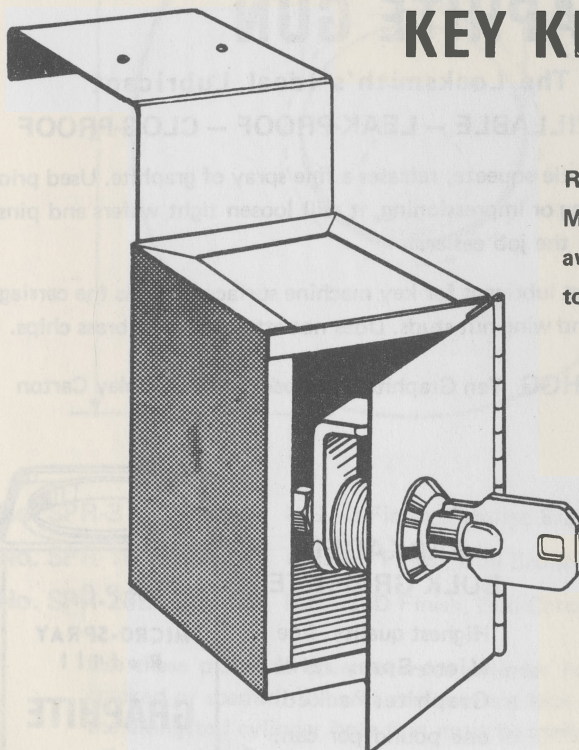

- ATTRACTIVE DULL CHROME FINISH
- CASE HARDENED PLATE and BOLTS
- NO SPECIAL TOOLS REQUIRED
- FOR EITHER HAND, IN-SWING OR OUT-SWINGING DOORS

Fills a need for an attractive and effective device to protect against puller action on narrow stile door cylinders.

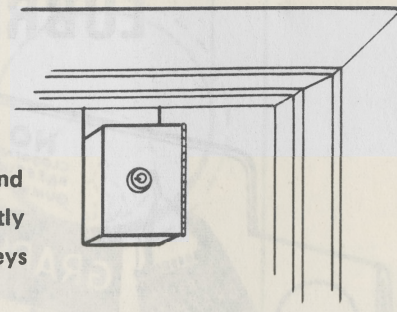

Easily installed in minutes — without appearing as an added-on feature. New innovation in mounting makes it simple to put on or take off. Complete, illustrated and easy to follow instructions.

No. ADG-1

KEY KEEPER BOX

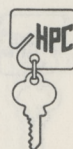

Realtors, Contractors, Builders and Mortgage Bankers can conveniently avoid carrying a large bunch of keys to gain access.

Secure an individual door key in the Key Keeper on any location. No more lost keys or lockouts! The Key Keeper Box is mounted on the top edge of a door and fastened with screws. When the door is closed, the mounting screws are hidden.

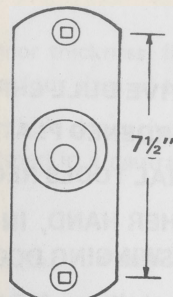

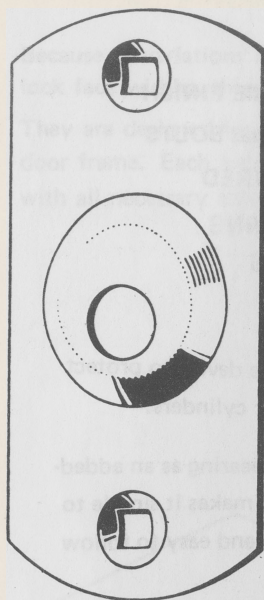

The door of the box is piano hinged and locked by a 7 pin tumbler, high security tubular type lock. Available in quantity — all keyed alike (for one key accessibility) or keyed individually different. Made of steel, durably finished.

No. KEP-12

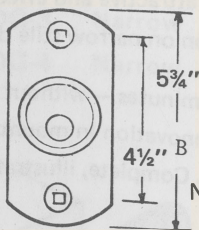

CYLINDER GUARD PLATES

FOR RIM LOCKS

No. RW-3

No. RW-1 and 2

**MAKES CYLINDER LOCKS
PULLER RESISTANT**

Puts a sheet of hard armor over the cylinder. Easy to install. Two different well depths are available. The 7/32" depth is the popular choice.

LUBRICATING GRAPHITE GUN

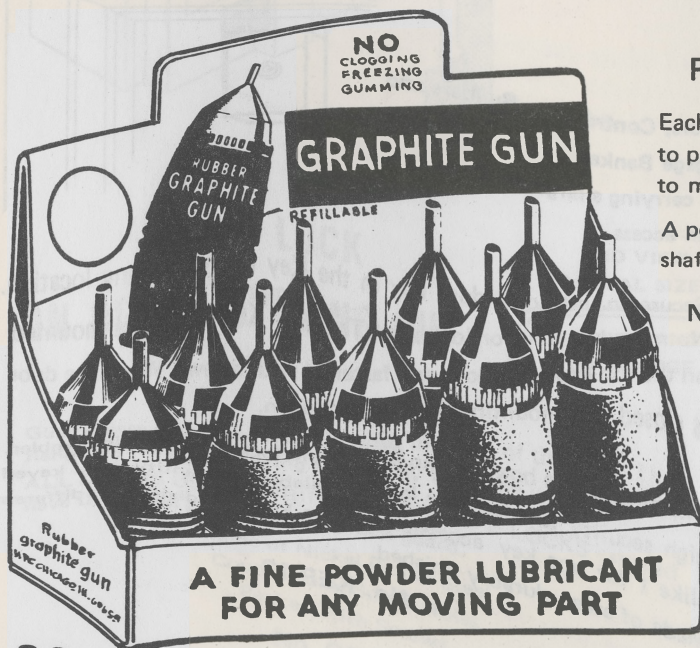

The Locksmith's Ideal Lubricant

REFILLABLE — LEAK-PROOF — CLOG-PROOF

Each gentle squeeze, releases a fine spray of graphite. Used prior to picking or impressioning, it will loosen tight wafers and pins, to make the job easier.

A perfect lubricant for key machine surfaces such as the carriage shaft, and wing nut studs: Does not attract dust or brass chips.

No. HGG Ten Graphite Guns packed in a Display Carton

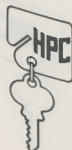

39

**PACKAGED
BULK GRAPHITE**

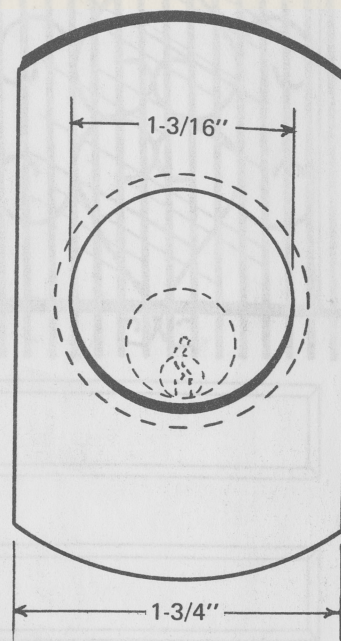

Highest quality, fine Micro-Spray refill Graphite. Packed one pound per can.

No. GG-16

Technical drawing of a circular object, likely a lens or a coin, showing concentric circles and dimensions. The outermost circle has a diameter of 3". The innermost circle has a diameter of 1-3/16". The drawing includes a solid outer circle, a solid inner circle, and a dashed circle between them. A small, irregular shape is located within the dashed circle.

**SHOWN

No. SPO-3	OVAL	U.S.—3 Finish, Polished Brass
No. SPO-10	OVAL	U.S.—10 Finish, Dull Bronze
No. SPO-26D	OVAL	U.S.—26D Finish, Dull Chrome

Use these plates to cover oversize cylinder holes, or when the area around the cylinder hole is chipped, cracked or scarred. When a replacement lock of a different backset must be used, they serve to cover up the elongated cylinder hole that must be made to accept a new backset. The oval plate is ideal for narrow stile aluminum doors, to dress up the door or when using different backset locks for replacement.

CYLINDER GUARD PLATES

WINDOW SECURITY GUARDS

KEEP OUT INTRUDERS WITH THESE MOUNTED WINDOW GUARDS!

These welded steel Window Security Guards have adjustable, sliding arms to protect windows of various types. Can be permanently installed into wood window frame with tamper-proof screws — or attached with lag bolts and anchors into masonry.

Units can be mounted one above the other, for complete window coverage on the inside or outside. Illustrated instructions with each unit.

ECONOMY WOOD FRAME MODEL

Stock No.	Number of Bars	Unit Height	Fits Windows	Weight
WSG-3	3	14½"	15"-20½" High	8½ lbs.
WSG-4	4	20½"	21"-26½" High	11 lbs.
WSG-5	5	26½"	27"-32½" High	15½ lbs.
WSG-6	6	32½"	33"-38½" High	17 lbs.

All sizes above adjust from 24" to 42" width. May be fastened into wood window frame with tamper-proof screws.

Can be used on any wood frame windows in the home, including basement windows.

HEAVY DUTY ADJUSTABLE

Mediterranean styling in heavy welded steel construction. Sliding arms extend 6 inches.

Can be attached one above the other for full window coverage, or one beside another for extra wide windows. Specify when ordering. Parts for adjoining two or more units will be furnished.

Available also, with hinge mounting on one side. Required padlock not included.

Scroll-work decorations come separate and detached, so that they can be bolted wherever desired.

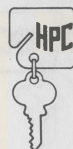

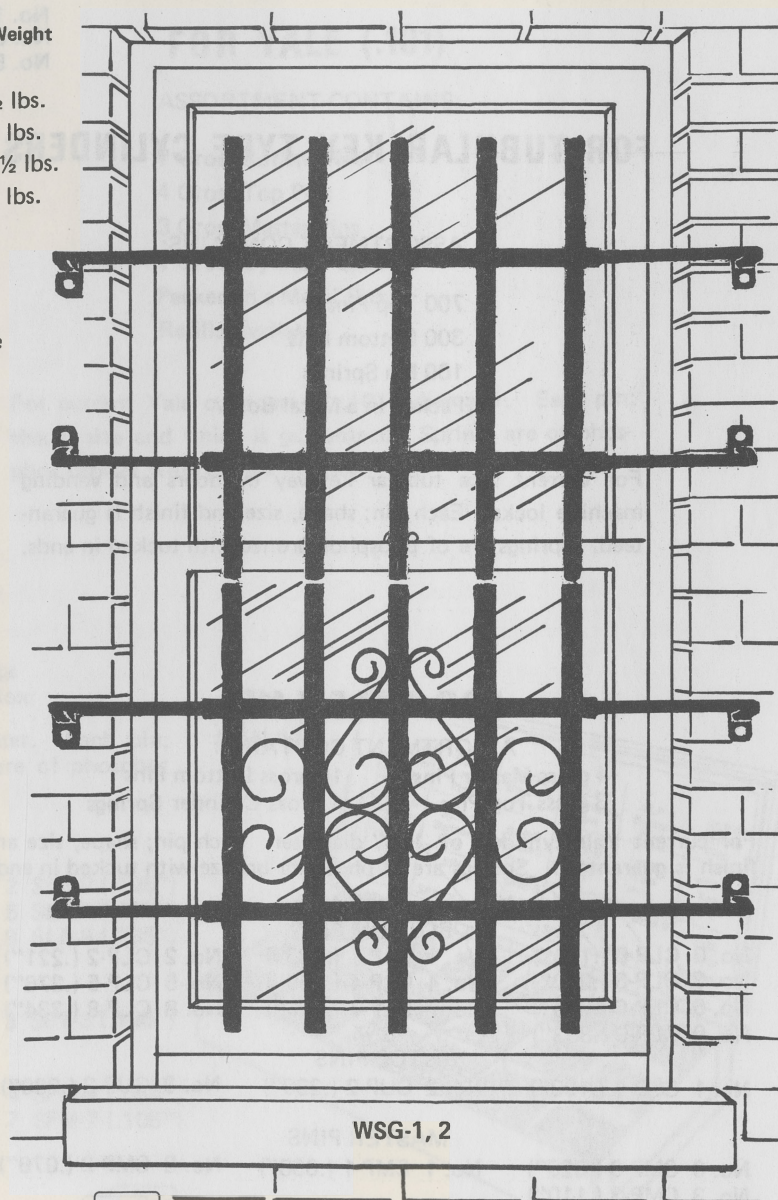

Size: 26" x 24"

Weight: 20 lbs. per complete unit

CARRY-OUT KEYING KIT

A SHOP IN A BOX

No. COKO-5

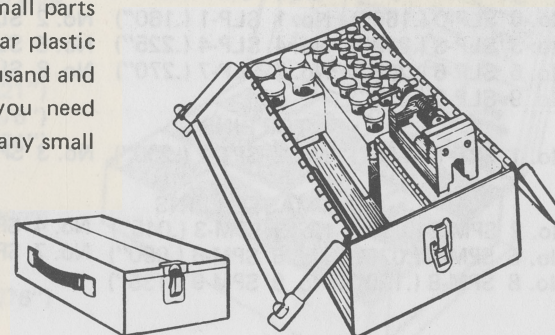

This handy kit contains just about everything you will need to handle most outside keying jobs. Follow-thru tools, plug holders, pins, cams, tailpieces, cam screws, cylinder springs and tweezers are all contained in the COKO-5 kit. An excellent machinist's vise swings up on a hinged plate, ready for instant use. The bottom of the box has four cushioned bumpers that won't scratch or mar any surface. The inside of the lid is lined with foam tape to keep all interior parts where they belong.

Box Measures 15"x7"x3¼"

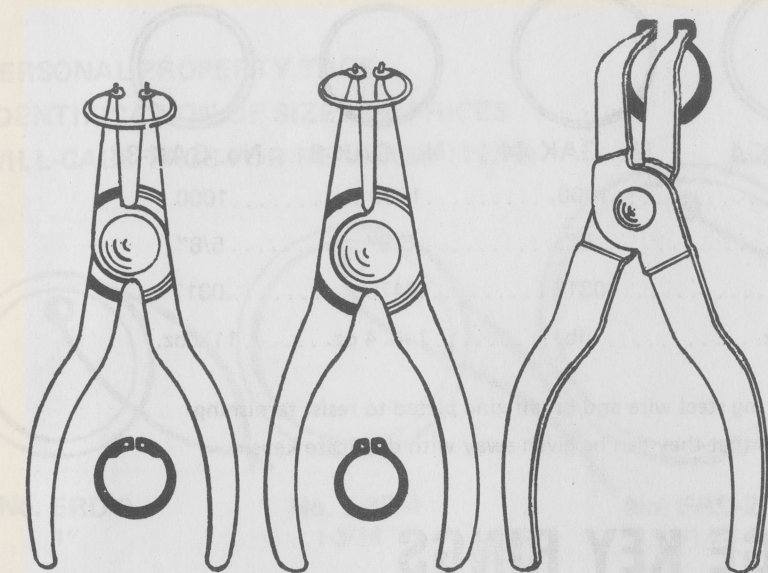

CARRY-OUT KIT BOX ONLY

The KO-3 CARRY-OUT KIT BOX is a perfect carrying case for small parts that so easily can be misplaced in your tool box. Fill the 30 clear plastic vials with special pin sizes, automobile wafers and springs or a thousand and one of the small items that you always leave at the shop when you need them most. The machinist's vise puts a firm grip on plug holders or any small lock part that requires filing or cutting.

SPEEDEX KEY CUTTING MACHINES

NEW TYPE STEEL JAW

This new design assures maximum leverage for a firm grip on cylinder and flat steel keys. Made of steel for added durability.

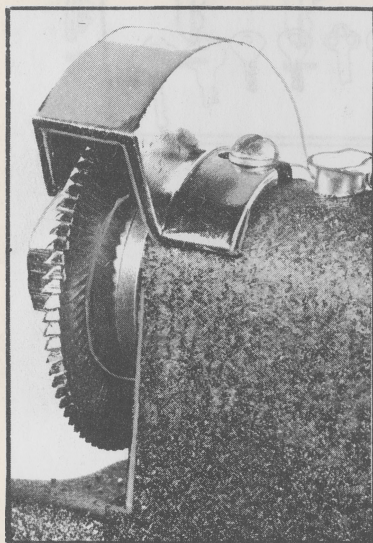

- RUGGED
- VERSATILE
- ACCURATE
- DEPENDABLE

The "MC" model cuts cylinder keys and uses the very popular "Sharp" milling cutter. In a very short time, this cutter has become the one to which all others are compared.

SPEEDEX MC and SMS MODELS

The "SMS" model cuts cylinder and flat keys without changing cutters or re-adjusting guides.

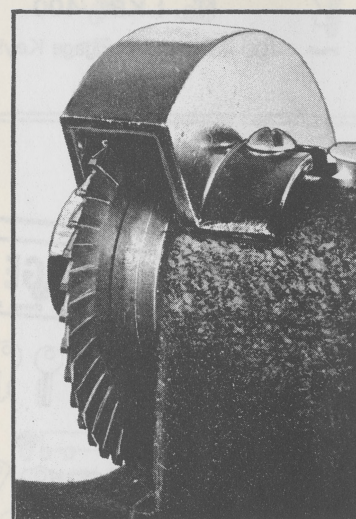

THE SPEEDEX "MC" MODEL

Duplicates Cylinder and Disc Tumbler keys. Supplied with a "Sharp" milling cutter. An optional CW-16 (.045) Flat Slotter with a W-16 Slotter Washer is used for the cutting of flat steel keys.

THE SPEEDEX "SMS" MODEL

Duplicates either Cylinder or Flat keys with just a .045 thick, side-milling slotter.

No. 9110MC Machine, Motor and Base

Supplied with a "Sharp" milling cutter and a 110V, AC, ¼ H.P., 1725 R.P.M. motor. Machine and motor are mounted on a 14½"x 11" x 1" metal base. Shipping Weight: 41 lbs.

No. 9100MC Machine Only

Same machine as No. 9110MC, less motor and base. Bench space: 8"x 4". Shipping wt.: 16 lbs.

No. 9110SMS Machine, Motor and Base

Supplied with an "SMS" side-milling slotter, wire brush and a 110V, AC, ¼ H.P., 1725 R.P.M. motor. Machine and motor mounted on a 14½"x 11"x 1" metal base. Shipping weight: 41 lbs.

No. 9100SMS Machine Only

Same machine as No. 9110 SMS, less motor and base. Bench space: 8"x 4". Shipping wt.: 16 lbs.

SECURITY LOCKING BARS

HEAVY DUTY CHANNEL STEEL 1/2"x 1 1/2"

SECURE LOCKING BARS are quickly installed on steel or wood file, blueprint or tool cabinets. They are made of heavy channel steel and are packed with all necessary hasps, staples and screws for easy and profitable on-the-job installations. When used in conjunction with the approved S & G padlock, it meets U. S. Government Specification MIL-P-17257A.

EASEL TYPE BINDER for Code card storage and fully illustrated instructions included.

A TOTAL OF 59 CODE CARDS FOR DOMESTIC LOCKS ARE INCLUDED.

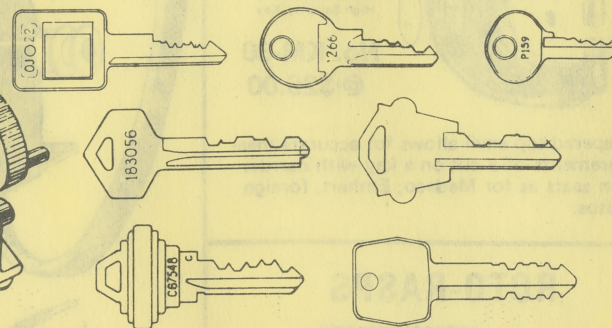

CODE-A-KEY™ Code Machine — over 1700 in use!

THE MACHINE YOU'VE HEARD SO MUCH ABOUT. SO SIMPLE TO USE — SO VERSATILE. OVER 1700 HAVE BEEN SOLD IN JUST 18 MONTHS.

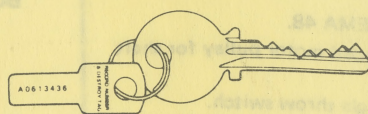

THE EASE OF CHANGING — from one set-up to another is unparalleled! Even radically different set-ups are accomplished in 10 to 30 seconds, without wasting any key blanks.

This dramatic advancement is made possible through the use of plastic cards, which are inserted for information guidance. Quite often, just replacing the code card is all that is required to change from one set-up to another. No additional depth or space adjustments needed!

SOME TYPICAL KEYS CUT BY CODE ON THIS MACHINE

No. 1200CM CODE MACHINE @ \$979.00

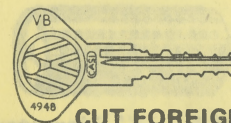

CUT MEDECO

Cut standard commercial Medeco with optional cutter and jaw.

No. MJ-1 Medeco Jaw @ \$25.00

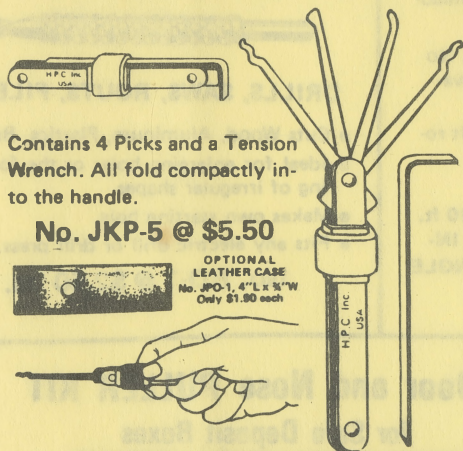

No. CW-1012 Medeco Cutter @ \$64.00

CUT FOREIGN KEYS

With available, optional code cards, cut many foreign car keys.

JACKNIFE PICK SET

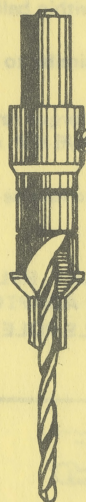

Contains 4 Picks and a Tension Wrench. All fold compactly into the handle.

No. JKP-5 @ \$5.50

OPTIONAL LEATHER CASE
No. JPO-1, 4" L x 1 1/2" W
Only \$1.90 each

ADJUSTABLE SCREW DRILLS

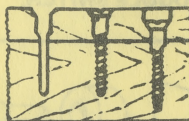

FOUR PIECE SET — For No. 6, 8, 10 and 12 WOOD SCREWS.

ADJUSTABLE — for screw lengths.

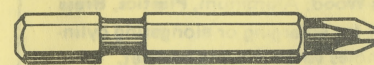

Drills, Countersinks, Counterbores ... all in one operation.

Use on Wood, Plastic, Soft Metals.

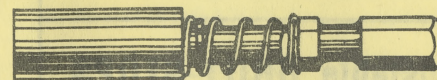

No. ASD-1 @ \$6.60 set

SCREWDRIVER BITS

PHILLIPS HEAD TYPE

FLAT BITS WITH SCREW FINDER

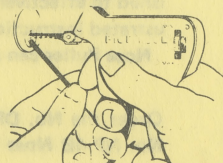

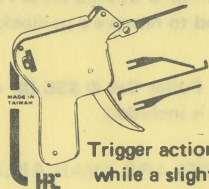

**FIVE PIECE SET
FOR VARIABLE SPEED DRILLS**

- FLAT BIT SIZES, Fits Nos. 4—14
- PHILLIPS HEAD BITS, sizes 1, 2, 3.

No. SB-1 @ \$4.75 per set

LOCK PICK GUN

Includes vinyl carrying pouch.

**No. PG-3
\$27.50**

Trigger action causes bottom pins to bounce into position, while a slight turning tension is applied to plug with the included tension wrench.

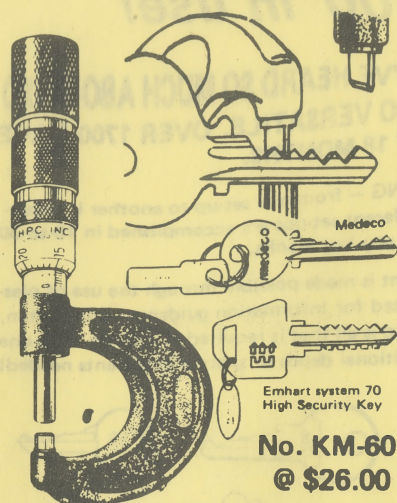

Super Jim® CAR OPENER — No. CO-11 @ \$5.00

THE CAR OPENER DESIGN THAT EVERYONE IS COPYING! Clock spring steel, bright zinc plated. Wider and thicker. Offers faster openings on most domestic automobiles. Does not enter vehicle. Complete illustrated instructions.

KEY MICROMETER

NEW TAPERED ANVIL

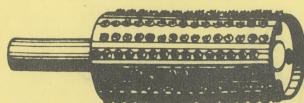

No. KM-60
@ \$26.00

Tapered top anvil allows for accurate measurements of a cut on a key with narrow pin seats as for Medeco, Emhart, foreign autos.

ROTO-RASPS

No. RR-12 - 1/2" Diameter

No. RR-34 - 3/4" Diameter
@ \$1.70 each

SHAPES, CUTS, FORMS, MILLS

HARDENED TEMPERED STEEL. FITS ELECTRIC DRILLS OR DRILL PRESS.

- Cuts Wood, Aluminum, Plastics, Brass
- Ideal for enlarging or elongating cylinder holes when moving backset.
- "Dresses-up" a mortise pocket.

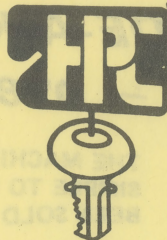

Adjustable DRILL-STOPS

End Overdrilling, Guesswork, Trouble

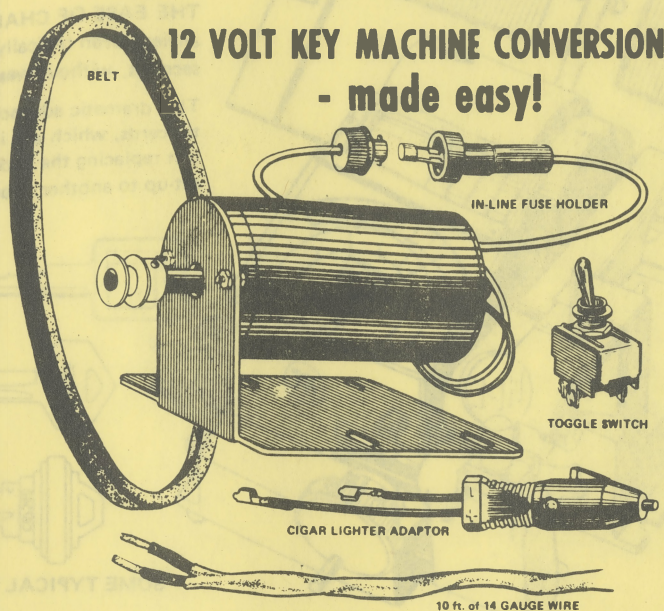

- End costly errors caused by overdrilling.
- End damage to tailpieces or switch mechanisms, when drilling cylinders.

2 pc. set - 1/16 to 1/2 inch bits
No. ADS-1 @ \$3.10 per set

WHAT'S NEW!

MAY 5, 1978

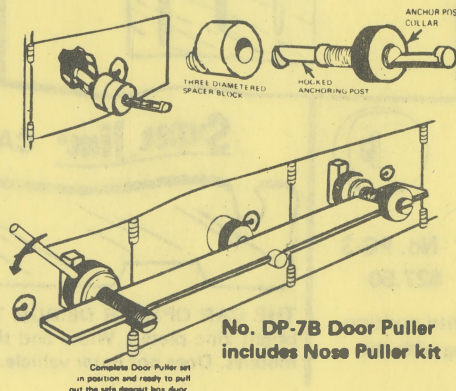

AT LAST! A 12 VOLT D.C. MOTOR THAT EASILY MOUNTS ONTO EXISTING KEY MACHINES, HAS HIGH TORQUE AND MINIMAL BATTERY DRAINAGE.

No. DC-12 @ \$75.00

- **FRAME MOUNTING** - Standard NEMA 48.
- **CORRECT CUTTER R.P.M.** - Included motor pulley for shaft speed of 1000 R.P.M.
- **SWITCH** - Includes double pole, single throw switch.
- **PROTECTION** - In-line fuse holder eliminates possibility of wiring damage caused by a "short".
- **DURABILITY** - 3/8" diameter shaft turns within ball bearings on the pulley side.
- **ELECTRIC DRAW** - 13 amps/typical load similar to car headlights.
- **POWER** - High torque motor 40 oz.-inch torque rating. No load R.P.M. 3600. Under load 3000 R.P.M., 1/6 H.P. equivalent.
- **ROTATION** - Simply switch power leads to reverse shaft rotation

KIT INCLUDES: MOTOR and FRAME, PULLEY, BELT, 10 ft. of 14 GAUGE WIRE, CIGAR LIGHTER ADAPTOR, IN-LINE FUSE HOLDER and FUSE, DOUBLE POLE, SINGLE THROW TOGGLE SWITCH.

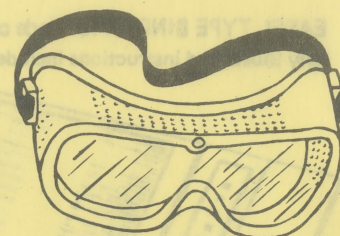

No. DP-7B Door Puller
includes Nose Puller kit

Door and Nose PULLER KIT for Safe Deposit Boxes

A heavy wrought and bar steel set, expertly made and finished to effectively pull out a lock core. Complete with illustrated instructions. No. NP-4B @ \$30.25 Nose Puller Set. Nose Puller can also be used to remove a padlock plug!

Order the No. DP-7B Door Puller Set @ \$85.00 and the No. NP-4B Nose Puller Kit is included.

REPLACEMENT PARTS ARE AVAILABLE

SAFETY GOGGLES

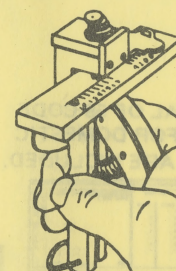

No. SG-1 @ \$2.45

Soft, form fitting vinyl frame. Fits over personal glasses. Protects eyes from flying particles, dust, spray. Has distortion-free lens. Well ventilated. OSHA approved.

WAFER KEY PUNCH for SCHLAGE

Includes a vinyl carrying pouch.

CUTS 10 - 20 - 30 SERIES

No. 200
\$62.50

DECODER GAUGE READS
BOTH CUT KEYS and PLUGS

ROUTER-DRILL

DRILLS, SAWS, ROUTS, FILES

- Cuts Wood, Aluminum, Plastics, Brass
- Ideal for enlarging holes or the forming of irregular shapes.
- Makes own starting hole.
- Fits any electric drill or drill press.

No. RD-1 @ \$2.50 ea.

WOW !!!

WE'VE SOLD THOUSANDS OF THE STANDARD "SLIM JIM" MODEL, BUT NOW - HERE'S

Super Jim®

No. CO-11 • CAR OPENER

@ \$5.00 each

AVAILABLE NOW

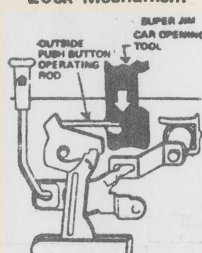

BRITE ZINC PLATED

WIDER and THICKER

FASTER OPENINGS ON MOST DOMESTIC AUTOMOBILES.

DOES NOT ENTER VEHICLE.

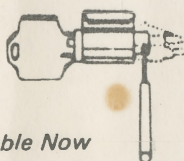

Lock Mechanism

FOLLOWER and PIN PUNCH

for National-Rockford
No. SUT-24 @ \$3.00

Follower machined and zinc plated for smooth operation. Pin punch is plated and hard.

Available Now

BROKEN KEY EXTRACTOR

No. EZ-5 @ .85 each

SPIRAL ROUND TYPE

Available
Nov. 10

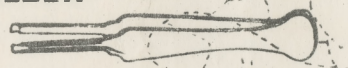

OCTOBER 1, 1976

WHAT'S NEW!

COMPACT PIN TUMBLER TWEEZER

No. PTT-5
@ \$2.75

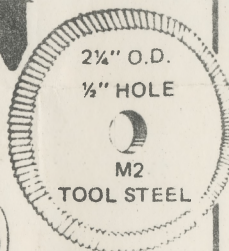

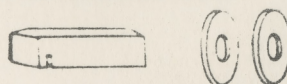

Only 4" long. Milled tips firmly grips top and bottom pins. A useful keying aid.

Available Now

CONVERSION CUTTER Available Now

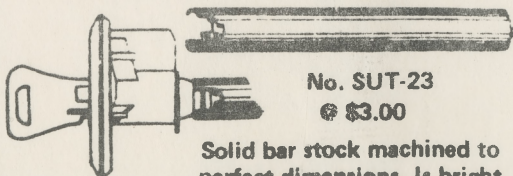

CUT FROM DEPTH KEYS OR DUPLICATE

M2 Tool Steel Cutter cuts steel, brass or nickel silver. Fits the following: HPC Speedies: Taylor KD 1.2 etc., Dominion 145, 146, 146a, 2584 & 2585, Keil 4 & 4 1/2, Curtis 2H. Replaces the following single angle cutters: 23RF, 26, CU 5, CU 1.23MC, 34MC. No. CW-51MC kit \$39.00 includes cutter, copy dog, washers & complete instructions.

FOLLOWER TOOL for

WEISER BEVERLY DESIGN KNOB LOCKS

No. SUT-23
@ \$3.00

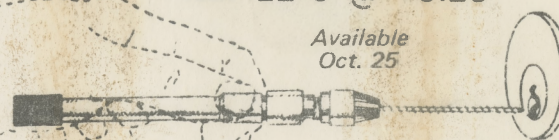

Solid bar stock machined to perfect dimensions. Is bright zinc plated.

Available Now

SELF-CONTAINED, BROKEN KEY EXTRACTOR SET

No. EZ-6 @ \$6.25

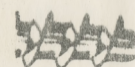

Available
Oct. 25

FOUR REPLACEABLE BLADES ARE CONTAINED IN HOLLOW HANDLE.

One saw type extractor blade
Two round extractors, standard .040" diameter
One round extractor, heavy duty .050" diameter

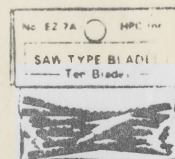

ENLARGED TIP END VIEW OF ROUND, CONVOLUTED EXTRACTOR

ECONOMICAL REPLACEMENT BLADES

@ \$3.60 per pack of any 10

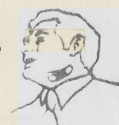

No. EZ 7A - 10 Saw type extractor blades only
No. EZ 7B - 10 Round type extractor blades, .040" standard diameter
No. EZ 7C - 10 Round type extractor blades, .050" heavy diameter
No. EZ 7D - 10 piece assorted, consists of 4 of 7A, 4 of 7B, 2 of 7C

IMPRESSION FILE SAFETY CASE

THIS CLEAR TUBE CLIPS TO SHIRT POCKET. HAS A SPRING ACTION CAP.

PROTECTS POCKET and WEARER

Available Oct. 25

IFH-1 = File Holder Case ONLY, \$2.25
IFH-2 = Case plus No. 2 Cut Impression File, @ \$5.00
IFH-4 = Case plus No. 4 Cut Impression File, @ \$5.15

FILES ARE AMERICAN MADE

KEYING PIN KIT for WEISER

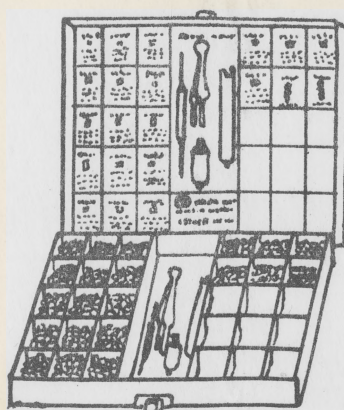

No. WPA-115 @ \$29.50

Available Nov. 10

Securely contained in a heavy duty metal box with a latch.

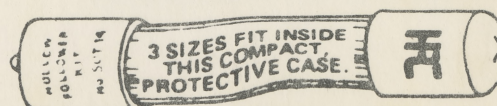

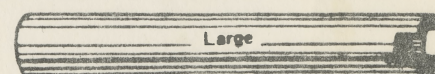

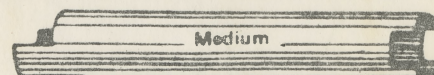

Consists of 100 each of all Bottom, Top, Master Pins and Springs.

Includes a Follower, Cap Tool, Shim Pick and a special Pin Tweezer.

HOLLOW FOLLOWER SET

No. SUT-14 @ \$8.75 Available Now

EFFECTIVE DEC. 22, 1972
