Countless custom options available!

Contact Wikk for custom short specs or budgetary and design assistance.

To ensure competitive bidding by qualified Sub Contractors, please specify Wikk's products in CSI Divisions: 8, 14, or 28.

Features & Benefits

Competitive 4-week lead time

Ships from the factory to the job site in 20 business days or less.

Simple installation

3/8" thick base plate secured to inside welded gusset plate of bollard with 4 flathead screws for a clean seam and strong fastening. Base plate includes 4 mounting holes for easy install of bollard with standard tools.

Secure mounting

1/2" diameter masonry anchors provided for mounting in concrete or other flooring materials.

Welded angle top

Bollard cap is welded on and ground smooth for a watertight, seamless finish. Angled to prevent rainwater pooling or litter accumulation.

Preps for two devices

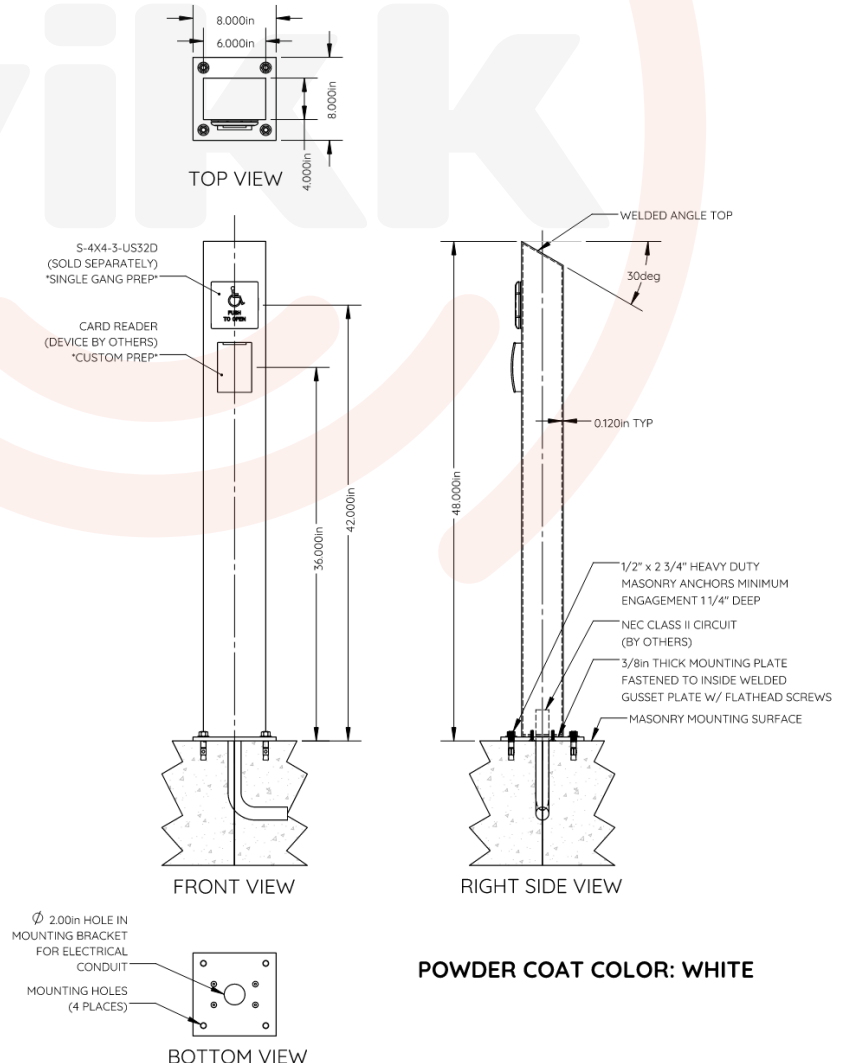

Includes cutouts for mounting intercoms, card readers, or actuators. Preps are customizable to fit make/model specified for each device.

Robust structure

Solid and reliable aluminum construction for both indoor and outdoor locations.

Long-lasting powder coat finish

Sleek and attractive powder coat finish with excellent corrosion and chemical resistance. Choose from a wide selection of colors to match any palette.
