

SECTION I

TV LIFTS AND ENTERTAINMENT HARDWARE

WHISPERTM

FLAT SCREEN TV LIFT

Ride

Rack & Pinion design with unique patent pending stability system

Uses German Bosch motor for reliable & quiet operation

Requires only 2-3/4" (70mm) depth behind the TV

200 lbs. weight capacity

29.5" (750mm) Stroke

Simple & fast mounting

Very competitive pricing

Whisper-Ride is delivered complete inside one carton and includes:

Remote control (RF)

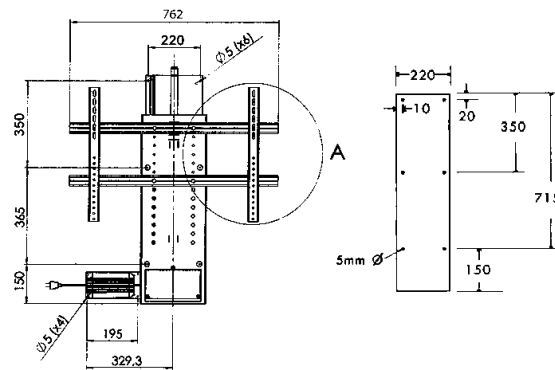

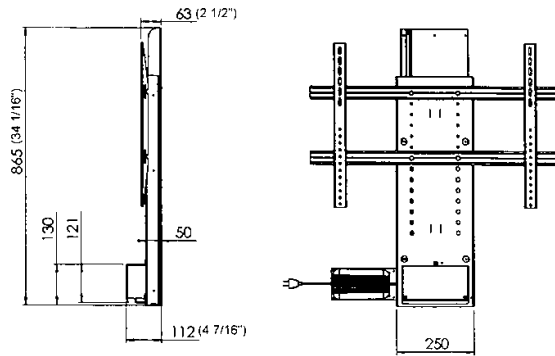

Manual push switch

Adjustable lid lifter

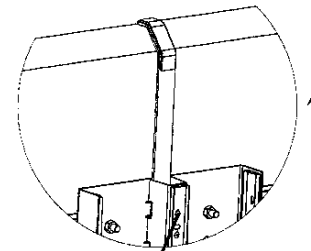

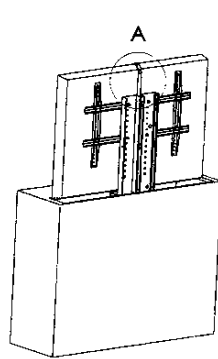

Universal TV mounting bracket

ARTICLE # 4050.845.060

Electrical Power Supply

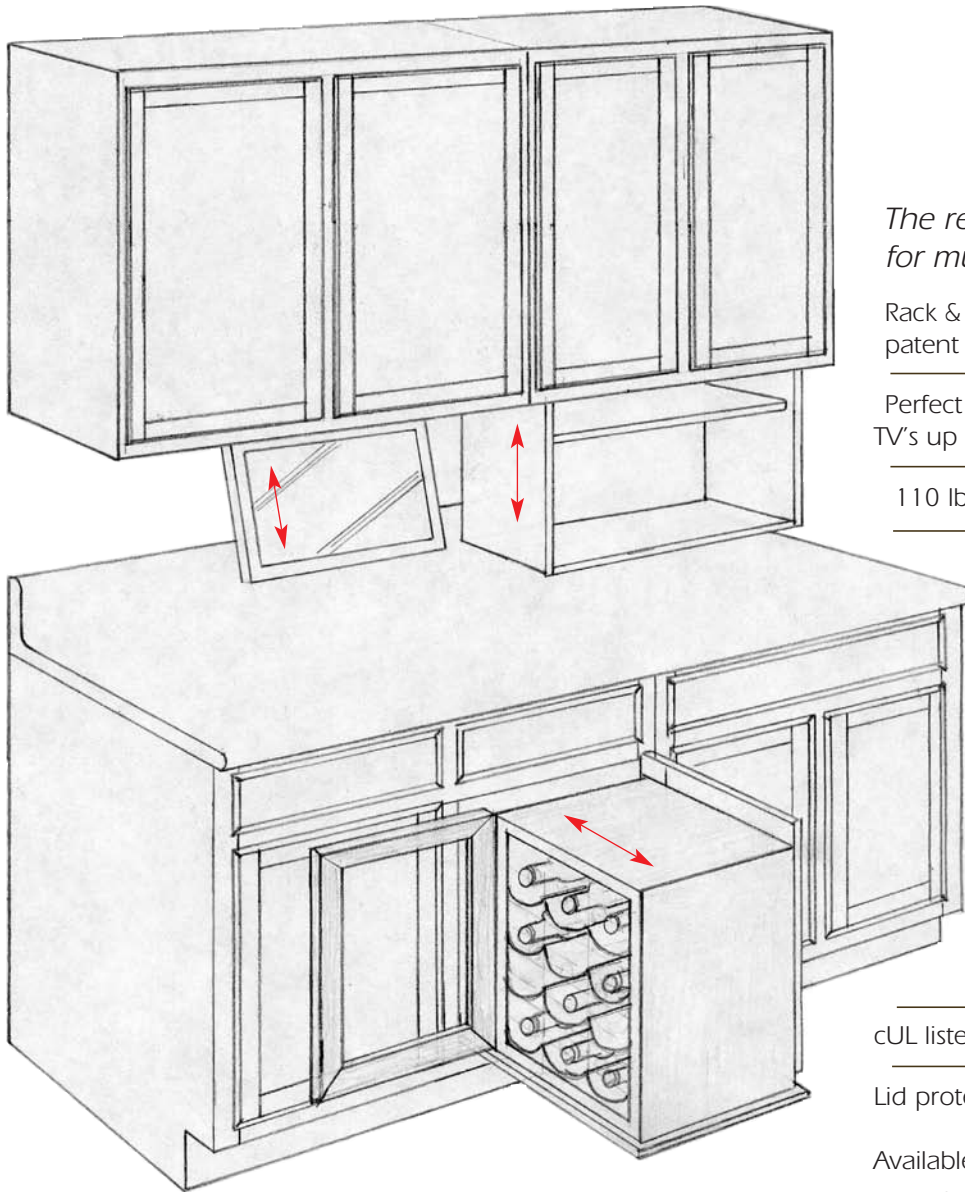

"Lid Lifter"
Lid Lifter easily adjusts up and down to provide a greater degree of flexibility when raising the TV out of the cabinet.

Whisper-Ride was designed and developed by Wood Technology, Inc. and the Danish firm ConSet with these basic principles in mind; Quality, reliability, simplicity, affordability, design and function. With the installer and consumer in mind the unit can be fitted inside a cabinet or against any suitable surface within minutes by simply screwing in the TV lift unit, power supply and RF module. Once you make a few simple connections and position the universal mounting brackets the TV is ready to be secured. Mounting can also be reversed to allow Whisper-Ride to drop down. With Wood Technology's 30 year experience and ConSet's engineering expertise it's a perfect fit for flat screen TV's up to 50 inches. Please note that due to the 29.5" (750mm) stroke some 50" models may not be suitable.

VERSALIFT™

ELECTRIC MOTION MECHANISM

The remote control lift designed for multiple applications:

Rack & pinion design with unique patent pending stability system

Perfect for raising and lowering TV's up to 26", computer monitors etc.

110 lbs. (50kg) weight capacity

18" (457mm) stroke

Simple and fast mounting

Plug and play assembly

VersaLift is delivered complete inside one carton and includes:

FULL MOTION TV LIFT

WITH REMOTE CONTROL SWIVEL

The remote control lift designed to raise, lower and swivel:

Rack and pinion design with unique patent pending stability system

Free standing unit can accommodate most flat screen TV sizes

220 lbs. (100kg) lift capacity

Height range from 26" to 46-1/2" (66-118cm)

Swivels 45 degrees in both directions

Can be supplied complete with base or you can produce your own custom base

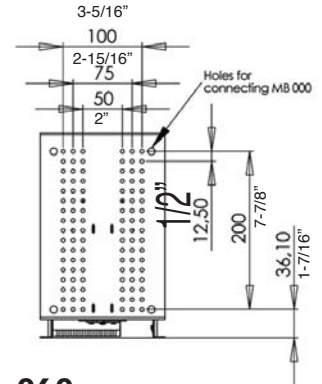

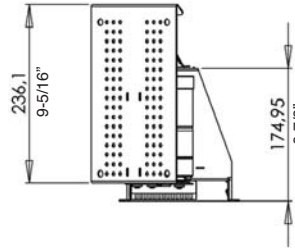

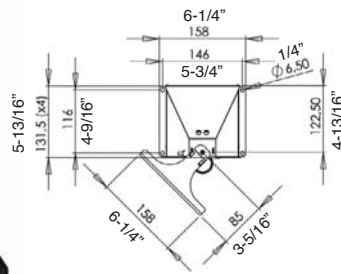

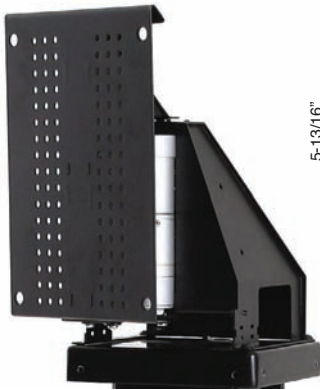

Simple and fast plug and play assembly

ARTICLE# 4070.100.495

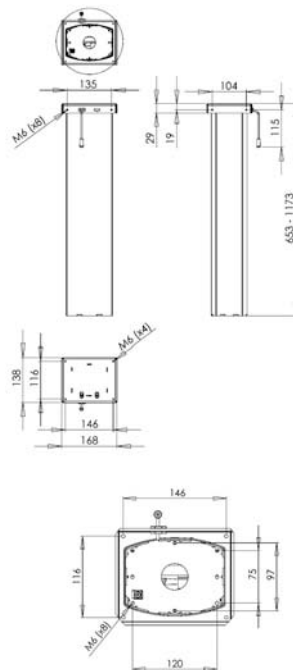

FULL MOTION TV LIFT

WITH REMOTE CONTROL SWIVEL

SWIVEL MECHANISM ARTICLE # 4070.001.060

- You can create your own stand to mount it on or combine it with the height adjustable leg
- Can be used in a down position to hang from a ceiling mount
- Swivels 45 degrees in both directions
- Electric swivel adjusts by remote control or push switch

HEIGHT ADJUSTABLE LEG ARTICLE # 5019.200.495

- Create your own custom base or purchase base as shown (#5019.300.495)
- 220 lbs. weight capacity
- Height range from 26" to 46-1/2"
- Electric height adjusts by remote control or push switch

UNIVERSAL MOUNTING BRACKET ARTICLE # 4050.003.060

- Moveable brackets accommodate most TV's
- Sturdy steel construction can hold up to 200 lbs.

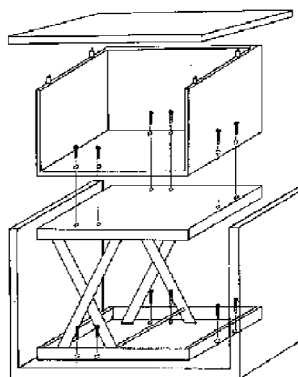

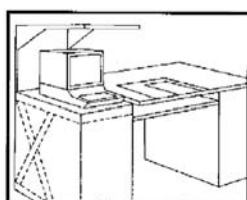

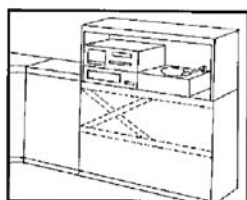

LISTED
Electrical Power Supply

ELECTRONIC ENTERTAINMENT LIFT

- Conceals TV, computer, stereo, etc. within a cabinet
- Excellent for home, office, boat, plane, RV, etc.
- Unit raises and lowers by radio command remote, and also includes a three way push switch
- Supplied with 110V-60Hz grounded transformer
- Low-tension reduction gear motor of 24 V DC with continuous screw and electromechanical stop
- Material: Steel with solid top and bottom

E - OFFICE CABLEFLEX 8000™

OFFICE FURNITURE AND ACCESSORIES

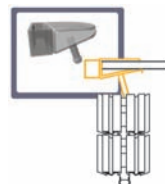

This European designed cabling system integrates great style with incredible functionality. With it's flexible to rigid interlocking units, Cableflex easily adapts to vertical or horizontal mounting environments. Cableflex is capable of shielding up to 12 cables separately within its housing unit. This allows you to add or remove individual cables easily and with each cable separated, the system is compliant with new safety regulations.

Each standard kit (8080.001) includes:

- 15 8080.058 Interlocking units
- 1 8081.001 Desktop attachment
- 1 8082.001 Weighted base foot
- 2 8083.001 Lateral attachment hooks

Other accessories are available as shown. Special combinations, packaging options, and colors are available when 300 or more kits are purchased. The entire range of RAL colors are produced in nylon and transparent colors are made of polycarbonate.

THIN TABLE CLIP #8087.001

- Hooks for tops from 5 mm to 14 mm thick

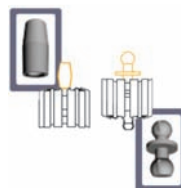

THICK TABLE CLIP #8085.001

- Hooks for tops from 15 mm to 35 mm thick

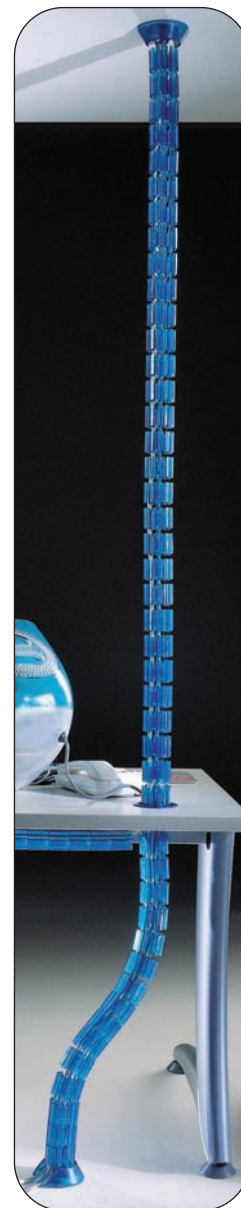

SUPPORTING HOOK #8093.001

- Stabilizes Cableflex in place

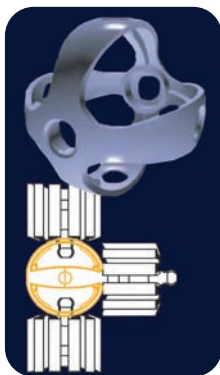

ADAPTERS #8091.001 - MALE #8092.001 - FEMALE

- Connects units together

DESK ATTACHMENT #8081.001

- Connects Cableflex from under a surface

MULTIPLE CONNECTOR #8094.001

- Is capable of connecting Cableflex from multiple directions.

CABLE HOLDER #8088.001

- Stores cable in transition areas.

DESK CONNECTOR #8083.001

- Connects Cableflex to a flat surface

- Packaging: 33 pieces

9601.002.060 BLACK

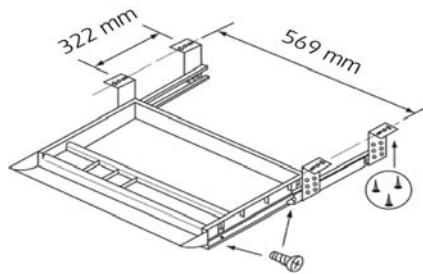

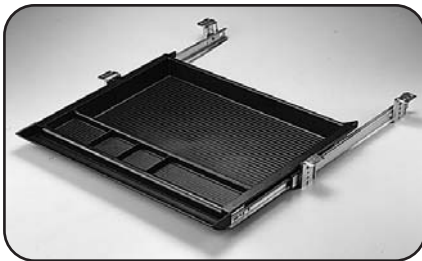

- Slim design is ideal for routing cables through metal surfaces
- 3 piece design allows cap to slide open and closed
- Material: Plastic
- Packaging: 250 pieces

8865.001.060 BLACK

- Unique design provides both office supply and cable management
- Holds memo pads, pens, rulers, clips, scissors, etc.
- Material: Plastic
- Packaging: 100 pieces

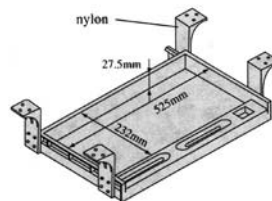

PENCIL TRAYS AND DRAWERS

9300.001.060 BLACK

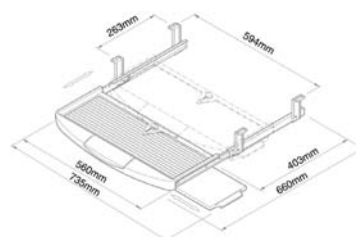

- Steel ball bearing slides with "L" brackets for mounting underneath desk top
- Material: Plastic tray with steel slides
- Packaging: 10 pieces

KEYBOARD DRAWERS & MECHANISMS

PULL-OUT KEYBOARD DRAWER 1329.001.117 CHAMPAGNE

- Includes storage for pens and clips etc.
- Ball bearing slides with positive out-stop
- Durable nylon mounting brackets
- Material: Plastic tray and brackets with steel slides
- Packaging: 1 per box/6 per carton

PULL-OUT KEYBOARD DRAWER WITH MOUSE TRAY 1330.002.060 BLACK

- Retractable mouse tray with right or left hand mounting
- Pencil box with cover
- Steel ball bearing slides
- Material: Plastic tray with steel slides and brackets
- Packaging: 1 per box/10 per carton

KEYBOARD DRAWERS & MECHANISMS

CONTINUED

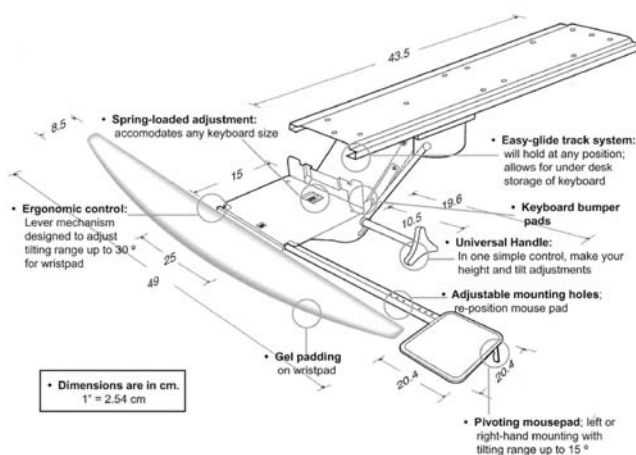

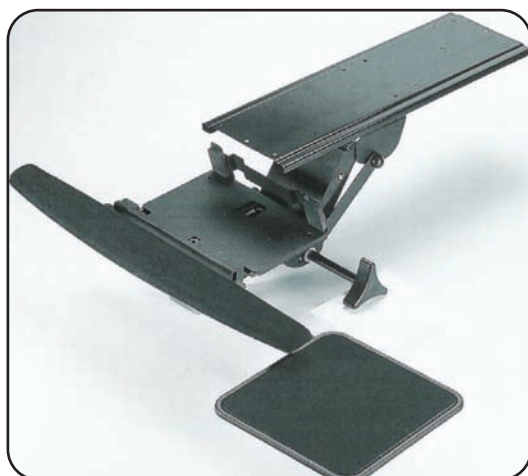

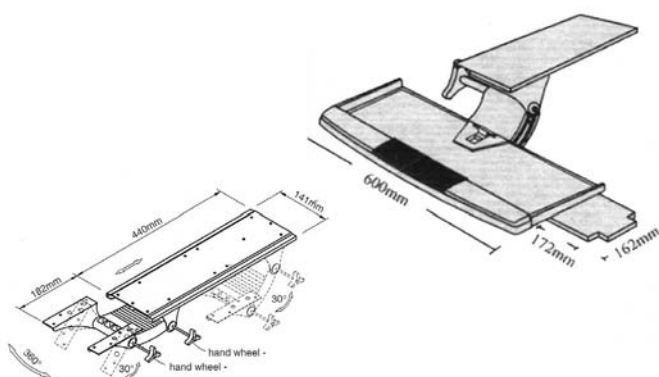

ERGONOMIC KEYBOARD SUPPORT WITH EASY GLIDE TRACK

1340.003.060 BLACK

1340.003.072 GRAY

- Complete ergonomic adjustability achieved with turn handle
- Easy-glide track system holds in any position and has positive out-stop function
- Mechanism offers tilt, swivel and height adjustability
- Retractable mouse tray with right or left hand mounting
- Material: Plastic tray with steel mechanism
- Packaging: 10 sets

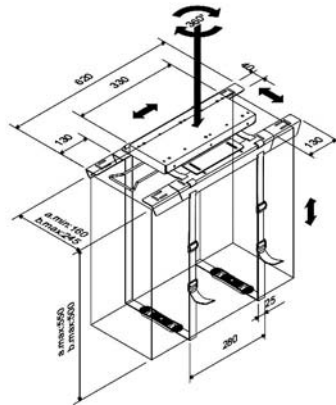

1315.435.060

- Gel pad for wrist comfort
- Ergonomic controls for tilt and height
- Mouse pad swivels for easy concealment
- System slides under desktop for storage
- Black finish
- Packaging: 3 sets

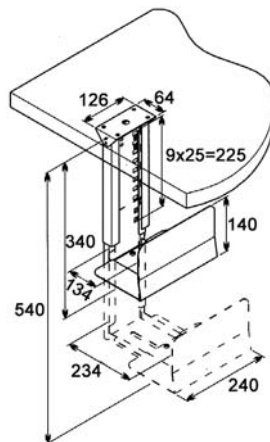

CPU HOLDERS

Computers that are left on the floor are at risk of major damage due to dust and static electricity. CPU holders free up valuable work space and can provide easier access to cable and port connections.

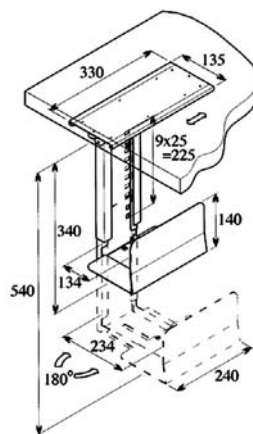

9537.002.060 BLACK

- Unit mounts underneath desk top
- CPU is secured by heavy duty adjustable straps that accommodate varying widths and heights
- Unit extends and rotates 360°
- Material: Steel with nylon straps
- Packaging: 4 sets

9545.001.060 BLACK

- Stationary unit mounts underneath desk top
- Height and width can be easily adjusted
- Material: Steel
- Packaging: 4 sets

9546.002.060 BLACK

- Unit mounts underneath desk top
- 8-3/4" extension with 180° rotation
- Height and width can easily be adjusted
- Material: Steel
- Packaging: 4 sets

HINGES

EVOLVE

PNEUMATIC HANDS-FREE SILENT-CLOSE HINGE

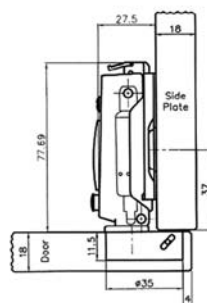

Door Height	Approx. Weight
250cm/100"	15.5-18kg/34-40lbs
190cm/75"	9.5-15kg/21-33lbs
150cm/60"	5.5-9kg/12-20lbs
80cm/31.5"	4.5-5kg/9-11lbs

60cm/24" wide door

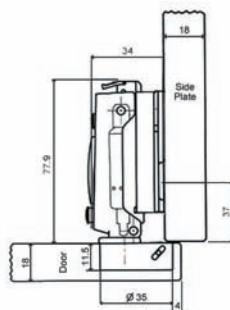

550P.068.044 SCREW-IN 550P.069.044 8MM DOWEL INSERTION

- Pneumatic cylinder provides hands-free closing
- Closes door silently and completely
- Door closing begins automatically at 80°
- Eliminates door slams
- Eliminates the need for bumpers and damper devices
- Maximum opening angle at 110°
- Easy installation with clip-on system
- Six way adjustment

SOFT-TOUCH

HANDS FREE SELF-OPENING HINGE

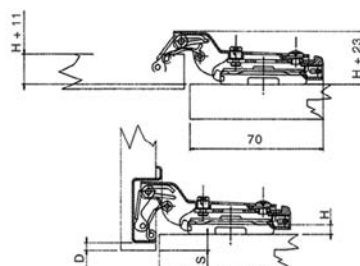

This reverse action hinge allows wood or aluminum frame doors to open hands-free. The door is held in the closed position with a touch latch and when gently pushed, the door releases and slowly open.

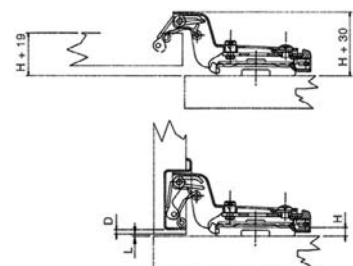

- Available in full overlay, partial overlay and inset applications
- 100° Opening
- Eliminates the need to install knobs or pulls

EUROPEAN CONCEALED HINGES

SINCE 1956 THE ITALIAN FIRM OF DANCO HAS BECOME one of the most respected hinge manufacturers in the industry. Selling to more than 80 countries worldwide, Danco is known for their outstanding commitment to quality, customer service and product development. Their state of the art facility boasts some of the most sophisticated technology available to assure the best quality for every manufacturing process from design to production. Quality is paramount at Danco, and every production batch is tested thoroughly in their in-house test lab. Wood Technology has teamed up with Danco to provide you with technical support, superior customer service and immediate delivery with prices that will increase your profits.

HINGE BORING & INSERTION MACHINES

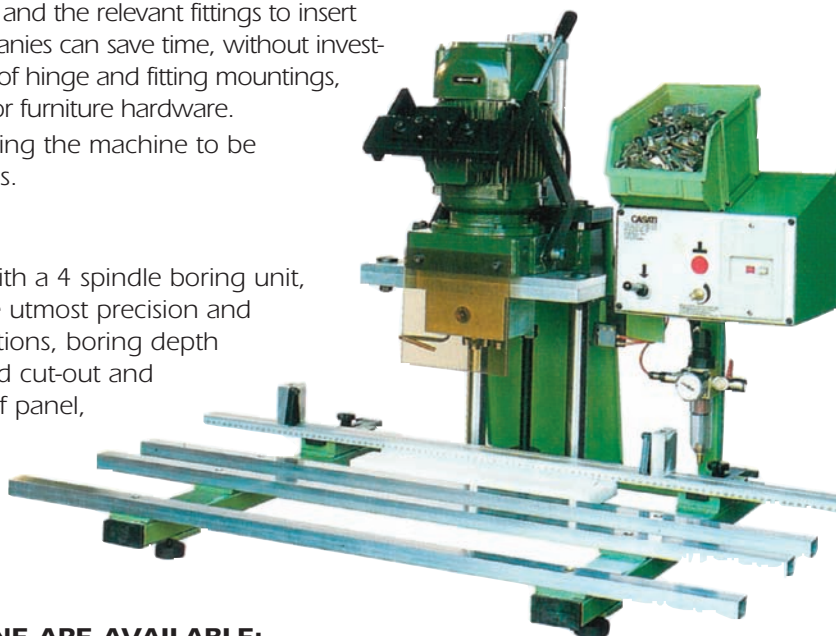

BORING, HINGES AND PLATES INSERTING MACHINE*

Our machine allows you to obtain housing for hinges and the relevant fittings to insert them. Thanks to this versatile device, even small companies can save time, without investing in an expensive machine. This solves the problem of hinge and fitting mountings, in line boring, as well as any other boring operation for furniture hardware.

The boring unit can be quickly replaced, thus allowing the machine to be fitted with different types of hinges in a few seconds.

CHARACTERISTICS

The standard version of this machine is complete with a 4 spindle boring unit, adjustable rear shoulder, pre-set stops, allowing the utmost precision and absolute repeatability in boring and insertion operations, boring depth adjustment device, and electric switch with overload cut-out and hinge box. Low rear shoulder to allow the sliding of panel, even with hinge mounted. Also included is insertion matrix provided with magnets and grub screws to ensure a perfect holding of the hinge. The grub screws allow you to fit the matrix to a large number of different types of hinges.

TWO DIFFERENT VERSIONS OF THE MACHINE ARE AVAILABLE:

▪ HF/BP - bench automatic type

The boring movements and insertion of the hinges and fittings are obtained by means of pneumatic power. This is operated by the controls on the control panel. There is an air jet for removing wood shavings after each boring cycle. The boring speed during operation is adjustable. This type of machine has no working bench.

▪ HF/A - automatic type with work bench

The boring movements and insertion of the hinges and fittings are obtained by means of pneumatic power. This is operated by a foot pedal. There is an air jet for removing wood shavings after each boring cycle. The boring speed is adjustable. This model has the facility for dust extraction.

OPTIONS

- Additional boring heads for different hinge housings
- Pneumatic system for piece clamping
- Working table longer than standard
- Rear millimetric shoulder longer than standard
- Additional stops for rear shoulder
- Boring head with multiple in-line spindles, 32 mm pitch, or arranged according to customer's request
- Additional insertion matrix for hinge or fitting
- Chucks and tools
- Quick-connect drill bits
- Base/cabinet for Mod. HF/BP

DATA TO BE SUPPLIED WITH ORDER

- Voltage
- Type of hinges and fittings the user is going to mount (name of producer; if code is not available, please let us have diameter of hinge box).
- Possible accessories on request described as in the present catalog.

Tools are not included, they must be ordered separately.

TECHNICAL DATA	HF/BP
Motor Power	1.5 HP
Boring unit stroke	100 mm
Max. boring depth	50 mm
Millimetric length of shoulder	1000 mm
Dimensions of working bench	1000 x 500 mm
Max. adjustment between shoulder and hinge-axis	70 mm
Working pressure	6 ÷ 7 bar
Air consumption per cycle	1.5 dm ³
Noise measurement	85.0 db
Net weight	64 kg
Packing dimensions	1130x800x930h mm

*Available by special order.

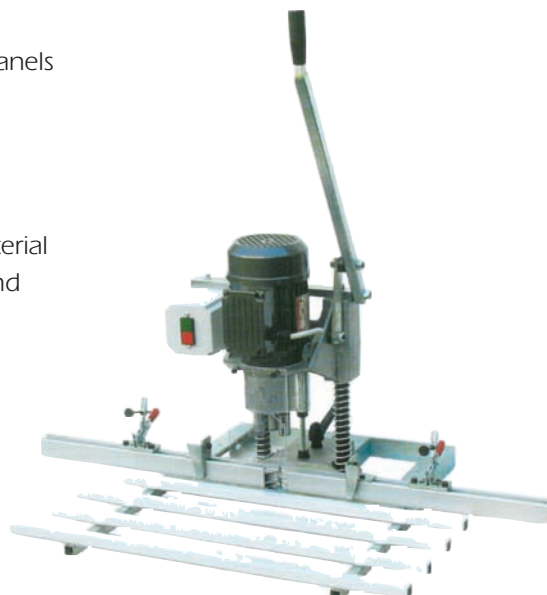

HINGE BORING & INSERTION MACHINES

BORING MACHINE TYPE HF/MINI*

- Boring machine to execute housing for hinges on furniture panels
- 3 spindles boring unit
- Boring unit downward movement driven by manual lever
- Two manual devices for quick panel clamping
- Millimeter rule, 1000 mm long, with two locating stops
- Working table, 720mm long, coated with non-scratching material
- Possibility to adjust the distance between the rear shoulder and the axis of the boring unit
- Adjustment of the boring depth

DATA TO BE SUPPLIED WITH ORDER

- Voltage
- Type of hinge the user is going to mount (name of producer and code, or, if not available, the diameter of the hinge box and the sizes A and B indicated on the picture of the boring unit - below).

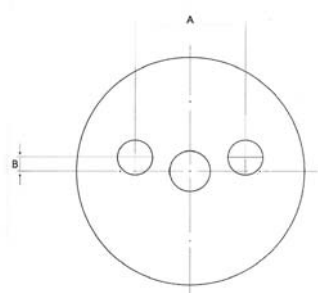

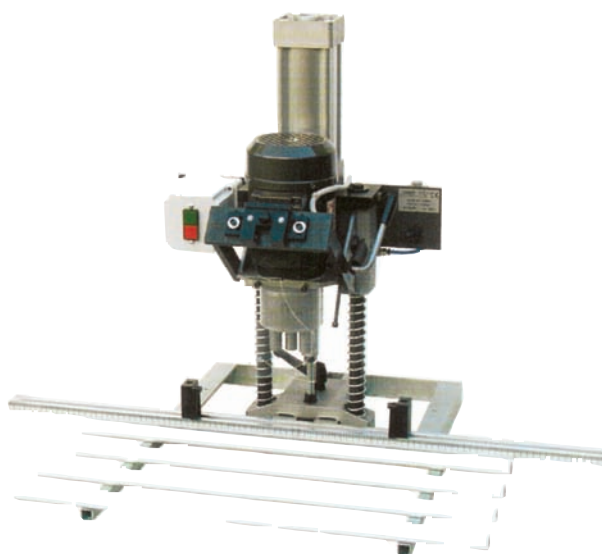

BORING MACHINE TYPE HF/PNEUM*

- Boring machine to execute housing for hinges on furniture panels
- 3 spindles boring unit
- Rotating arm, matrix-holder, for hinge insertion
- Working movements are driven by pneumatic cylinder
- Two manual devices for rapid piece clamping
- Millimetric shoulder, 1000 mm long, with two locating stops
- Working table, 720 mm long, coated with non-scratching material
- Possibility to adjust the distance between the rear shoulder and the axis of the boring unit
- Adjustment of the boring depth
- Hinge-holder matrix, fitted with magnets and grub screws for the perfect alignment of the hinge

INSTITUTIONAL HINGE

High quality design and function provides strength and versatility. Ideal applications include commercial casework in hospitals, offices, schools, military, hospitality furnishings and everywhere a heavy duty wide opening angle hinge is required.

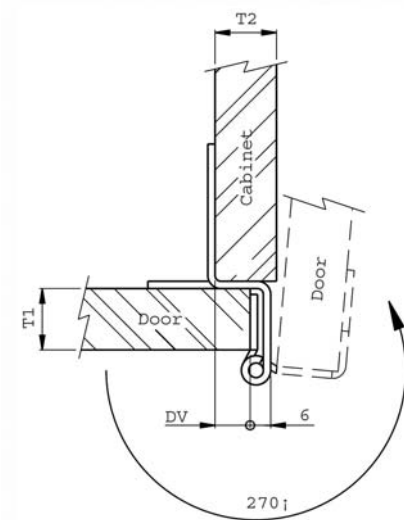

- 270° Door Opening
- 2.5 mm Steel Thickness
- 5 Knuckle Design
- Hospital tips featuring precision milled beveled barrel tips
- Smooth and Silent Pivot Action
- Meets Strict Government Standards
- Material: Steel
- Packaging: 60 pieces

- Material: Steel
- Packaging: 400 pieces

Leveler is sold separately.
Item # 4060 is the bracket only.

4060.001.098 ZINC

- U-Bracket
- For use with 4062, 4064, and 4066
- Material: Steel
- Packaging: 300 pieces

OTHER AVAILABLE STYLES

*Please contact us for detailed specifications on other levelers available by special order. Minimum quantities apply.

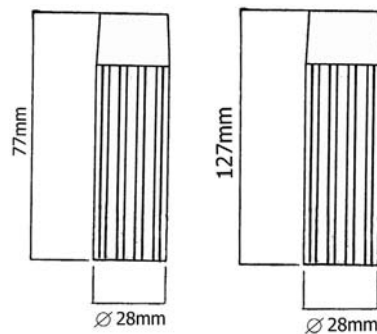

KITCHEN CABINET LEVELING LEGS

- Cabinet cost reduction due to less material usage
- Less expensive to ship since more cabinets fit on truck
- Can be moved easily with less chance of damage
- Installation is sure and quick
- Leg levelers provide access for electrical and plumbing installations, also great for cleaning
- Reduce the threat of water damage to cabinets from flooding

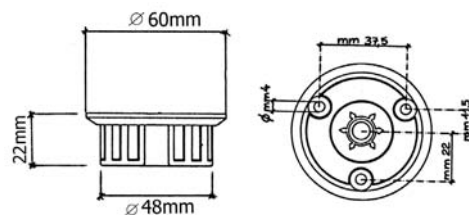

OTHER AVAILABLE STYLES

*Please contact us for detailed specifications on other levelers available by special order. Minimum quantities apply.
