

### Deadlocks/Cabinet Locks

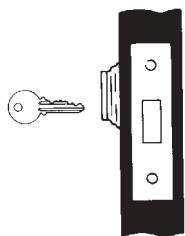

#### 300 Series Deadlock

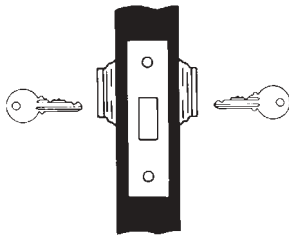

30S Standard Strike

##### Features

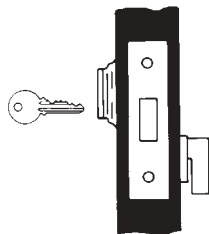

- Mortise installation. For 1-3/8" or 1-3/4" doors, unless otherwise specified, 3" maximum for thumbturn lock functions; 2-3/4" backset.
- Hand—Universal; adjustable lock front to accommodate beveled or flat edged doors.
- Deadbolt—1" throw, 1-1/4" high x 1/2" thick. Rotating pins make sawing through bolt virtually impossible. Resists end pressure when thrown.
- Case—Heavy wrought steel, zinc plated and dichromated.
- Available standard in Yale PARA keyway or in any G, S or T keyways from stock. Other keyways are available.
- Finishes—US3, US4, **US10**, US10B, US26, **US26D**.

314—Deadbolt by key outside.

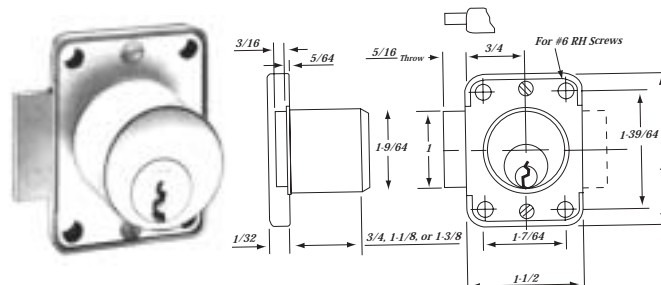

314-1/4—Deadbolt by key inside and outside.

315—Deadbolt by key outside. Inside thumbturn.

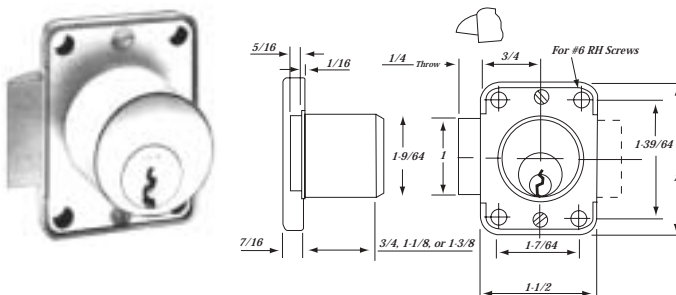

#### 511 Cabinet Lock - Deadbolt
