

350 Pacific - Sydney Coordinator - Volunteer Role

About 350.org

350.org is an international movement dedicated to solving the climate crisis. We mobilise hundreds of thousands of people around the world to reduce greenhouse emissions and rapidly move to clean energy. Our online campaigns, grassroots activities and mass public actions are led from the bottom up by volunteers in over 188 countries. Reducing atmospheric carbon to the safe level of 350 ppm will require a massive reduction in emissions, the majority of which come from burning fossil fuels such as coal and gas. The 350.org mission is to keep our coal and gas in the ground, achieve a safe level of CO₂ in our atmosphere and build a people-powered movement for a clean energy future. We achieve this through fossil fuel divestment campaigning and halting key fossil fuel expansion projects. For more information www.350.org.

About 350 Pacific - Sydney

350 Pacific - Sydney is working locally to engage Pacific Island communities in Sydney around the issue of climate change, providing opportunities for education, action and solidarity with Pacific Island communities experiencing the impacts of climate change. 350 Pacific works in partnership with the wider [350.org](http://www.350.org) Australia movement, and there will be opportunities to share resources, events and projects.

In 2015 we are looking to expand our base and grow our work even stronger by continuing the work of our Pacific Climate Warriors and supporting the Pacific Island nations in the fight against the Fossil Fuel Industry.

About this Role
