Re: Recycling Certificate

The pipe products manufactured by Beck Manufacturing, a division of Anvil International LLC, are produced from approximately 25%-85% recycled steel. The amount can vary, depending on the steel vendor.

Of the 25% - 85% recycled steel, approximately 30% is post - industrial and 70% is post - consumer, depending on fluctuating scrap prices.

The American Iron and Steel Institute (AISI) web site states: "Steel's recycling rate of 66% is far higher than that of any other material, capturing twice as much tonnage as all other materials combined"

If I can be of any other assistance, please do not hesitate to contact me.

Sincerely,

Chris Hohl
General Manager
