

MISSION

The Center for Program Research & Evaluation (CPRE) @ EdAdvance provides expert assessment, research and evaluation services to educational, non-profit, health and human services organizations.

Our services are designed to improve and support organizational capacity to effectively use evaluation processes for continuous program improvement.

We work closely with each client to develop a scope of work ranging from evaluation of curriculum alignment to survey design and administration to comprehensive quantitative and qualitative research and evaluation of project outcomes.

Our collaborative, multi-dimensional services are specifically tailored to meet or exceed client goals within time and budget targets.

We are extremely lucky to have CPRE as a part of our team and look forward to continuing to work with them in the future.

With the Center for Program Research & Evaluation we have evolved from an evaluator/client relationship to a partnership. We have grown to trust Kevin's instincts and experience in the field of education evaluation. He has been key in navigating our complicated projects with a variety of funders.

We are extremely lucky to have CPRE as a part of our team and look forward to continuing to work with them in the future.

CPRE

The Center for Program Research & Evaluation

SERVICES

The Center for Program Research & Evaluation (CPRE) @ EdAdvance provides exceptional assessment, research, and evaluation services for educational, health, and human services agencies and non-profit organizations.

We believe that evaluation is an educational and collaborative process that should be both customized and meaningful to organizations and their stakeholders. Ultimately, our goal is to support the ability of each organization to understand and improve the impact of its programs and services.

CPRE's comprehensive assessment, research, and evaluation services include:

- Evaluation of K-12 and post-secondary STEM, English language arts, and health educational programs
- Development of comprehensive, user-friendly evaluation plans
- Support for data teams at instructional, school, and district levels
- Quantitative research using QED, mixed-methods, and RCT methodologies
- Qualitative research including survey and focus group design, key informant interviews, and classroom observations
- Creation, scoring, and analysis of student assessments linked to state and national standards
- Community and school health assessments

- Evaluation of curriculum alignment with 21st century skills across content areas
- Evaluation of curriculum alignment with CCSS and NGSS standards
- Organizational support in setting goals, prioritizing tasks, and providing realistic, actionable, and smart solutions that lead to effective decision-making and planning

Our specialized services are designed to improve and support organizational capacity to effectively use research, assessment, and evaluation processes for continuous program improvement resulting in enhanced outcomes.

TEAM

CPRE staff and consultants include doctoral and masters-prepared education professionals. We have high level experience in educational and non-profit research and evaluation, curriculum review and alignment, teacher evaluation, creation and implementation of validated student and program level assessments, and community and school health assessments.

Our expertise has been cultivated through our work with national education and human service agencies, giving us unparalleled ability to ensure that all evaluations conducted meet rigorous state and national standards.

Our experience includes evaluation projects funded by the CT Department of Education, the National Science Foundation, the U.S. Department of Education, the Centers for Disease Control and Prevention, the U.S. Department of Agriculture, and the U.S. Environmental Protection Agency as well as many universities.

Initial consultations are provided at no cost. Subsequent to an initial consultation, a proposal is developed based upon the desired scope of work.

We welcome the opportunity to meet and discuss your organization's needs.
