

**Vacancies filled by Persons with Disabilities in 2016**

Enable India generated 830 vacancies in companies across different sectors in the last year (2016). Out of these 830 vacancies, 497 vacancies have been filled by persons with disabilities, whose disability, skills, and attitude matched the jobs available.

The number of vacancies filled depends on a number of things, including:

- Nature of disability
- Availability of jobs in the sector
- Requirements of the company
- Skills and attitude of the person
- Nature of the job
- Company environment

All these factors play a big role in determining what kind of job a person can get, and how long they will have to wait to get a job that matches their requirements and goals.

Here, you can see the different job roles persons with disability have been employed in, in 2015 & 2016. This will give you a better idea about the job market for persons with disabilities.
