The future of Israel and the Jewish people is of vital importance to all of us. But the discussion about what's best for Israel sometimes leaves many of us feeling that our voices are not heard and that we no longer see our values reflected in the debate on Israel.

Now is the time to stand up and fight for the future of Israel and the two-state solution.

Since its founding seven years ago, J Street has fought for US leadership to achieve a two-state solution and for a more open dialogue on Israel in America. It has been one of the most controversial and also fastest-growing organizations in the American Jewish community. Join us on August 2nd to get the story straight from J Street's Founder and President, Jeremy Ben-Ami.

Come to listen and learn. Come to question and doubt. Come to ignite a conversation! That's what Judaism does best, it asks us to question. Come find out why over 850 American rabbis have joined J Street. Come find out why Vice President Biden vigorously thanked J Street U's college students for continuing to "infuse new blood, from generation to generation into this cause" when he gave the keynote speech at J Street's National Conference.

Come and hear what this pro-Israel, pro-peace movement stands for.
