

How to Assemble the Trapeze Table (Cadillac)

THIS IS A MEDICAL DEVICE

Not Shown: Velcro Ankle Cuffs, Velcro Thigh Cuff, Roll Down Bar, Vinyl Flap

EMERGO EUROPE
Prinsessegracht 20
2514 AP The Hague
The Netherlands

STATEMENT OF INTENDED USE: The Trapeze Table device is intended by the manufacturer to be used by people for the purposes of physiotherapy, rehabilitation, the prevention, treatment and relief of injuries, supportive, functional therapy for a disability or for general strengthening and improving the mobility of the human body. Should injury occur during usage please report to the manufacturer and competent authority of the Member State in which the user and/or patient is established.

DÉCLARATION SPÉCIFIANT L'USAGE PRÉVU: L'appareil The Trapeze Table a été conçu pour être utilisé à des fins de physiothérapie, de réhabilitation, de prévention, de traitement et de soulagement des blessures, de thérapie fonctionnelle et de soutien dans le cadre d'un handicap, ou de renforcement global et d'amélioration de la mobilité du corps humain. Si une blessure se produit au cours de l'utilisation, signaler au fabricant et à l'autorité compétente de l'État membre dans lequel l'utilisateur et / ou le patient est établi.

DICHIARAZIONE DI DESTINAZIONE D'USO: Il dispositivo The Trapeze Table è destinato dal produttore a essere utilizzato dalle persone per scopi di fisioterapia, di riabilitazione, di prevenzione, trattamento e sollievo da infortuni, di terapia di sostegno e funzionale per una disabilità o di rinforzo e miglioramento generali della mobilità del corpo umano. In caso di infortuni durante l'utilizzo, Rapporto al produttore e all'autorità competente dello Stato membro in cui è stabilito l'utilizzatore e / o il paziente.

DECLARACIÓN DE USO PREVISTO: El dispositivo The Trapeze Table está diseñado con fines de fisioterapia, rehabilitación, prevención, tratamiento y alivio de lesiones, terapia de apoyo y funcional para una discapacidad o para el fortalecimiento general y la mejora de la movilidad del cuerpo humano. En caso de que se produzcan lesiones durante su uso, Reporte al fabricante y a la autoridad competente del Estado miembro en el que está establecido el usuario y / o paciente.

ANGABE DER BESTIMMUNGSGEMÄSSEN VERWENDUNG: Das Gerät The Trapeze Table wurde vom Hersteller für die Verwendung durch Personen zu Zwecken der Physiotherapie, der Rehabilitation, der Vorbeugung, Behandlung und Linderung von Verletzungen, der unterstützenden, funktionellen Therapie bei einer Behinderung oder zur allgemeinen Stärkung und Verbesserung der Mobilität des menschlichen Körpers vorgesehen. Sollten bei der Anwendung Verletzungen auftreten, bericht und der zuständigen Behörde des Mitgliedstaats gemeldet, in dem der Benutzer und / oder Patient ansässig ist.

REDOGÖRELSE FÖR AVSEDD ANVÄNDNING: The Trapeze Table Denna är av tillverkaren avsedd för att användas av personer i syften för fysioterapi, rehabilitering, förebyggandet, behandlingen och lindringen av skador, stödjande funktionell terapi för ett funktionshinder eller för allmänt stärkande och förbättring av rörligheten i människokroppen. rapportera till tillverkaren och behörig myndighet i den medlemsstat där användaren och / eller patienten är etablerad

PARTS LIST (INCLUDED):

DESCRIPTION	PART NUMBER	QTY.
Ankle Velcro (pair)	101-001	1
Cotton Loop (pair)	101-005	1
Long Web (pair)	101-026	1
Thigh Velcro (pair)	101-020	1
Wool Fuzzy (pair)	101-022	1
Roll down bar	710-010	1
Belly Strap	210-034	1
Red Trapeze Spring	SPR9001	2
Yellow Trapeze Spring	SPR9002	2
Blue Trapeze Spring	SPR9004	2
Long Yellow Trapeze Spring	SPR9006	2
Long Purple Trapeze Spring	SPR9461	2
Black Trapeze Spring (attached to trapeze bar)	SPR9005	2
Safety Strap	210-058	1
Trapeze Bar w/Springs and Sling	950-059	1
Vertical Slider	TRP6002	1
Horizontal Slider	TRP6003	1
1/8" Cotter Pin	216-000	4
3/16" Allen Wrench	GEN9280	1
Push Through Bar for Slider Assembly	707-287	1
Push Through Bar Slider Assembly	N/A	2
Push Through Bar Slider Shoulder Bolt	619-202	2
Push Through Bar Slider 4th Side	TRP0108	1
Button Head Screw with Pin End	619-200	2
21mm x 1/2" wrench	ALL0060	1
7/32" Allen wrench	TOL1358	1

ASSEMBLE THE TRAPEZE CANOPY

1. Using the provided 3/16" allen wrench, loosen the set screws in each of the eight flange connectors mounted to the outside of the frame. Remove the two vertical tubes from the box and the sliding push thru bar system. Lay the tubes down so the holes on the sides of the tubes face away from each other. Take the sliders of the Push Through Bar (PTB) and slide them over the tubes opposite the end with the eye bolts, you will need to pull the knobs of the sliders out to move the sliders up the tubes. Continue to move the sliders up the tubes until the pins lock into the bottom set of the three holes in the tube. Make sure both sliders are locked into the same bottom holes. Insert the provided cotter pins into each of the 1/8" holes near the bottom ends of the tube. Pick up this assembled tube set, be careful of the PTB, it may swing; place the assembly in the flanges on the head end of the machine (the end with the vinyl flaps). Be careful of the cotter pins so they do not scratch the vinyl or wooden frame. The cotter pins will automatically set the tubing height.

Insert the provided cotter pins into each of the 1/8" holes near the bottom ends of the other two vertical tubes. Pick up the tube assembly with the vertical slider and place the tube ends into the flanges on the foot end of the frame.

2. Now set the canopy top onto the four vertical tubes. You will need help with this. The end of the canopy frame with the black safety strap goes over the push-through bar. Be certain all four corner fittings fit securely over the tubes.
3. Using the 3/16" allen wrench, tighten the set screws in the corner fittings and in the flanges around the frame. After tightening all set screws in all the corner angles, test the movement of the sliding push thru bar. To do this pull the knobs of the sliders out and start sliding the PTB up or down. This system should move easily and not stick when uniform pressure is applied on each side. If the sliders stick when moving the position, simply loosen the set screws that are holding the vertical poles, rotate the tubes as necessary until the sliders move freely. Be sure to re-tighten all set screws. Remove the cotter pins from the tubes and save for future use.

INSTALLING/REMOVING THE PUSH THROUGH BAR (PTB) 4TH SIDE

Using the provided 7/32" allen wrench and button head screws with pin ends, move the PTB to a 45 degree position. Line up the 4th side opening with the threaded holes in the PTB. Thread in one screw into the side of the PTB, the pin end of the screw will go inside the 4th side. Repeat for the other side. Tighten both screws with the allen wrench. Reverse these instructions to remove the 4th side. Keep these button head screws if needed later.

HOW TO ADJUST YOUR SLIDING PUSH THROUGH BAR

Position your hands on the outside of each slider. Place your middle and/or ring fingers under the silver base of the knob; right where the black body of the knob threads into. Place your index finger and thumb around the knob itself. Pull each of the knobs outwards, away from the vertical tubes, until they stop. Using the same force on each arm, move the slider upwards or downwards to each new location. Once you near a new location slightly release the outward pull of the knobs. The pins will automatically fall into the next position when aligned.

WEEKLY MAINTENANCE

Inspect springs for separations, and replace if needed. Inspect snaps on springs and make sure the retractors operate smoothly. Replace them if worn or do not operate freely. Make sure that there are no indentations on the inside of the hooks.

Inspect all nuts, eyebolts and setscrews for tightness. Tighten or replace if necessary.

It is recommended to check to ensure the pins in the plunger knobs protrude and lock into the vertical tubes. First pull both knobs out and start moving the sliders to a different position. Release the knobs before the next hole and continue to slide the system. Once over a hole the pin of the knob will drop into the opening. Once each slider is in a new position apply a down force on the PTB directly downwards. The pins of the sliders should not come out of the holes. If the pins do not stay in the tube holes, the pull knobs need to be replaced; call Balanced Body for replacement parts.

ASSEMBLY PODCAST

You can also see the Trapeze Table assembly podcast located on the Instructions & Safety page of our Web site, pilates.com.

ADDITIONAL SAFETY AND USAGE

For additional usage and safety information or to view complete equipment manual translations (**USER GUIDE #15454**), please visit <https://www.pilates.com/store/faq-safety/>. For printed instructions, contact your seller.
