

How to Install the Balanced Body® Grid Wall™

⚠ PLEASE READ THESE INSTRUCTIONS COMPLETELY PRIOR TO ASSEMBLING THE GRID WALL.

Important Mounting Note: The Balanced Body Grid Wall was designed to mount to walls with 24" (61cm) wood studs. If you are planning to mount this to walls with different spaced studs (or any other type of construction), it is highly recommended that you have a qualified installer assist you. Balanced Body is not responsible for damages caused by incorrect installation.

PART LIST:

Use the list below to confirm all parts necessary for installation. If you are missing a part, please contact our customer service department at 1-800-PILATES (U.S.) or +1-916-388-2838 (Int'l).

ITEM NUMBER:	PART NUMBER:	DESCRIPTION:	QTY:
1	620-045	Chrome panel	1
2	607-231	Wooden frame	1
3	616-123	Frame Bracket A (left)	2
4	616-124	Frame Bracket B (right)	2
5	GEN9889	Button HD Screw	8
6	GEN9206	Flat washers	8
7	GEN9187	Propeller nuts (pre-installed)	8
8	GEN9282	Allen wrench/key	1
9	GEN9395	Pan head screws	4
10	620-046	S-Hooks	10

Figure A shows proper orientation for Grid Wall assembly. Align the frame brackets with the pre-drilled holes on the wood frame. Please make sure all the frame bracket hooks are facing upward, as the grid panel will hang on the bracket hooks. Insert the Button HD Screw and washers into the frame brackets. Tighten screws with provided Allen wrench.

QUESTIONS?

Please call Balanced Body Technical Support at 1-800-PILATES (U.S.) or +1-916-388-2838 (International)

If you have a different type of wall construction, installation will require specific equipment and fasteners. Alternative wall mounting instructions are not included. It is recommended that the Grid Wall be mounted by someone with knowledge of wall hanging installation.
