BALANCED BODY PRODUCT ANNOUNCEMENT, March 2018

NEW! Standing Platform Pads

For comfort on you Reformer's built-in standing platform

Our new pads are custom-sized to completely cover the built-in standing platform for most Balanced Body Reformers.

These pads provide an improved, easy-to-use alternative to folded towels. You will also appreciate having fewer towels to wash!

- Perfect for cushioning hands, forearms, knees and sensitive feet.
- Elevates surface of the built-in standing platform to match the height of the Reformer carriage.
- Pad surface securely grips the standing platform for safety.

We love getting product suggestions like this from our customers, and creating new products that improve functionality and comfort. Thank you – we are listening!

Platform Pad on Allegro® Reformer. Also works on Allegro Stretch, Studio Reformer®, Clinical Reformer® and IQ® Reformer
