Application Selection Guide
RedLINK™ Wireless Systems

It’s no doubt that you’re looking for ways to make more money for your business. Whether that’s lowering labor costs or selling more content per home — or both — Honeywell Wireless and Prestige™ Comfort Systems are the answer. From the versatility of the Wireless FocusPRO® thermostat to profitable add-ons like the Portable Comfort Control, you’ll gain sales opportunities while virtually eliminating installation risk. Our full suite of RedLINK™-enabled wireless system kits and accessories make it easy to meet homeowners comfort needs — solving everyday problems and offering them more comfort solutions and wireless ways to control their equipment from anywhere in the home.

This complete lineup of wireless-enabled systems and components make it easy to solve what-used-to-be problems and meet your customers’ comfort needs, with everything that you need to easily:

- Relocate a Thermostat
- Upgrade to Multi-Stage Equipment
- Add Cooling
- Display Outdoor Temperature and Humidity
- Offer Temperature Control On-Demand
- Easily Zone a Home Without Running Thermostat Wires
- Control All Zones From a Single Control
- Wirelessly Control Humidity
Exclusive Honeywell Technology Makes It Possible

INTRODUCING REDLINK™
With wireless security systems installed in more than 100 million homes protecting people and property around the clock, Honeywell is a leader in wireless technology. Now Honeywell brings you RedLINK™—the first wireless technology engineered specifically for HVAC applications.

REALIZE THE POSSIBILITIES
RedLINK Wireless Technology eliminates the need to run wires in many applications and enables homeowners to have advanced comfort control anywhere in the home.

WORKS EVERY TIME
The RedLINK signal has been tested and proven to work through concrete, brick and other building materials in homes up to 6,500 square feet with multiple levels. It works every time in every home.

ZERO INTERFERENCE
RedLINK’s ability to “hop frequencies” means that the signal is secure. It won’t affect or be effected by other wireless devices in the home such as baby monitors and cordless phones — or with neighboring systems.

TRUST
Backed by proven Honeywell technology, internal safeguards continuously self-check the signal — so it’s never lost.

RedLINK is Reliability.
Prestige™ Comfort Systems

ELEGANT SIMPLICITY

For the industry’s best contractors that want to set themselves apart, there's Prestige™ Comfort Systems. Prestige is the world’s first high-definition, full-color thermostat that redefines how a thermostat can look and what a thermostat can do. There’s simply nothing else like it.

The Cool Factor

LIKE NOTHING YOU’VE EVER SEEN

- Simple Touchscreen Technology — no hidden doors or complex buttons
- High-Definition, Color Display* — visual clarity of the display is 3 times better than typical thermostats
- Graphics — uses a graphical user interface to display information in a way that’s easy to understand
- User Friendly — consumers rated up to 10 times easier to use** than other thermostats
- Tri-Lingual — English, Spanish and French installation and display options
- Temperature Control On-Demand — sense and remotely adjust temperature from anywhere in the home
- Added Information — outdoor temperature and humidity displayed on screen

*Available in HD-High Definition (color) or SD-Standard Definition (black/white).
**Source: Prestige Focus Group Study, August 2006, Worrell Research

The Brains

MORE THAN JUST A PRETTY FACE

While Prestige thermostats are wired, they are enabled with RedLINK™ Wireless Technology inside — you can offer endless possibilities for controlling and monitoring comfort with Honeywell system enhancements like the Portable Comfort Control, Wireless Outdoor Sensor and TrueSTEAM™ Humidification System.
The Simplicity
INSTILLS IN MINUTES, PROGRAMS ITSELF

Prestige's patented, interview-based setup screens use natural language to ask questions like “How many stages of heating are you running?” to guide installers through setup with no need for an installation manual. The same interview process is used for homeowner setup. After answering the questions, it programs itself — so they don’t have to.

And if you do have a question, simply press the HELP button. The on-board manual gives definitions and directions for every screen.

The Convenience
DOWNLOAD AND GO

After installing Prestige for a specific type of equipment, simply download the settings to a standard USB drive and transfer them to all future jobs where you use Prestige with the same type of equipment. It’s that easy. The same USB drive can be used to upload your full-color business logo on the screen for customization of service reminders, giving homeowners on-screen access to you.

WIRELESS HUMIDITY CONTROL

Increase homeowner satisfaction with Prestige by controlling both temperature and humidity with one control to reduce wall clutter. And because it communicates wirelessly to TrueSTEAM™ humidifiers, you’ll have faster installation without pulling new wires to the thermostat.
Prestige™ Comfort Systems Applications

With the perfect combination of engineering, high-resolution graphics and simple setup, Prestige redefines what a thermostat can do.

Wireless FocusPRO® Systems

The Problem Solver

Thanks to RedLINK™, the world’s best-selling thermostat — Honeywell’s FocusPRO — is now also wireless so it can go anywhere and solve any problem. Since there’s no need to run new wires, there’s no longer risk in bidding jobs. It all adds up to more jobs done more quickly, which adds up to more profits for you.

RELOCATE A THERMOSTAT

In most homes, thermostats are located in areas where people don’t spend the majority of their time. Now, with Wireless FocusPRO® — you can install the thermostat anywhere.

UPGRADE TO MULTI-STAGE EQUIPMENT OR ADD COOLING

Put an end to pulling and snaking wires. Because all the wiring with our Wireless FocusPRO is done at an Equipment Interface Module by the equipment, adding multi-stage systems or cooling is a breeze.

DISPLAY OUTDOOR TEMPERATURE AND HUMIDITY

It’s often not feasible to run new wires outdoors. Our RedLINK-enabled Wireless Outdoor Sensor is the perfect solution — and displays outdoor temperature and humidity on Wireless FocusPRO thermostats.

TEMPERATURE CONTROL ON DEMAND

Part of the Wireless FocusPRO system is the Portable Comfort Control. It senses temperature wherever it goes giving homeowners the freedom to make adjustments from any place in the home. Plus — with the added information of outdoor temperature and humidity on the Portable Comfort Control — your customers can make informed decisions on saving energy. If it’s cooler outside than inside, homeowners can turn their system off to save energy.
Wireless Zoning Systems

The Game Changer

The RedLINK story gets even sweeter when it comes to zoning. When used with our RedLINK-enabled TrueZONE® panels, our Wireless Adapter allows you to easily — and wirelessly — add zoning to a home or add more zones to an existing system. Most zoning jobs can be done in one day and bidding risk is virtually eliminated.

ADD A ZONE — ONE WIRED, ONE WIRELESS

Every home has one room or area that is too hot or cold. Solve that problem today with a RedLINK-enabled TrueZONE panel and Wireless Adapter Kit. TrueZONE panels support both wired and wireless thermostats — the choice is yours. Go one wired and one wireless or upgrade all to the Wireless FocusPRO.

FOUR ZONES MADE EFFORTLESS AND WIRELESS

When homeowners want zoning, they typically identify more than two zones. With a TrueZONE HZ432 panel and the Wireless Adapter Kit, add up to four zones (per panel) without running thermostat wires.

ONE CONTROL FOR EVERY ZONE

Add the Portable Comfort Control to give homeowners the control to change the temperature in any zone from anywhere in the house. For example, watch TV downstairs, but warm the upstairs bedroom before going to bed. Name each zone on the Portable Comfort Control with one of 60+ options — upstairs, master bedroom, office — even wine cellar and home theatre.

Homeowners can toggle between zones and adjust the temperature from anywhere in the home.
Wireless FocusPRO® Systems Application

Wireless FocusPRO thermostats are the same FocusPROs you already know and love — now wireless — and now able to communicate with other RedLINK™-enabled devices for a complete system approach that installs in the same amount of time.

Wireless TrueSTEAM™ Humidification

The Ultimate In Humidification Comfort & Control

Through the power of RedLINK, select models of TrueSTEAM Humidifiers are now wireless-enabled. The new models feature all the advantages of TrueSTEAM operation including 1:1 Humidification Delivery Rate, up to 90% less water waste, and remote installation flexibility - plus the benefits of wireless installation and advanced humidity control.

Plug & Play

Finally – universal installation regardless of equipment brand or type. Because TrueSTEAM is now wireless, there’s no need to decipher complex wiring from the humidifier to the furnace board. Simply wire TrueSTEAM to the Wireless Adapter and press ‘Connect’. The adapter then communicates wirelessly with Prestige to control humidity, fan airflow and temperature.

Wireless TrueSTEAM™ Humidification System

The Ultimate In Humidification Comfort & Control

Homeowner Friendly

Prestige eliminates wall clutter by controlling both temperature and humidity. Homeowners will appreciate having only one control on their wall just as much as they’ll like using the sliding humidity scale on the Prestige Comfort System.

The sliding scale shows both actual and desired humidity on the same screen and relates Relative Humidity (RH) % into a comfort range so that homeowners easily understand how to control humidity in their home.

- Terminals
- Relocate Thermostat Without Running New Wires
- Upgrade to Multi-stage or Add Cooling Without Running New Thermostat Wires
- Add to a TrueZONE® System Without Running New Thermostat Wires
- Displays Outdoor Temperature and Humidity
- Controls Humidification
- Controls Dehumidification
- Temperature Control on Demand
- Adjust RedLINK-Enabled Thermostats from a Single Control
- Program Options
- ENERGY STAR®
- Temporary Override
- Permanent Hold
- Vacation Hold
- Touchscreen
- Soft Keys
- Stages
- Gas, Oil or Electric
- Hardwired
- 8 Stages

---

**Display Size (Viewable sq. in.):**
- High Definition (HD) Color Display
- Standard Definition (SD) Display

---

**On-Demand Backlighting:**
- Continuous Backlighting
- Simultaneous Display of Room and Set Temperatures

---

**Filter, Humidifier Pad and UV Lamp Replacement Reminder:**
- Dealer Logo On-Screen
- Private Labeling Available

---

**System Components:**
- Portable Comfort Control
- Wireless Outdoor Sensor
- Equipment Interface Module
- Wireless Adapter

---

**Model Compatibility:**
- THX9321R5000
- THX9321R1008
- TH6320R1004
- TH5320R1002
- REM5000R1001
- C7089R1013
- THM5320R1000
- THM4000R1000

---

**Limited:**
- Warranty
- Wiring Terminals
- Relocate Thermostat Without Running New Wires
- Upgrade to Multi-stage or Add Cooling Without Running New Thermostat Wires
- Add to a TrueZONE® System Without Running New Thermostat Wires
- Displays Outdoor Temperature and Humidity
- Controls Humidification
- Controls Dehumidification
- Temperature Control on Demand
- Adjust RedLINK-Enabled Thermostats from a Single Control
- Program Options
- ENERGY STAR®
- Temporary Override
- Permanent Hold
- Vacation Hold
- Touchscreen
- Soft Keys
- Stages
- Gas, Oil or Electric
- Hardwired
- 8 Stages

---

**Wireless Adapter Compatibility:**
- THM4000R1000
- THM4000R1000

---

**Wireless FocusPRO® Thermostats Compatibility:**
- TH6320R1004
- TH5320R1002
- REM5000R1001
- C7089R1013
- THM5320R1000
- THM4000R1000

---

**Prestige™ Thermostats Compatibility:**
- THX9321R5000
- THX9321R1008
- REM5000R1001
- C7089R1013
- THM5320R1000
- THM4000R1000

---

**System Components Compatibility:**
- Portable Comfort Control
- Wireless Outdoor Sensor
- Equipment Interface Module
- Wireless Adapter

### Model

- **Prestige™ Thermostats**
  - **THX9321R5000**
    - * • • • •** •** •**
    - 7-Day
    - • Fixed and Adjustable
    - • • •
    - Up to 3H/2C Heat Pump or 2H/2C Conventional
    - Hardwired
    - 5 years
    - C, R, R2, W-0/B, W2-Aux/E, Y, Y2, G, L, K, HUM, HUM, DHM, DHM

- **Prestige SD Thermostat**
  - **THX9321R1008**
    - * • • • •** •** •** •**
    - 7-Day
    - • Fixed and Adjustable
    - • • •
    - Up to 3H/2C Heat Pump or 2H/2C Conventional
    - Hardwired
    - 5 years
    - C, R, R2, W-0/B, W2-Aux/E, Y, Y2, G, L, K, HUM, HUM, DHM, DHM

- **Wireless FocusPRO® Thermostats**
  - **5-1-1 Programmable Thermostat**
    - **TH6320R1004**
      - • • • •* •** •** •**
      - 5-1-1 / 5-2 Day
      - • • • •
      - Up to 3H/2C Heat Pump or 2H/2C Conventional
      - Battery
      - 5.09
      - Continuous Backlighting
      - Programmable Fan
      - 5 years
      - C, R, R2, W-0/B, W2-Aux/E, Y, Y2, G, L, K, HUM, HUM, DHM, DHM

  - **Non-Programmable Thermostat**
    - **TH5320R1002**
      - • • • •* •** •** •** •
      - 5-1-1 / 5-2 Day
      - • • • •
      - Up to 3H/2C Heat Pump or 2H/2C Conventional
      - Battery
      - 5.09
      - Continuous Backlighting
      - Programmable Fan
      - 5 years
      - C, R, R2, W-0/B, W2-Aux/E, Y, Y2, G, L, K, HUM, HUM, DHM, DHM

### System Components

- **Portable Comfort Control**
  - **REM5000R1001**
    - •* • •
    - Fixed and Adjustable
    - •
    - Battery
    - 7
    - Temperature Setpoint Limits
    - Keypad Lockout
    - Programmable Fan
    - 1 year

- **Wireless Outdoor Sensor**
  - **C7089R1013**
    - Battery
    - 1 year

- **Equipment Interface Module**
  - **THM5320R1000**
    - •
    - Up to 3H/2C Heat Pump or 2H/2C Conventional
    - Hardwired
    - 5 years
    - C, R, R2, W-0/B, W2-Aux/E, Y, Y2, G, L, RAS, RAS

- **Wireless Adapter**
  - **THM4000R1000**
    - Hardwired
    - 5 years
    - A, B, C, D
We’ve Done the Math
With RedLINK™, You Can Do More With Less.

See how you can decrease your installation costs while increasing your profits. We’ve done the math for you in the example below by comparing a Conventional (Wired) Zoning System to a RedLINK (Wireless) Zoning System.

**Step 1. Determine The Products Needed For The Job**

**Conventional (Wired) 2-Zone System:**
- (1) HZ322 TrueZONE® Panel
- (2) Programmable FocusPRO® Thermostats
- (1) Discharge Air Temperature Sensor and Transformer
- (1) Bypass Damper
- (2) Regular Dampers

**RedLINK™ (Wireless) 2-Zone System:**
- (1) HZ322 TrueZONE® Panel
- (2) Wireless Programmable FocusPRO® Thermostats
- (1) Discharge Air Temperature Sensor and Transformer
- (1) Wireless Adapter
- (1) Portable Comfort Control
- (1) Wireless Outdoor Sensor
- (1) Bypass Damper
- (2) Regular Dampers
- (1) Wireless Adapter

**Thermostat Wire - (100 ft.)**

**Step 2. Add Up Product Costs***

<table>
<thead>
<tr>
<th>Products</th>
<th>Conventional (Wired) 2-Zone System</th>
<th>RedLINK™ (Wireless) 2-Zone System</th>
</tr>
</thead>
<tbody>
<tr>
<td>(1) HZ322 TrueZONE® Panel</td>
<td>$140</td>
<td>$140</td>
</tr>
<tr>
<td>(2) Programmable FocusPRO TH6220</td>
<td>$130</td>
<td>$130</td>
</tr>
<tr>
<td>Thermostats @ $65 each</td>
<td></td>
<td>YTH6320R1023 Kit Includes:</td>
</tr>
<tr>
<td>(1) Discharge Air Temperature Sensor and Transformer</td>
<td>$36</td>
<td>(1) Wireless Programmable FocusPRO TH6320</td>
</tr>
<tr>
<td>(1) Bypass Damper</td>
<td>$100</td>
<td>(1) Wireless Adapter</td>
</tr>
<tr>
<td>(2) Regular Dampers @ $120</td>
<td>$240</td>
<td>(1) Wireless Programmable FocusPRO Thermostat</td>
</tr>
<tr>
<td>Thermostat Wire - ($0.50/ft. x 100 ft.)</td>
<td>$50</td>
<td>(1) Discharge Air Temperature Sensor and Transformer</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(1) Bypass Damper</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(2) Regular Dampers @ $120 each</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Thermostat Wire - ($0.50/ft. x 25 ft.)</td>
</tr>
</tbody>
</table>

**TOTAL $696**

**Step 3. Determine Labor Costs***

**Labor Cost**

<table>
<thead>
<tr>
<th>Labor Cost</th>
<th>Conventional (Wired) 2-Zone System</th>
<th>RedLINK™ (Wireless) 2-Zone System</th>
</tr>
</thead>
<tbody>
<tr>
<td>Installers needed</td>
<td>2</td>
<td>1</td>
</tr>
<tr>
<td>Installer Labor Rate</td>
<td>$85</td>
<td>$85</td>
</tr>
<tr>
<td>Hours Estimated</td>
<td>16</td>
<td>6</td>
</tr>
</tbody>
</table>

**TOTAL $1,360**

the RedLINK Advantage: Less Labor is Required with RedLINK.
Step 4. Establish Your Profit
Determine your net profit by subtracting what the job costs you from the job sell-price.

<table>
<thead>
<tr>
<th>SELL PRICE</th>
<th>$3,000</th>
<th>SELL PRICE</th>
<th>$3,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>− YOUR COST (Product &amp; Labor)</td>
<td>$2,056</td>
<td>− YOUR COST (Product &amp; Labor)</td>
<td>$1,279</td>
</tr>
<tr>
<td>= NET PROFIT</td>
<td>$944</td>
<td>= NET PROFIT</td>
<td>$1,721</td>
</tr>
</tbody>
</table>

the RedLINK Advantage: Less Labor = More Profit.

Step 5. Consider RedLINK Accessory Add-Ons
For an additional 5 minutes of labor, you can further increase profits and homeowner satisfaction with these RedLINK accessories.

<table>
<thead>
<tr>
<th>Portable Comfort Control</th>
<th>You Charge</th>
<th>Your Cost</th>
<th>Your Profit</th>
</tr>
</thead>
<tbody>
<tr>
<td>$200</td>
<td>$110</td>
<td>$90</td>
<td></td>
</tr>
<tr>
<td>Wireless Outdoor Sensor</td>
<td>$100</td>
<td>$52</td>
<td>$48</td>
</tr>
<tr>
<td>TOTAL</td>
<td>$138</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

the RedLINK Advantage: Increased Profits. Little or No Additional Time.

Step 6. Establish Productivity
Based on averaging your profit per labor hour, see how RedLINK adds up to more jobs done more quickly - which adds up to more profits for you.

Conventional (Wired) 2-Zone System:

<table>
<thead>
<tr>
<th>Job Profit</th>
<th>$944</th>
</tr>
</thead>
<tbody>
<tr>
<td>÷ Job Hours</td>
<td>16</td>
</tr>
<tr>
<td>= Total Profit</td>
<td>$59 per labor hour</td>
</tr>
</tbody>
</table>

RedLINK (Wireless) 2-Zone System:

<table>
<thead>
<tr>
<th>Job Profit</th>
<th>$1,859</th>
</tr>
</thead>
<tbody>
<tr>
<td>÷ Job Hours</td>
<td>6</td>
</tr>
<tr>
<td>= Total Profit</td>
<td>$310 per labor hour</td>
</tr>
</tbody>
</table>

the RedLINK Advantage: Achieve More Profit Per Labor Hour by Using RedLINK.

*Estimates taken from sampling of 10 Contractor PRO® members.
Focus On What's Really Important

Our full suite of RedLINK™-enabled wireless system kits and accessories allows you to do more for your customers, all while making more money for your business. They’ll be satisfied with a more comfortable home — not to mention the cleaner installation because you won’t have to drill, patch and paint holes in their walls. You’ll save both time and money with the ease of wireless installation and you’ll be able to make more calls and take on more projects.

It all adds up to a better bottom line, and it’s all exclusively from Honeywell.
