Uponor Supplements Extensive ProPEX® Engineered Plastic (EP) Family

Proven to exceed performance expectations in demanding applications, high temperatures and pressure and chemical levels, Uponor's existing and new EP offerings outperform the competition due to their resistance to corrosion, pitting, scaling, and other issues associated with metal system components.

In conjunction with Wirsbo AQUAPEX® tubing, EP offers a low-cost, efficient, reliable and all-plastics system that's free from the rising cost of metal.
