

TYPE CBD HEAVY-DUTY COMMERCIAL BASEBOARD HEATERS

- Heavy-duty construction
- 16 gauge front cover
- Built-in wireway
- Large wiring compartment

CBD Series heavy-duty baseboard, with its complete line of accessories and controls, can solve the space heating needs of virtually any type commercial structure. Individual room control allows you to heat each room separately for utmost energy savings.

CONSTRUCTION - This heavy-duty baseboard is designed specifically for commercial use. The front cover is made of 16 gauge cold rolled steel. A built-in wireway runs the length of each heater.

ELEMENT - Heating element design combines the durability of a steel tubular heater with the excellent heat transfer characteristics of aluminum fins.

JUNCTION BOXES - Identical prewired junction boxes at each end are large and roomy to work from the side or the front of the heater. Knockouts are provided in the backside or the bottom of each heater end.
