Note:

Note 1: Engineering Deviation E704062 used a 7.75 inch instead of an 8 inch motor conduit on units with serial numbers from 5807C05331 thru 5807C31144. If the motor needs replacing on these units, it will also be necessary to change the conduit to part number 31W14 (8 inch). The 7.75 inch conduit goes with the motor with the leads next to the mounting Stud, as used in the deviation. The 8 inch conduit goes with the motor with the leads in the middle of the mounting studs.
