

AIRTEC PRODUCTS CORPORATION

AIRTEC MODEL MV-2, 3, 4 & MODEL MV360 (Round)

A unique plastic ceiling diffuser which incorporates an integral ceiling box. Intended for residential and light commercial applications, these products are currently available in 8" x 8" rectangular (Model MV-2, 3, 4) and 8" diameter (Model MV-360) only. They provide maximum convenience and timesaving as they are designed for easy installation by one man only working from below the ceiling.
