

ET112-001

Drain Line Adapter (DLA) with 1/4-inch Quick Connect Fitting for Reverse Osmosis filter

Features:

- Comes with all the fittings and instructions needed for installation
- Resists clogging for life long, trouble-free operation
- Eliminates gurgling noise from RO system
- No drilling into wet pipes
- UPC® and IPC® listed

General Description:

The ET112-001 is a reverse osmosis water filter drain line adapter. It is designed to connect discharge 1/4-inch tubing from a RO filter to the drain. The ET112-001 is connected to the sink drainpipe to receive the reject water from an under-counter reverse osmosis appliance or a distillation system. The installation provides a reliable and trouble-free connection of the 1/4-inch discharge water tubing to the drain line.

The ET112-001 is designed for residential and commercial use. The ET112-001 is the preferred way to connect RO system to the drain line. The ET112-001 eliminates gurgling sound and provides a safe and effective way to comply with all local plumbing codes.

The ET112-001 drain adapter is UPC and IPC listed.

Mechanical Specifications:

- Width: 3-1/2 inches
- Height: 4 inches

Accessories (included):

- 3-Way Repair Tee
- 1/4-inch push-in drain line adapter
- (3) 1-1/2 inches slip joint wing nuts
- (3) 1-1/2 inches slip joint beveled washer
- Locking clip

Alternative PN:

- 12-25QC, DLA-12

Inlet/Outlet Specifications:

- Inlet: 1/4-inch push in
- Outlet: 1-1/2 inches

Material

- Body: Reinforced polypropylene

Approvals

- UPC: Listed
- IPC: Tested by independent lab
