Maximize the Flow of **ANY** Vacuum Pump

Vacuum Rated  
to 20 microns

Featuring the  
**All NEW**  
Speed-Y

Easy Simultaneous  
Connections

# The Greater the **Flow** . . . the ***Faster*** it'll Go!

The MegaFlow **SpeedKit-V** makes it easy to hook-up multiple **simultaneous** connections. The kit contains **(1) 3/8in FL and (1) 1/2in FL Speed-Y**. Both Speed-Y's have (2) 3/8in MFL fittings and are **Vacuum-Rated to 20 Microns**. Between both Speed-Y's, the **SpeedKit-V** will work on most vacuum pumps.

The MegaFlow **Valve Core Removal Tools** included in the SpeedKit-V work with both **Standard 1/4in Systems** and **Ductless 5/16in Systems**. Always remove valve cores from the system for **Full Flow and Fast Evacuation**.

The SpeedKit-V Features **(2) 1/2in 6ft MegaFlow Vacuum-Rated Evacuation Hoses**. These Vacuum-Rated hoses **won't permeate or collapse in a deep Vacuum**. With a Large Interior Diameter these MegaFlow hoses have **Greater Flow** than standard 3/8in hoses.

Multiple inputs and large diameter hoses allow a vacuum pump to operate at full capacity. Hose diameter can dramatically impact evacuation times!

## Evacuating a 10-ton system to 500 microns

|                                    |         |
|------------------------------------|---------|
| 6-ft, 1/4" hose through valve core | 40 min. |
| 6-ft, 1/4" hose & core removed     | 19 min. |
| 6-ft, 1/2" hose & core removed     | 3 min.  |

*NIST-traceable results. All connections made with 1/4in FL fittings.  
Contact Appion Inc. for more information.*

The SPDKIT-V includes  
the New Appion  
MegaFlow Tool Bag

\* Extra MH12000EAK hoses sold separately
