

Healthy Dehumidified Air

Control Moisture. Prevent Mold & Damage.

Reduce excess humidity to create a healthy, comfortable home by preventing mold, odors, and structural damage.

We are professional-grade Healthy Air solutions. AprilAire is on a mission to enhance people's health by improving the air in their homes. Healthy Air is essential to living a healthy lifestyle and improving our overall well-being. We are inspired by the needs of consumers and the expertise of professional contractors to create, design, and build innovative solutions.

AprilAire is Healthy Air.

AprilAire Healthy Air System®

The comprehensive all-in-one AprilAire Healthy Air System® is the most effective way to create a healthy home. Designed to meet your unique needs, the whole-house system will create a Healthy Air environment by removing dust, allergens, and viruses from your air and equipment, balancing humidity, introducing fresh air, and mitigating harmful radon gas.

5x

More Polluted

The air in today's highly energy-efficient, tightly built homes can be 5x more polluted than the air outside.

50

Years at Home

The average person lives to be 79 years old. 70 of those years are spent indoors—with 50 years spent in their own home.

6M

Homes

Over 6 million U.S. homes have radon levels above 4 picocuries per liter (pCi/L) requiring mitigation according to the EPA.

Dehumidifier

- Reduces mold, mildew, and musty odors
- Improves comfort by eliminating sticky, humid air
- Protects home structure and belongings from moisture damage

Humidifier

- Prevents dry air issues like cracked skin, bloody noses, and static electricity
- Protects wood, floors, belongings, and furniture
- Supports immunity and helps improve sleep

Air Cleaner and Media

- Industry-leading filtration providing low static pressure and a broad range of MERV options
- Extends HVAC system life with a guarantee to keep coils clean
- Removes up to 99% of airborne and allergy pollutants

UVC (Ultra Violet)

- Kills viruses, bacteria, and mold spores
- Prevents harmful HVAC coil buildup
- Enhances overall air cleanliness by reducing biological contaminants

Healthy Air System Controls

- Balances indoor temp and indoor air quality
- Boosts energy savings year-round
- Allows remote control and automation

Fresh Air Ventilation

- Brings in clean air, diluting indoor pollutants, odors, and VOCs
- Helps control humidity, reducing mold growth and moisture
- Supports a healthier home by preventing stale, stuffy air

Radon Mitigation

- Reduces exposure to radon gas, lowering the risk of lung cancer
- Continuously removes radon from indoor air
- Increases home value with a safer living environment

¹Contaminants removed based on air passing through the filtering system

Healthy Air is within reach with AprilAire

While high humidity is a threat to health and comfort in every home, there’s an easy solution. An AprilAire Whole-home Dehumidifier will automatically remove the right amount of humidity from your home.

Maintain Wellness

Reduce airborne illnesses that can cause respiratory infections, asthma attacks, and allergic reactions by maintaining proper relative humidity in your home.

Home Preservation

Help preserve the natural beauty of items in your home that might be susceptible to warping, cracking, or other permanent damage due to high humidity levels.

Lower Energy Costs

Dehumidifiers can affect the “real feel” temperature in your home, which can prevent your air conditioner from working overtime.

Reduce the number of viable viruses in the air to less than 1% in 2 days when set to 50% RH.*
