

Project: _____

Dealer: _____

Architect: _____

Engineer: _____

Contractor: _____

Location: _____

Suppliers: _____

Date: _____

1 – Modulating Humidistat	
Microprocessor based design with proportional algorithm	
Display	Digital with backlight
Output Signal	On/Off 0 - 10Vdc (proportional) 2 - 10Vdc (proportional)
Capability	Humidification Dehumidification
Input Signal	External humidity sensor input
Electrical Connection	18 AWG (.8 mm ² minimum)
Weight	0.35 lb (160 g)

2 – Outdoor Temperature Sensor	
10K Thermistor	
Lead Wire	UL 2468 24/2C AWG: -40°C to 80°C Heat resistance wire. 36 in (915 mm) long
Mounting Bracket	18 AWG Aluminum - Painted Sky White

1 – Modulating Humidistat Dimensions		
Dimension	Inches (in)	Metric (mm)
A	2.85	73
B	4.85	123
C	1.00	24
D	2.36	60
E	3.27	83
