

BASO Gas Products LLC

J Series BASO® Combination Standing Pilot Burner

Description

This Series of pilot burners is used for standing pilot applications and is available in many tip arrangements. The J990MDA-2 is a universal replacement pilot burner for J12_DDA, J13_DDA (D12 and D13) types with No. 9 tip arrangements.

The J991MDA-2 through J999MDA-2 models are universal replacement pilot burners for J10_DDA, J11_DDA (D10 and D11) types (see the *Selection Chart* for tip arrangements).

The pilot burners are individually packed in a plastic bag with one natural gas inlet installed, one LP gas inlet fitting, and necessary parts for mounting.
