

48" Stainless Steel Braided Dishwasher Connector

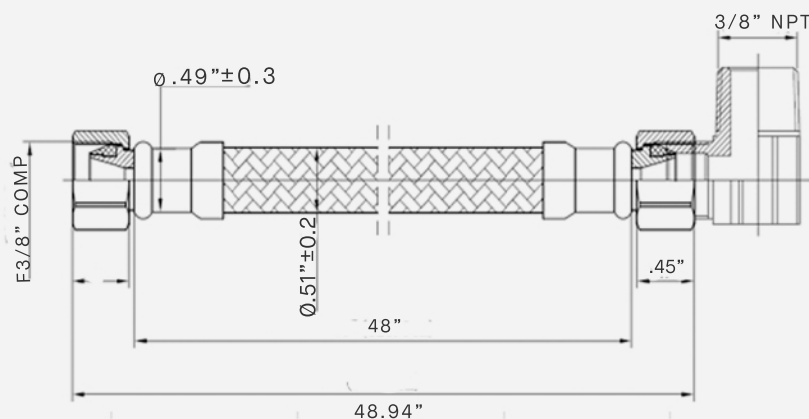

Comp. x 3/8" Comp. w/MIP Elbow

FEATURES

- **Stainless Steel Construction**- makes the connector highly resistant to corrosion and rust
- **Braided Design**- allows for greater flexibility and easier installation in tight spaces or around obstacles
- **Brass Elbow**- provides added strength to the connector's critical elbow section while withstanding pressure and stress from water supply lines
- **PVC Tube**- flexible, corrosion resistant, and capable of withstanding the heat generated by the dishwasher's hot water cycles
- **UPC/NSF Certified**- lead free for safe and sanitary use in commercial and residential water systems
- 3/8" Compression x 3/8" Compression

SKU: DC48-ME

Connection	3/8" Comp. x 3/8" Comp. w/3/8" MIP Elbow
Length	48"
MIP Elbow	Brass
Compression nut	Nickel plated brass
Sleeve	SS 304
Core	Two-layer NSF approved PVC
Outer	SS 304 braided
Gasket	EPDM
Insert	Low lead brass
Max working pressure	125 PSI
Working temperature	40°F-150°F, intermittent to 180°F
