

72" Braided Stainless Steel Fits-All

Dishwasher Connector w/ MIP Elbow & Adapters

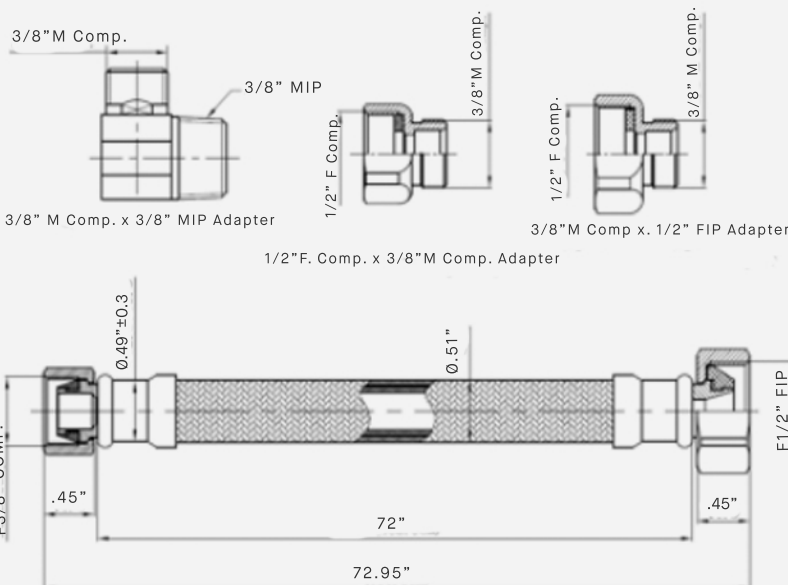

3/8" Compression x 1/2" FIP

FEATURES

- **Stainless Steel Connector** - makes the connector highly resistant to corrosion and rust
- **Braided Design** - allows for greater flexibility and easier installation in tight spaces or around obstacles
- **MIP Elbow**- allows for angled turns without kinking or crimping the water line
- **Brass Elbow**- provides added strength to the connector's critical elbow section while withstanding pressure and stress from water supply lines
- **PVC Tube**- flexible, corrosion resistant, and capable of withstanding the heat generated by the dishwasher's hot water cycles
- **UPC/NSF Certified**- lead free for safe and sanitary use in commercial and residential water systems
- 3/8" Compression x 1/2" FIP

SKU: DC72-3850-MEA

Connection	3/8" Comp. x 1/2" FIP w/ brass elbow & adapter
Length	72"
3/8" MComp. X 3/8" MIP Elbow	Brass
3/8" MComp. X 1/2" FComp adapter	Low lead brass
3/8" MComp. X 1/2" FIP adapter	Low lead brass
Compression nut	Nickel plated brass
Sleeve	SS 304
Core	Two-layer NSF approved PVC
Outer	SS 304 braided
Gasket	EPDM
Insert	Low lead brass
Max working pressure	125 PSI
Working temperature	40°F-150°F, intermittent to 180°F
