

Replacement Flow Meter for Bluefin Manifolds

SKU: HMRPFM

FEATURES

- **Replacement Flow Meter** – Provides accurate measurement of fluid flow.
- **.2 – 1.3 GPM Display Range** – Covers a wide range of flow rates for a wide variety of applications
- **Important Compatibility Note** – These Bluefin flow meters were introduced in December 2013. To use these flow meters with Bluefin manifolds purchased before December 2013, the bottom connector (HMRPBC) must also be replaced. The flow meters made prior to December 2013 are no longer available.
