

1/2" Union Sweat Mixing Valve, 80 to 120F

Lead Free

FEATURES

- Sweat connection
- Material: Lead Free
- Working pressure: 14.5 -72.5 psi (1bar-5bar)
- Cold temperature: 39.2 - 80.6°F (4°C-27°C)
- Hot temperature: 120 - 180°F (49°C-82°C)
- Mixing water temperature range: 95 -120°F (35-49°C)
- Temperature adjustable precision: $\pm 2^{\circ}\text{C}$
- Factory temperature setting: 105.08°F(40.6°C)
- Minimum temperature differential (between hot supply and outlet temperature) :10°C
- Maximum working pressure (inlet) 150 psi(10.3 bar)
- Permitted inlet supply pressure variation $\pm 20\%$
- Connection type:1/2" Solder
- Standard: ASSE1070 & ASSE1017 & CUPC & NSF 61/372
