

1/2" x 1429" PTFE Thread Seal Tape

PTFE Material

FEATURES

- 1429" Length – This length provides enough material for multiple jobs.
- PTFE Material – Known for its low friction and high chemical resistance.
- Temperature Range -450°F - 500°F – Performs well, even in extreme temperature environments.
- 1/2" Width – The standardized width ensures compatibility with a wide range of fittings.
- Max Pressure (PSI) 10000 – For effective use in high-pressure systems.
