

Sewage Pump

4/10 HP Automatic Submersible Sewage Pump

FEATURES

- **Prevents clogging** – The durable cast iron construction and heavy-duty volute and impeller run efficiently and prevent clogging, even while fully-submerged.
- **Runs automatically** – Designed with a built-in automatic thermal overload protector motor, check valve, and vertical float switch (or piggyback tether) to prevent electrical problems, backflow, and overflow without constant supervision.
- **Versatile** - The NPT discharge hose can handle waste solids up to 2" in diameter for effective use in most residential and commercial general water transfer applications.
- **Convenient** - Equipped with a 10ft power cord for easy operation in a variety of spaces.
