

PEX Tube Uncoiler

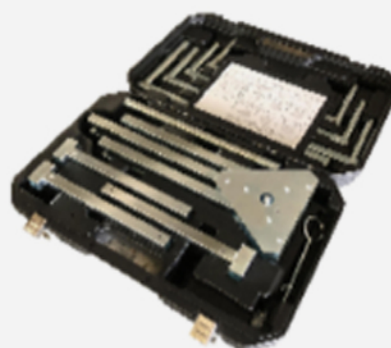

SKU: PXTBUC

DESCRIPTION

- The Tube Uncoiler helps uncoil PEX tubing from 5/16" to 1", simplifying the installation process and reducing labor. Weighted arms hold tubing in place during uncoiling while the eyelet keeps tubing from tangling. The base is fully collapsible and no additional hardware is required for attaching arms, making assembly easy.
- **Note:** once assembled, the guide pin must be installed on the swivel arm to keep the arm in place.
