

1/2" Sweat Chrome Plated, Oversized Flange Sillcock

Lead Free

FEATURES

- **Nickel-plated Forged Brass Body** – Prevents corrosion and allows the product to handle a wide range of liquids
- **Stainless Steel Handle** – provides exceptional durability and resistance to corrosion
- **Extended Threads on Bibb End** – for a secure, reliable connection
- **Operating Temperature Range** - 32°F - 300°F
- **Easy to Use** – the oversized flange, PTFE ball, and adjustable stem packing gland make installation and operation remarkably simple.
- **1/4 Turn Ball Valve** – Offers quick and easy control of water flow.
- **Maximum Operating Pressure 360 PSI** – High-pressure tolerance makes it suitable for a variety of demanding applications.
- **Low Operating Torque** – Requires minimal force for operation, making it user-friendly and reducing physical strain during use.
- **Patented Design**
- **Replaces conventional gate valve sillcock**
