

Spring Loaded Check Valve

Stainless Steel

FEATURES

- **Certified Lead-Free** - Meets AB1953 standards for safe use in drinking water systems
- **Versatile** – Able to withstand a maximum pressure of 200 PSI and a temperature range of 32°F -176°F (0°C-80° C) to accommodate a wide-variety of plumbing systems
- **Durable** – The polyethylene washer, NBR o-ring and stainless steel 304 construction keep the valve corrosion resistant
