

Bluefin

SKU: TH25-250-CL

2.5" Aluminum Clamp-On Thermometer

Features:

Provides an economical and accurate method to measure surface temperatures on a 1" (25mm) to 3" (75mm) pipe.

Clamp-on design with steel spring.

Dual scale (°F & °C)

Easy to install

2.5% Accuracy

Applications:

To measure surface temperature on pipe in the heating, ventilation, air conditioning, wastewater, industrial process markets.

Specifications:

Standard	EN 837-1
Scale	0-120 °C / 32-250 °F
Dial	2-1/2", Black markings
Case	Black painted steel
Lens	Glass
Ring	Snap on stainless steel
Bracket	Galvanized steel
Sensing Element	Bi-metallic coil
Pointer	Aluminum, painted black
Over-Range	25% of full scale value
Accuracy	2.5% of full scale
