

SKU: CTKHOSW

HVAC CONDENSATE TRAP KIT WITH OVERFLOW SWITCH

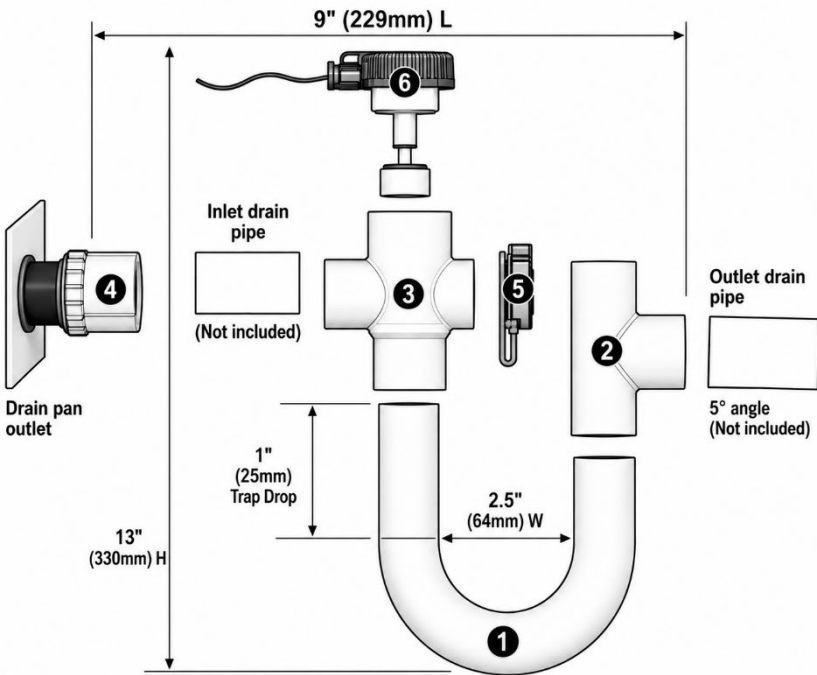

Applications:

HVAC Condensate Trap Kits are designed for residential and light commercial condensate drain systems. They provide reliable condensate drainage while allowing technicians to quickly inspect flow, verify proper trap operation, and identify potential blockages through the transparent trap body. Ideal for new installations and replacement applications, these kits simplify maintenance and help improve long-term system reliability.

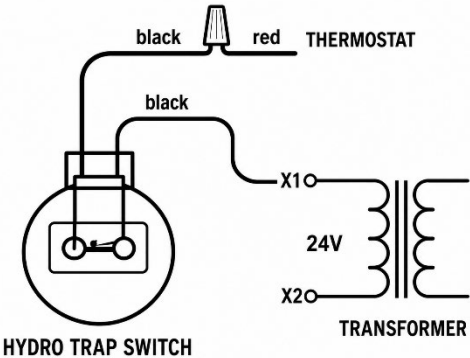

- Product Features:**
- Reliably collects and drains condensate from HVAC cooling coil drain pans
 - Helps prevent system failures caused by clogged or overflowing condensate drains
 - Clear housing allows quick visual inspection and troubleshooting
 - Easy field installation for new or replacement applications
 - Durable construction for long-lasting performance
 - Compatible with a wide range of residential and light commercial HVAC systems

Specifications:

Material:	Schedule 40 PVC
Height:	13" (330mm)
Length:	9" (229mm)
Width:	2.5" (64mm)
Drain Connection Size:	3/4" (19mm) PVC (Schedule 40)
Trap Drop	1" (25mm)
Switch Cable Length	72" (1.8m)
Switch Rating	24 VAC low-voltage control circuit
Switch Function:	Automatically shuts down the cooling system when a condensate blockage causes water to back up

- Contents:**
- 3/4" J-trap ①
 - 3/4" Outlet tee ②
 - 3/4" Inlet cross ③
 - 3/4" Adaptor ④
 - 3/4" Blue slip cap (2 pcs) ⑤
 - Float switch assembly ⑥
 - Cleaning label
 - Cleaning brush
