Specification Sheet

SKU: LSC600

6” x 6.5’ 90° Line Set Cover (Natural)

Applications:

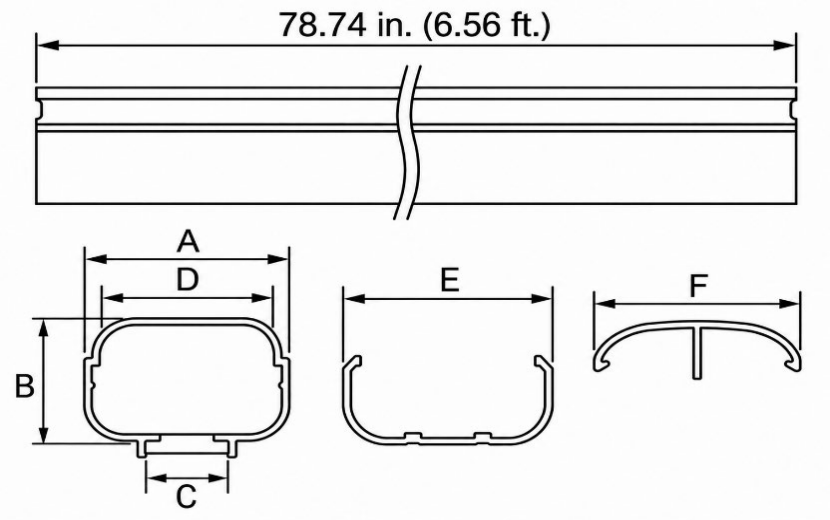

Designed to conceal and protect refrigerant line sets, condensate drain lines, power wiring, and control cables used with ductless mini-split and other HVAC systems. Suitable for indoor and outdoor installations, providing a clean, professional finished appearance where piping cannot be concealed within a wall.

Product Features

- Protects and conceals HVAC line sets, wiring, and drain lines
- UV-resistant construction for indoor and outdoor use
- Helps protect components from weather and physical damage
- Removable cover provides access for service and maintenance
- Fittings and accessories allow routing around corners and wall penetrations
- Clean, finished appearance for exposed HVAC installations
- Paintable surface allows the cover to blend with surrounding finishes
- Snap-together design helps simplify installation
- Paintable*

Materials

- Line Set Cover & Fittings: Rigid, UV-resistant PVC
