

SKU: PVBTP100

1" PVC Condensate P-Trap

Applications:

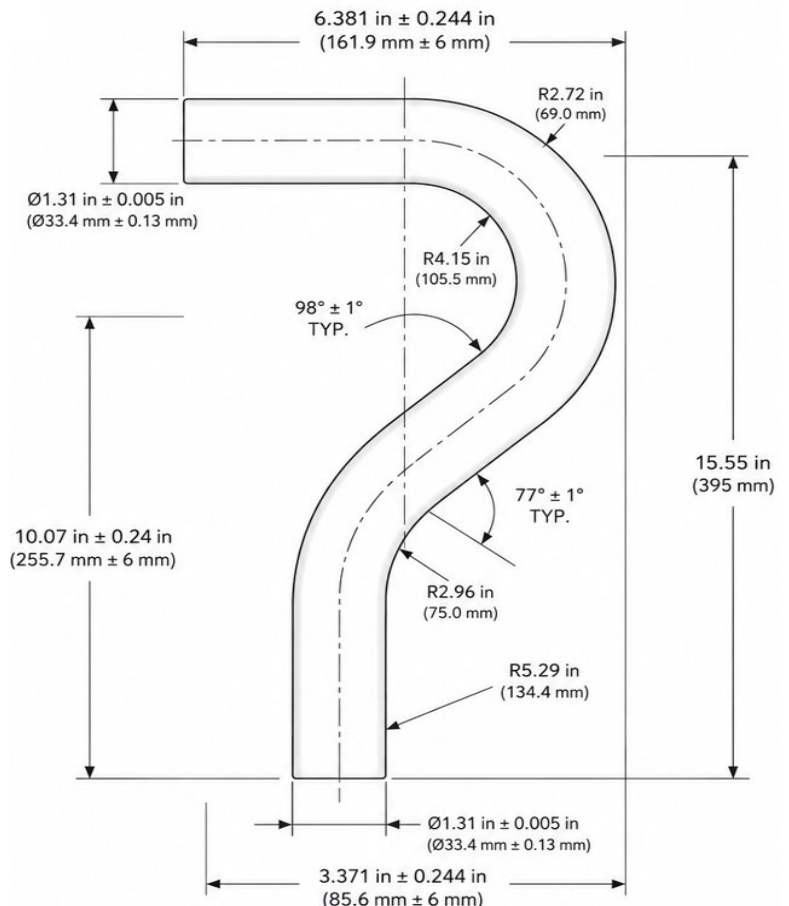

The 1" PVC condensate P-trap is designed for use in HVAC condensate drain systems to prevent sewer gases and odors from entering the building while allowing proper drainage. Ideal for use with air handlers, fan coils, and condensate pumps in residential and commercial installations.

Product Features

- Durable PVC Construction
- 1" slip connection
- Smooth interior for optimal flow
- Corrosion and chemical resistant
- Lightweight and easy to install
- Helps prevent sewer gases and odors from entering the system
- Designed for HVAC condensate drain applications

Materials

- Schedule 40 PVC (Polyvinyl Chloride)

Notes:

- All Dimensions are nominal
- Dimensions in inches (millimeters)
- Tolerance $\pm$ 0.005 inch ($\pm$ 0.13mm) unless otherwise noted
- For use with HVAC condensate drain systems only
