

SKU: WCSB100

Standard Wire Connector, Blue (Pack of 100)

Specifications

General

- **Color / Finish:** Blue
- **Wire Nut Type:** Standard Wire Connector

Electrical Ratings

- **Max Voltage:** 300v
- **Max Temp Rating:** 221°F (105°C)

Wire Compatibility

- **Compatible Wire Gauge:** #22 –14 AWG
- **Wire Type:** Copper / Copper
- **Minimum Wire Combination:** (2) × #22 AWG
- **Maximum Wire Combination:** (3) × #16 AWG

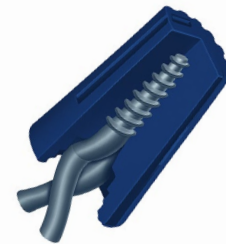

Strip Length Requirements

- **#16 AWG and Smaller:** 1/2" (12.7 mm)
- **#14 AWG:** 3/8" (9.5 mm)
-

Applications

Bluefin wire connectors provide reliable electrical splicing for residential, commercial, and light-industrial use. Their flame-retardant shell and square-wire spring ensure secure connections, while sure-grip ribs and a threaded funnel entry make installation easy. Color-coded and UL/CSA certified, they offer strong protection and are intended for copper-to-copper conductors only.

Materials:

- Flame-retardant thermoplastic shell

Certifications

- UL 486C
- CSA certification
