

SKU: WCSY100

## Standard Wire Connector, Yellow (Pack of 100)

### Specifications

#### General

- **Color / Finish:** Yellow
- **Wire Nut Type:** Standard Wire Connector

#### Electrical Ratings

- **Max Voltage:** 600v
- **Max Temp Rating:** 221°F (105°C)

#### Wire Compatibility

- **Compatible Wire Gauge:** #22 - #10 AWG
- **Wire Type:** Copper / Copper
- **Minimum Wire Combination:** (3) × #20 AWG Sol
- **Maximum Wire Combination:** (2) × #12 w/ (2) #14 AWG

#### Strip Length Requirements

- **#14 AWG:** 3/8" (9.5 mm)
- **#16 AWG and Smaller:** 7/16" (11.1 mm)

### Applications

Bluefin wire connectors provide reliable electrical splicing for residential, commercial, and light-industrial use. Their flame-retardant shell and square-wire spring ensure secure connections, while sure-grip ribs and a threaded funnel entry make installation easy. Color-coded and UL/CSA certified, they offer strong protection and are intended for copper-to-copper conductors only.

### Materials:

- Flame-retardant thermoplastic shell

### Certifications

- UL 486C
- CSA certification
