

BII 14-IM SERIES ICEMAKER / IN-LINE TASTE AND ODOUR FILTER

Application:

- Designed to remove unpleasant tastes and odours as well as sediment
- Low pressure drop and steady flow rates
- Easy in-line installation and suitable for automatic icemaker, reverse osmosis, coffee maker, water dispensers
- Integral post filter to remove small carbon fines and other sediment

Specification:

- Max Temperature Rating: 110°F (43°C)
- Max Pressure Rating: 125 PSI
- Filter media: Coconut Shell Activated Carbon
- Filter media: Polypropylene post filter
- Filter body: Polypropylene

Always Test Water - Do not use this product with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the filtration system.

Change Out - Replacement filter cartridges have a limited service life. Changes in taste, colour and flow of the water (other liquid) being filtered are signals that replacement of the cartridge may be necessary.
