Central Brass COMPANY

SPECIFICATION SHEET

0338-1/2
Central Brass Series

Sensor Urinal Flush Valve

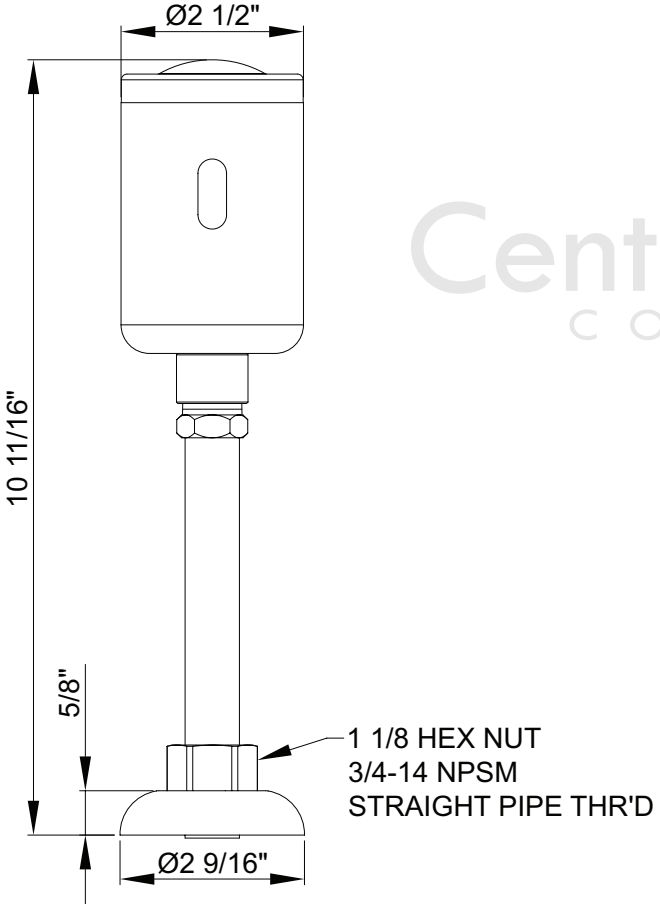

- Touchless & Hygienic: Built-in infrared sensor automatically detects motion up to 12” away for completely hands-free operation, reducing cross-contamination in public restrooms.
- Smart Double-Stage Flushing: Programmed for efficiency-runs an initial 3-second flush upon presence, followed by a 10-second flush for thorough cleaning when usage continues.
- Heavy-Duty Commercial Build: Made from solid, corrosion-resistant metal designed to withstand continuous, high-traffic use.
- Water & Cost Efficient: Delivers consistent, precise water control to support sustainability goals and lower utility bills.
- Long-Lasting Battery Life: Powered by 4 AAA batteries (not included) delivering up to 30,000+ flush cycles (approx. 1-2 years under standard commercial use). Lithium AAA batteries recommended for maximum service life.
- Built to Last & Clog-Free: Includes an inline filter that traps debris before it reaches the solenoid valve, preventing clogs and reducing repairs.
- Standard Fit & Easy Retrofit: Standard 1/2-14 NPT male thread inlet for seamless installation; includes a 6-3/4” long stand pipe with nut and flange.

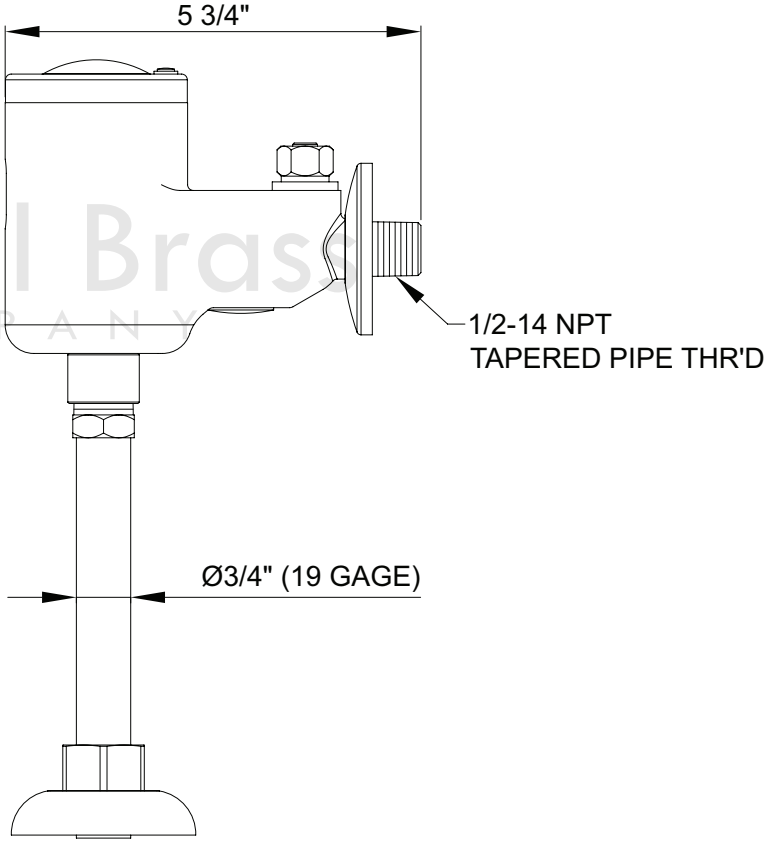

Code and Standards

- ADA: Compliance to ICC/ANSI A117.1 (Lever Handle Only)
