Breez Plus Smart Wi-Fi Controller is designed to maximize your convenience and energy savings

Cielo Breez Plus is a plug & play smart air conditioner controller. It directly connects to your home Wi-Fi router and controls your air conditioner through IR signals.

Installation and setup takes only a few minutes. 'Cielo Home' app lets you control your heating or cooling from anywhere. Adjust the temperature, set schedules, apply location controls, use comfy mode, set temperature range, see your usage history, check the live air filter status of your AC and more from anywhere.

Compatibility

Breez Plus Smart AC controller works with 175+ Brands (mini split ACs, portables ACs, window ACs) with their 1800+ remotes control models.

Control From Anywhere

Forget your AC's remote. Breez Plus gives you control from anywhere via 'Cielo Home' app. On-device touch buttons ensure you can control your AC even without Wi-Fi.

Talk Directly to your ACs!

**Cielo Breez Plus works with Amazon Alexa and the Google Assistant.
Managing your ACs and Heat Pumps is possible with simple voice commands.**

Cielo Breez Plus - Smart Wi-Fi Air Conditioner Controller

Control your air conditioner from anywhere, anytime

Quick & Easy Installation

Breez Plus Wi-Fi Ductless Controller is simple to install & setup. Installation can be done on the wall or on a desk via table stand. The smart AC controller can be powered through 5V adapter or can be hard wired through 24/12V. The smart AC controller has got inbuilt temperature and humidity sensors. Four IR transmitters on the device is a big plus for placement. The smart controller works with or without Wi-Fi. The Breez Plus smart AC controller is compatible with almost all AC brands (Mini splits, window or portables). The best plug n play smart AC controller in the market.

Perfect Room Conditions

Get the room conditions of your liking at a room location of your choice. Breez Plus device, senses temperature/humidity (through built-in sensors), making it easy to get the room environment of your liking. The room temperature & humidity are always displayed on the device.

‘Cielo Home’ App

‘Cielo Home’ app is tailored to control any type of mini split, portable and window AC connected through Cielo Breez Plus smart AC controller. All your AC controls move with you. Changing temperature, mode, fan speed or swing position on the go was never so easy. Enjoy the convenience and savings through setting of ‘My Rules’ in ‘Cielo Home’ app.

Smart Air Conditioning at its very best!

Cielo Breez Plus Wi-Fi controller is a perfect smart control for any new or old AC. Breez Plus is a great combination of responsive controls, intuitive features & affordable price.
