

Copeland Scroll™ ZS*KA compressor

For extended medium to high
temperature refrigeration applications

Improved efficiency and reliability plus quieter operation

The Copeland Scroll ZS*KA compressor represents the latest innovation in compliant scroll technology for refrigeration equipment from 1-4 HP (9k-33k BTU/hr at medium temperature ARI). It is 8-22% more efficient than standard reciprocating compressors with 70% less moving parts for increased reliability.

The ZS*KA models are intended for extended medium to high temperature refrigeration type duty and are ideally suited for applications such as walk-in, reach-in, coolers, soft serve and frozen carbonated beverage. These are wide-ranged, multi-refrigerant capable with lower sound and vibration recommended for supermarket, restaurant and convenience store operations.
