

DuPont™ Tyvek®

Cross-over guide

Finding DuPont protective apparel just got easier.

We've simplified our product identification system by replacing the original product names with an easy-to-follow numeric system. The higher the number, the higher the level of protection—it's that simple.

Patch Shape

The first thing you'll notice is the shape of the patch. All garment patches are in the shape of a stop sign. You'll see similar patches on DuPont™ ProShield® and DuPont™ Tychem® garments as well.

Product Identification Number

The number within the patch indicates the garment's level of protection. The higher the number, the greater the protection.

Global Availability

No matter what part of the world you're working in, you'll have peace of mind knowing the same performance and protection standards apply.

Familiar Part Numbers

You can continue to use the familiar 16-digit part numbers, also known as SKUs, to place orders. Package quantities will also remain the same.

Sample part number

TY122SWHXX002500

Original

DuPont™
Tyvek®

Original DuPont™ Tyvek® product names are shown below.

New

You can expect the same DuPont™ Tyvek® garment construction and performance under the new product identification system.

new garment

Tyvek® Plus

Tyvek® Xpert

Tyvek®

Tyvek® Dual

Tyvek® 800

Tyvek® 600

Tyvek® 500

Tyvek® 400

Tyvek® 400 D

LEVEL OF PROTECTION

D = Dual

Wear with confidence.

DuPont™ Tyvek® provides the best balance of protection, durability and comfort.

Our Tyvek® protective apparel helps protect your workers against many low-concentration, water-based, inorganic chemicals and particles, down to one micron in size. Protection is built into the fabric itself; there are no films or laminates to abrade or wear away.

And for a better fit, Tyvek® garments with comfort fit design have been engineered for enhanced worker range of motion and durability in use. So whether they're performing asbestos abatement or installing insulation, we want to help you protect your workers.

DuPont™ SafeSPEC™

Different jobs require different levels of protection. The DuPont™ SafeSPEC™ online tool helps you find what's right for you. Browse and compare products by brand, design or certification. The easy-to-read content, product images and technical data—including permeation results—allow you to make informed garment choices.

Now for mobile, too.

DuPont™ SafeSPEC™ for Mobile gives you all the same features and garment selection help on your mobile device. Available now from the App Store® and Google Play™.
