

## Near-Boiler Trim Kit

The Boiler Pak combines several components into one simple package, optimizing installation and providing quality products. This near-boiler trim kit ensures efficiency for hydronic installations and allows installers flexibility with four different options to choose from. The Boiler Pak provides the BaseFlex expansion tank along with the Flexconsole mounting bracket to ensure stability and safety to the tank. The different Paks also include a variety of methods for air and dirt separation, isolation valves, brass tees, autofill valves, and backflow prevention.

The Boiler Pak includes two additional sizing options:

- 4.75 or 6.6 Gallon BaseFlex
- 1" or 1¼" Flamcovent Clean Smart/Flamcovent Smart

Boiler Pak Basic with Vent	Boiler Pak Basic with Air Separator	Boiler Pak Premium with Manual Vent	Boiler Pak Premium with Flow Through
