Dishwasher Supply Kit #B6W60K

Dishwasher Supply Kit #B6W72K

Dishwasher Supply Kit #1W48CUK

**Smooth bend allows better water
flow with less turbulence**

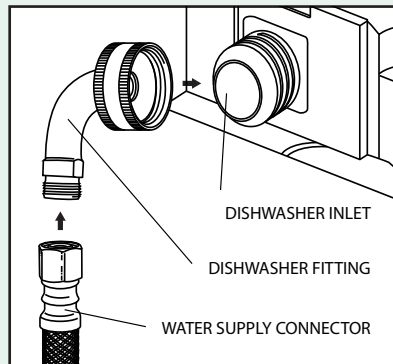

**Low lead compliant when used
with Fluidmaster® Connector**

**Large inner diameter allows
better water flow**

THE FLUIDMASTER® ADVANTAGE:

- High Quality
- Machined Brass For Better Flow
- Reduced Turbulence
- Faster Fill
- More Efficient

EASY INSTALLATION

All dishwasher models manufactured by Whirlpool® Corporation after September 2009 including Whirlpool®, Maytag®, Amana®, KitchenAid® and Jenn-Air® branded dishwashers will have a 3/4" inlet size. The design change of the inlet is intended to make installation easier to align and attach and will require less torque to make an adequate seal. This will improve the quality of the installation, saving time and effort.
