

# CSST JACKET STRIPPING TOOL

Gastite®

**FlashShield<sup>+</sup>**  
ENHANCED PROTECTION

## MAKE EVERY INSTALLATION EASIER AND SAFER.

With the FlashShield+ Jacket Stripping Tool, you can quickly and correctly remove the protective jacket layers from the gas corrugated stainless steel tube (CSST) before connecting an XR3™ fitting. The Jacket Stripping Tool replaces your utility knife by taking the guesswork out of counting corrugations.

For use with the FlashShield+/Gastite CSST only and cannot be used on any other CSST brand.

Latch snaps to stay open or closed

Polypropylene body resists impact damage

Tube stop sets length of blades from cut end

Hardened stainless steel blades

STRP4-8-11
