Examples of installation applications using the HAP Universal Clip

Expansion Tanks can be secured using one or two UNC1 Kits

The UNC1 kit can support pipe or ducts overhead attaching to the CB1

Vertical pipes or ducts can be secured using the UNC1 kit.

For additional security, two UNC1 kits can be bolted to each stud.

- The Support Backet can be secured directly to the mounting surface using the appropriate screw/fastener, or
- The Bracket Bullet Nut that attaches to the Support Bracket using the provided machine screw. Then thread a 3/8" threaded rod into the Bullet Nut. Secure rod to mounting surface using appropriate method.
- Tighten Universal Support Strap around expansion tank or pipe using slotted screwdriver or 1/4" nut runner.
- **Optional HAP accessory** to purchase as needed: **PL-1111-CB1** HAP Carrier Bridge.
- **Other items** to purchase as needed:
 - 3/8" Threaded Rod(s) and 3/8" lock washers and nuts
