INTEGRITY

NEW

TBH Series True Union Ball Valve

OVERVIEW

A new generation of thermoplastic floating ball valves. The TBH Series features a low maintenance design with new patent pending System2™ Sealing Technology. Assisting users in protecting property and life, a standard integral lock-out feature secures onto the body of the valve. Actuator ready design with ISO 5211 pattern – on all sizes.

Available in 1/4" - 2" / DN8 - DN50 in PVC and CPVC materials with either EPDM or FPM seals.

**TBH Series
True Union Ball Valve**

KEY FEATURES AND BENEFITS

- System2™ Sealing Technology provides longer cycle life
- 250 PSI / 16 Bar, non-shock at 70°F/23°C full pressure rating
- Consistent operating torque with adjustment-free design
- Lockout/Tagout mechanism that secures directly to valve body for enhanced safety
- Ergonomic handle for improved grip and comfort
- ISO mounting flange simplifies actuation
- Permanent markings, eliminates labels
- Integral footpad for skid or panel mount
- FPM or EPDM seals
- Double O-Ring stem seals
- Reversible PTFE seats – standard
- Easy replacement for existing Hayward TB Series
- NSF/ANSI 61 and NSF/ANSI 372 Listed

OPTIONS AND ACCESSORIES

- Pneumatic or Electric Actuators
- Stem Extensions
- Manual Limit Switch or Spring Return Handle

MATERIALS

- PVC per ASTM D1784 Cell Class 12454
- CPVC per ASTM D1784 Cell Class 23447
- GFPP per ASTM D4101 Cell Class 85580 (Handle & Lock Plate)

**TBH Series
True Union Ball Valve

TBH Series True Union Ball Valve

ACTUATION AND CONTROL OPTIONS

HRS Series On/Off/Proportional Electric Actuators

KEY FEATURES

- On/Off or Proportional Control (2-10 vdc / 4-20mA Inputs & Outputs)
- NEMA 4/4X
- Powder Coated Aluminum Alloy Housing
- Multiple AC and DC Voltages
- Anti-Condensate Heater Standard
- Manual Override

ECP Series Glass Filled Polypropylene Electric Actuators

KEY FEATURES

- On/Off or Proportional Control (2-10 vdc / 4-20mA Inputs & Outputs)
- NEMA 4/4X
- Auto Switching Voltage
- Corrosion-Resistant GFPP Housing
- LED Status Light
- Anti-Condensation Heater
- Manual Override

PCD/PCS Series Pneumatic Actuators

KEY FEATURES

- For All Sizes of Ball and Butterfly Valves
- Four-Piston Rack and Pinion Design
- Compact, Lightweight Design
- Position Indicator
- Namur-Style Solenoid Mounting
- Adjustable Travel Stops

PMD/PMS/PMD4/PMS4 Series Pneumatic Actuators

KEY FEATURES

- Corrosion-Resistant Thermoplastic Housing in GFPP or Polyamide
- Permanently Lubricated Gear Train
- Two-Piston Rack and Pinion Design
- Namur-Style Solenoid Mounting
- Position Indicator

LHB Series Manual Limit Switch

KEY FEATURES

- Two Adjustable SPDT 10 Amp at 120 VAC Switches (Open/Close Position) - CSA Listed Switches
- For Remote Monitoring of Critical Services
- Robust GFPP Body, Cover and Plate
- 304 Stainless Steel Stem and FPM Seals
- 1/2" Conduit Port
- Terminal Blocks for Ease of Wiring
- NEMA 4/4X
- Patent No. 9,010,721 and 9,010,722
- Available with "Dead-Man" Spring Return Handle or Hand Lever (LHB-SR)

TBH Series True Union Ball Valve

EXPLODED VIEW

TBH Series True Union Ball Valve

BENEFITS

Longevity

- New Patent Pending System2™ Sealing Technology
- As with standard floating ball valves, a primary seal is formed between the ball and the downstream seat upon valve closure
- The new System2™ Sealing Technology allows the upstream seat to float against the ball which causes a backup secondary seal between the upstream seat and the ball, and increases the sealing load on the downstream seat
- System2™ Sealing Technology is fully bi-directional
- Pressure rating of 250 PSI / 16 Bar, non-shock at 70°F/23°C
- Decreased maintenance due to System2™ Sealing Technology, requires no adjustment of the seat in service
- System2™ Sealing Technology leads to a facility with less downtime

Dependability and Comfort

- Ergonomic handle to improve grip
- Symmetric handle for operation from either side of valve, left or right handed
- UV inhibited material for extended life
- Consistent operating torque with adjustment free design
- Designed with no metal fasteners

Safety

- Facilitates implementation of lockout/tagout
- Accommodates up to 4 different keyed locks for increased protection
- Padlock secures lock plate to body to avoid removal
- Handle position and windows in lock plate indicate valve is open or closed

Versatility

- Direct mount to actuators with ISO 5211 mounting pads
- Consistent valve torque due to System2™ Sealing Technology
- Actuator Ready valve priced lower than valve with handle and lock plate
- ISO 5211 couplings available in 9mm, 11mm and 14mm
- Integral panel mount facilitates one person installation
- Hex flats engage standard and metric fasteners

TBH Series True Union Ball Valve ONE VALVE PLATFORM

TBH Series

CVH Series

Same TBH Series System2™ technology with a Profile2™ ball.

TBH Series “Z-Ball”

TBH Series with black handle identifier, drilled ball for sodium hypochlorite applications.

Flow arrow indicates unidirectional seat design.

Actuator Ready

Optional adapter available.

Hayward Flow Control provides a range of mounting options to adapt to our actuators or to your preferred actuator. With the TBH Series ISO top integral flanges, all that is required is just the ISO 5211 coupling and bolting to adapt from the TBH Series stem to Hayward actuators or those actuators with ISO 5211 square drives.
