

Arm & Body Protection

2044

Innovation intertwined with safety. That's the DNA of the Helix® Series. The Helix® 2044 heat-resistant protective arm sleeve features a tightly knit, strong, and extremely dexterous 13-gauge Aramid blend shell that is fiberglass-free for workers with sensitive skin for all-day comfortable wear. The lightweight Aramid shell is rated at contact heat level 2 for use in applications involving heat, while also providing industry-leading level A6 cut resistance. Arm guard is complete with a thumb loop for a secure fit and an upper arm cuff with silicone grip to prevent slipping as well as dirt or debris from entering the sleeve. For a less bulky fit, more breathability, and enhanced comfort, the 2044 is your go-to heat-resistant arm sleeve.
