

HELIX[®] 3080

Innovation intertwined with safety. That's the DNA of the Helix[®] Series. The Helix[®] 3080 was designed to handle hot, sharp materials with a combination of resistance to arc flash, limited flame spread, and contact heat, making this a popular glove in industries like mining, oil & gas, utilities, and power generation.

A flexible neoprene foam coating provides superior grip while maintaining high dexterity and tactility.

Product features

- 13-gauge aramid and fiberglass blend shell
- Flexible neoprene foam palm coating provides superior grip and heat resistance
- Constructed with flame-resistant (FR) materials
- Rates level 4 for EN 407 limited flame spread
- Made with flame-resistant materials
- Elastic knit wrist helps prevent dirt and debris from entering the glove
- Ultimate dexterity and tactility
- Seamless construction for enhanced comfort and breathability
- REACH compliant for being skin-safe and void of harsh chemicals
- Washable
- Vend-packed
